**PUBLICATION OF BLUE
PRINT TO BE RESUMED**

War conditions have delayed the
publication of "The Nebraska Blue
Print," official publication of the en-
gineering department of the Univer-
sity of Nebraska, but it will be off
the press by the last of April. There
are usually two numbers, the second
coming out just before the close of
school, but this year it is possible that
only one number will be published.
Subscriptions are \$1.00 for the two
publications, and if there is but one
number this year half that amount
will be refunded. Subscriptions are
coming in nicely, so the staff of the
Blue Print reports. The treasurer of
the engineering society will take the
subscriptions.

"By engineers,—For engineers,—
About engineering," is the slogan of
those who are selling the "Blue
Print."

**DR. FORDYCE SPEAKS AT
TEACHERS' CONVENTION**

Dr. Charles Fordyce, Dean of the
College of Education, left last night
for Holdrege where he acts as one of
the principal speakers of the South-
west Nebraska Teachers' Association,
which is in session there this week.
The appearance upon the program of
Madame Alda, the Metropolitan so-
prano, and Ex-President William Taft,
gives this convention a significance
that has brought a very large advance
enrollment of the teachers, from the
west half of the state.

**LIEUT. SAUNDERS ENTERS
UNIVERSITY OF LONDON**

Lieut. D. K. Saunders, '20, has writ-
ten a letter to Professor J. E. LeRos-
signol of the commercial and econ-
omics department at the university
that he is with the university detach-
ment at Liverpool, England. He writes:

March, 12, 1919.

"No doubt you are much surprised
to hear from me here at Liverpool.
I was most fortunate and was sent
here to be assigned to an English uni-
versity for about a four months' course.
I think that is an opportunity of a
life-time and I'm here to get all there
is in it. I applied to go to the UNI-
VERSITY OF LONDON and take a
course in Political Economy and Fi-
nance and I hope that goes through,
as I understand the opportunities
there are fine. I have been here about
a week and have spent some time
seeing interesting Liverpool. Yester-
day I went down to Chester, which is
a characteristic English town and very
interesting. I'm hoping that after this
course, I can return to the Univer-
sity of Nebraska next September. Sin-
cerely,
