LINCOLN, FRIDAY, FEBRUARY 28, 1919.

PRICE FIVE CENTS

## HUSKERS HAVE FOUR GAMES NEXT WEEK

Valley Interest Centered on Battles Between Kansas and Aggies.

Cornhuskers to Play "K. U." and Kansas Aggies on Enemies' Home Ground.

Missouri Valley basketball interest this week is centered on the pair of battles between "K. U." and the Kansas Aggies which is held tonight and tomorrow in Lawrence, Nebraska, especially, has an anxious eye on the outcome of these two conflicts which may show which way the championship wind is blowing.

The Jayhawks have proven themselves a doubtful quantity. They may hand the games to the Aggies on the burnished platter and thus shatter any pennant hopes for the Cornhuskers. However, if the count is split, Nebraska will have a chance.

### Four Games Next Week

It is well for loyal Cornhuskers to remember that their quintet plays two games with "K. U." next Wednesday and Thursday, and the Aggies Friday and Saturday on the enemies' home ground. These four contests absolutely determine which direction the Cornhuskers travel in the pennant race. No team ever faced a more crucial test. Four battles in as many days is a stupendous task. Dr. Stewart has accepted this decree after his efforts to change it had failed and it is now up to loyal Nebraskans to back their men. A championship is at stake.

## Y. W. C. ARRANGES FOR VISIT OF MISS BURNER

A special committee has been appointed by the Y. W. C. A. to arrange for a visit to the university of Miss Burner, the national secretary, in about two weeks, to remain for several days.

The university is very fortunate in having Miss Burner here, as her time is limited, and she can arrange to be with us only at this time. During her stay of three or four days, about two large mass meetings and some other meetings will be held. For the purpose of making further arrangements Helen Doty, chairman, has called a meeting of the committee for Monday at five o'clock at the Woman's Hall. It is very important that every member be present at the meeting promptly on time.

The committee follows:

Helen Doty, chairman.  
Mary Waters.  
Evelyn Black.  
Dorothy Weatherald.  
Ruth Hutton.  
Helen Kendall.  
Alice Allen.  
Sadie Finch.  
Hazel Sneethen.  
Bertha Helzer.  
Jean Landale.  
Boris Hostetter.  
Fae Breese.  
Marjorie Barstow.  
Ruth Du Bois.

## WAR DEPARTMENT AGENT CHECKS S. A. T. C. REPORTS

Mr. P. H. Smiley, a representative of the Committee on Education and Special Training of the United States War Department, was in the city Monday and Tuesday of this week working in co-operation with the engineering department of the university on the financial statements of the former students' army training corps. These statements include the status of both the collegiate and vocational sections of the unit, which were known as Sections A and B, respectively.

The final closing of the reports has now progressed so far as to insure the completion of the statements almost immediately. The statements when finished will contain in detail the following items: All transactions of the department from last June when the first work was launched; all purchases from every source; all expenditures for material; all sales of such material; salvage figures; valuation of all materials used in instruction, housing of students and soldiers, and mess hall expenditures.

## 91 STATE HIGH SCHOOLS ENTER THE TOURNAMENT

Enrollment to Be Larger Than Ever—Fifty More Entries Expected Saturday.

Seventy-four high schools had filed entries for the state tournament with Dr. Stewart up to four o'clock Wednesday. Seventeen entries came in Thursday and by Monday afternoon the list will be complete. Twelve o'clock tonight is the time limit for the mailing of entry blanks.

The flood of entries has begun to roll in and fifty more schools are expected to enroll at headquarters by Saturday night. Coach Stewart said: "The tournament this year will be fully as large as that of 1918, which broke all records." Many schools have found it impossible to organize their teams on account of the prolonged vacation caused by the "flu." Several of last year's entries have dropped out, notably Fairbury and Kearney in class "A." The complete list will probably be out next Tuesday.

A sight to make the gods glad—the respect everybody yields to a splendid young man or woman. Earth has nothing better to show than the homage paid to genuine worth.

