HELPING THE TEAM TO WIN

Yesterday the football team left for Minnesota and from now on the school anxiously awaits the outcome of the game. It may be too much to say that we will win, it is rather a sanguine hope, but we all know that the team is going to fight with all the determination it can muster. Husker teams have always fought bravely on foreign soil because they know that back home the student body fights with them in spirit.

The game at Minnesota will be a test of the best the Cornhuskers can produce. The Gophers, from all reports, have a wonderful team and they will not be afraid to pit their greatest strength against Nebraska.

They will be playing at home and the chance of scoring a brilliant victory before the homefolks will be an added incentive. Nebraska will be playing in enemy territory with no support from rooters, no madly cheering throng to hearten them in the struggle. And yet players will bear in mind the thought, that just as surely as if they were on the sidelines, students will have their minds centered on the game, watching it play by play where they are permitted to do so. Will that be a strong enough factor to overcome the odds against them?

It behooves us all to keep up full confidence in the team in the hope that they may win.

AN ALL UNIVERSITY DAY

There is urgent need for an All University Day at the University—a day which should be set aside for the election of officers for the University council, the social committee, and for class officers. As the time approaches for the various elections of the school year, the present offers an opportunity to inaugurate a method of systematized elections at once.

Certain it is that the University is in dire need of a well regulated and governed electoral system. The present haphazard methods are entirely inadequate to the needs and welfare of the University. Class elections do not hold the interest nor maintain the significance that they should. Students in the past have been indifferent towards elections and candidates.

To offset such a spirit which is general over the campus the student council (which is in the process of maturing) should set a day apart for all elections which should be known as University Day. The student council should command and guide the elections. On that day all class elections should be held, the student council should be selected, the members of the social committee should be chosen, and the officers selected.

Such an innovation might be responsible for a complete transformation in election, relative to interest and class spirit. At least it would abolish an unlimited number of elections which continue throughout the school year under the present unsystematized methods.

Let the student council take the matter under immediate consideration and make way for an All-University Day at the coming elections.—The Daily Iowan.

W. S. G. A. ACTIVITIES

The W. S. G. A. campaign for membership is now in progress. The letters W. S. G. A. stand for Women's Self Governing Association. It is a national organization, represented in all the larger schools. It is comparatively new, having grown out of the Girls' club. The scope of the new body is larger than that of the old, which was largely social in nature. While the W. S. G. A. has its social side, its real purpose is indicated by its name. All those who belong will thus not only make the rules which all university girls must abide by, but also help to set the standards of their university, which is partly judged by the rules and regulations which its student body lays down for its conduct.

There is still another phase which is peculiar to the W. S. G. A. Half of each membership fee goes to a loan fund, which is maintained for the help of university girls who need financial aid. The officers and board of management of the organization are elected by the members, who thus may dictate their opinions in regard to many rules which govern their university life, by means of their choice of officers. The girls' Cornhusker luncheon and the girls' Cornhusker party are traditions dear to the heart of every Nebraskan girl. These two events, with many other delightful parties, are under the auspices of the W. S. G. A.

MANY WILL ATTEND CONFERENCE AT YORK

Nationally Known Speakers Will Discuss Present-Day Problems

Numbers of men are registering for the students' conference to be held at York Saturday and Sunday. The purpose of the Conference is to present clearly to the minds of the college men the chief problems of today, and the solution of them. To this end nationally-known men of keen insight and clarity of vision will address the gathering and focus student thought on present-day problems. To attend a conference of this sort is a privilege University of Nebraska men have never enjoyed, and therefore will appreciate the more.

Men who desire to go and have not registered should do so at once at the University Y. M. C. A. The delegation will leave over the Burlington Friday and will return at midnight on Sunday.

--specializing in PARTY SLIPPERS

UNIVERSITY WOMEN will find the best chosen assortments of fine party slippers in this locality, right in our store—they'll find variety to meet every need for dressy footwear.

—many white kid pumps

—just about any kind of white pump you might wish. There are bow ties, plain tongues, Gypsy Colonials, operas, etc. Some with beautiful beaded buckles. By the way black jet buckles look well with white kid and are correct.

—gold and silver cloth pumps

—extremely dressy. Many of these with matching buckles. Then there are Gray suede, black suede and black satin with tongue effects suitable for buckles, if desired.

—kid pumps are varied

—there are black, brown, bronze. Also patents. One patent model has the 1919 "baby Louis" heel.

—buckles priced up to 30.00 pair

We believe our assortments are not surpassed in this locality. Steel, bronze, black and blue combined, iridescent, gunmetal, white, steel and bronze combined—all beaded. The beads wire strung. Then we have brilliant set and cut steel buckles that are exceedingly handsome. The day of the ordinary cheap buckle is passed.

PARTY PUMPS—SECOND FLOOR.

WEAR THOSE CAPS

The freshmen who do not wear their "prep" caps are breaking one of the schools strongest traditions. The freshman class should take it upon themselves to show these delinquent students the error of their ways.

Many new men think that by wearing the cap they are belittled in the eyes of the other students. Many perhaps, think that their personal beauty is spoiled when their head is adorned by the insignia of the freshman class. In their case these students should realize that the custom of the school should receive the first consideration. Until this ruling is recalled it should be lived up to in every sense of the word.

When a student enrolls in Iowa State College or any other college or university, he agrees to obey and help enforce all the traditions and customs of that school. A student who refuses to do this is lacking of the spirit that makes a real college man. He is of no credit to his class or his school.

The solution to this problem must come from the freshman class itself. To a freshman it should be an honor to wear this cap and those who refuse to do this are simply trying to deny their relationship to the first year class. We leave the matter in the hands of the freshman class with the advice to "go to it."—Iowa State Student.