## 1919 Annual to Feature Photos and Biographies of Cornhusker Warriors

The Nebraska students and alumni will be indebted for years to come to the staff of the 1919 CORNHUSKER for the effort they have put forth in obtaining pictures and biographies of the Nebraskans who were killed, wounded or decorated while in the service.

Nearly a thousand letters were written in order to obtain this information and the hundred and fifty photographs which are now either on their way to the engraver or have been finished. The majority of the student body will not be able to realize the necessity of having such a history of the real Cornhuskers who did their honest share in this Great War.

The completeness of this section

## S. R. MCKELVIE TO SPEAK AT COMMUNITY MEETING

Will Talk on "State Legislation"—Miss Shanefelt to Give Concert.

F. E. Aden, chairman of the committee which has charge of the community meetings now being held at the Orpheum Theater each Sunday afternoon, announces that the program is completed for the third meeting, which will be held March 2d. The speaker of the afternoon will be Governor S. R. McKelvie and his topic will be "State Legislation." The governor will probably discuss the proposed code bill, which promises to be an interesting part of his address.

At 2:45 in the afternoon there will be a thirty-minute concert given by Miss Shanefelt, well known harpist of Lincoln, accompanied by members of the university orchestra, and Miss Lenora Burkett will sing.

A motion picture will be shown of the state institutions, their location and work. These pictures will graphically show how vitally these institutions are a part of our community life.

The interest in these Open Forum meetings is increasing with each program given. Last Sunday nearly nine hundred persons were present. These programs and discussions are for men women alike; for business men and students.

Mr. Aden states: "The committee wishes to encourage the attendance of adults. Children should be accompanied by their parents. The meetings are yours, and you are urged to attend, and take part."

## CONVOCATION

The regular weekly musical convocation at the Temple yesterday morning was a string trio, Jessie Wilkins, violin, Lillian Eiche, cello, LaRue M. Shire, piano, who presented Schutt's Trio, Opus 27, in a very pleasing manner.

The following movements were played:  
Allegro vivace.  
Andante tranquillo.  
Scherzo.

It has been suggested that roads in this country be lined with trees as a lasting memorial to the Americans who fought in the war. Yes, and now and then might be placed a sour apple tree in memory of the Germans.

shows that the work on it has been thorough in every detail. Even the fraternity brothers or very close friends of men who have been wounded or have obtained distinction on the other side are astonished to learn of these incidents through our offices, so well have the parents responded.

This thoroughness which characterizes the service record will be found in every section, as the staff is determined that no detail will be omitted. Every page will go to make up the most complete Cornhusker the University students have ever had occasion to buy. It will truly be a CORNHUSKER, of CORNHUSKERS, for CORNHUSKERS and by CORNHUSKERS.

## OHIO STATE UNIVERSITY NOT TO HAVE ARTILLERY

Rumors afloat that Ohio State University is to be furnished with equipment for a coast artillery unit, a branch of the chemical warfare service and signal corps and aviation units, were denied Friday by Lieutenant Colonel Charles F. Leonard and Captain Griffin Halstead of the military department.

Captain Halstead, acting adjutant, says that the department has never received orders to this effect and that it is absolutely absurd for one to think that the war department is contemplating establishing such complete units at the university.

One story has it that 120 guns, ranging in size from 155-millimeter howitzers to 4.7-inch field pieces, and all sorts of radio apparatus, telephones, wave meters, etc., will be sent here for the use of the students. Captain Halstead said that this is as much equipment as is usually furnished a brigade and that it would take at least 1,500 horses to transport the field guns.—Ex.

## NEBRASKA ENGINEERS TO ATTEND INSTITUTE

Organization to Discuss the Construction and Maintenance of Roads.

The Nebraska Road Institute will be held from March 10-14th inclusive. All engineers of Nebraska, surveyors, highway commissioners, county commissioners, and others interested in the improvement, construction and maintenance of Nebraska's public roads are cordially invited to attend. This will be the second meeting of the institute since its organization, and will be held on the university city campus.

The sessions will be conducted by the college of engineering of the university with the co-operation of a number of prominent Nebraska road builders. No charge for any of the sessions will be imposed and the counties of Nebraska are urged to defray the expenses of one or more delegates to the institute. The plan of holding these conferences was inaugurated in 1918, and the first meeting had an attendance of nearly 200 persons, representing nearly every county in the state.

### 5000 Miles of State Aid Roads

Our state is now entering a new era of road building. The legislature is now considering the enactment of new laws to provide for the construction and maintenance of nearly 5,000 miles of a state aid road system, which will put every county seat on a permanent road. Funds will be provided by federal aid, a one mill state aid road fund, motor vehicle registration fees, and other sources now provided by statute. The enactments will provide about \$4,000,000 of federal and state aid per year for the improvement, construction and maintenance of the proposed state highway system.

The program of the second institute will be a live one. Some of the subjects to be discussed will be: Nebraska's New Road Laws, Proposed Change of Federal Aid Act of 1916, Financing Hard Surface Roads, Construction and Maintenance of Different Types of Road Surfaces, Stone and Gravel, Concrete Work, Location and Preservation of Corners of Land Surveys, Preliminary Surveys for Permanent Roads, Sand Hill Roads, Tractors, and Inspection Trips to Lancaster County Roads Under Construction.

## GREEK TOURNAMENT AT HALF WAY POINT

Delta Tau Delta, Beta Theta Pi and Phi Delta Theta Are Winners.

Nine Teams to Be Matched for Second Whirl on Saturday.

Inter-fraternity basketball simmered down to the halfway point Thursday evening when Delta Tau Delta, Beta Theta Pi and Phi Delta Theta eliminate Phi Gamma Delta, Kappa Sigma and Sigma Chi respectively by decisive scores and brought the preliminaries of the Greek tourney to a close. The nine teams which emerged victorious from the first inning will be matched in a second whirl and the winners will then be advanced to the semi-finals.

The Deltas completely calmed the Phi Gams in the opening rough and tumble bout by a score of 16 to 0. Ernie Hubka was the whole show, the former football captain tossing all of the eight baskets except one during the entire game. The Phi Gams put on a good comedy at any rate and slid down to the dressing rooms covered with bumps and bruises. Dog piles and individual wrestling matches marked the game throughout and at times team play was as unknown as strawberry shortcake in a German prison camp.

Stromer started the scoring, but Hubka promptly grabbed the reins and tended to the scoring personally after that. Waters, Hall, Lawlor and Stromer exhibited evidences that they could, or at least had at one time played basketball. The first half ended 8 to 0 in favor of the Delta Taus.

### The Lineup

Delta Tau	Phi Gamma
Delta-16	Delta-0
Hall	f Johnson
Stromer	f R. Smith
Hubka	c M. Smith
Waters	g Dougherty
Lawlor	g Nelson
Substitutes: Updegraph for M. Smith, Graves for R. Smith.	
Goals: Hubka, 7; Stromer, 1.	
Referee: Paynter.	

### Betas, 12; Kappa Sigs, 9

The second bout was more of a basketball game, in which the Beta Theta Pi quintet triumphed over Kappa Sigma by a count of 12 to 9. The score hovered around the 50-50 mark nearly all the way through, with the Betas maintaining a slight advantage. Albrecht opened the scoring for the Kappa Sigs with a long dribble down the floor and through the hoop. Haverly tied the score a moment later and Brown hoisted the Betas into the lead with another goal and they were never headed, although the Kappa Sigs were close on their heels up until Kauff tossed the final basket.

Substitutes: Vinsant for Triplett, Sharp for Sloniger, Linn for Samuel. Haverly and Albrecht were the stars of their respective teams, the Beta representative annexing seven points and the Kappa Sigma man counting five. Roberts and Kauff showed real fighting ability. At the end of the first half the score stood 6 to 5 for the Beta Theta Pis.

### The Lineup

Beta Theta Pi-12	Kappa Sigma-9
Kauff	f Sloniger
Roberts	g Brown
