

**EACH NUMBER GOOD ON WELL BALANCED ORPHEUM PROGRAM**

Every number on this week's Orpheum program is a good one. The entire bill is well balanced. Humor, grotesque and artistic dancing, music and musical comedy combine to furnish a program of genuine entertainment.

Mrs. Gene Hughes plays the leading part in a comedy which provides a laugh for every minute. The name of it is "When He Came Back" and Benton Ransler plays the part of "he." The problem is the one of the American soldier's French wife and her reception. Mrs. Hughes, as grandmother, finds a happy solution.

Sybil Vanem, the Galli-Curci of vaudeville, lives up to her reputation. She is a demure little miss with a wonderful voice. Her costumes are original and she wears her hair bobbed. After a generous program Wednesday night she was called out for an encore. She sang a group of Irish songs and was recalled for a curtain speech.

Billie Burke's "Tango Shoes" was the mirth producer of the evening. It was fifteen minutes of fun centered about the latest steps in grotesque dancing.

Maleta Bonconi, Italian virtuoso, was given generous applause when she played old violin favorites. Alice Eis, ably supported by James Templeton, produced some artistic dances. "The Shadow of Pajay" was a feature number.

The "Seven Honey Boys" made a decided hit with the audience in their group of songs. Even the first number, Tip, the greatest dog alive, showed that he knew how to perform.

**"CHEEK TO CHEEK" DANCING BANNED AT ILLINOIS**

Urbana, Ill., Nov. 19.—"Cheek-to-cheek" dancing is not to be countenanced in the future by the University of Illinois co-eds.

The Women's Pan-Hellenic association has voted to start a campaign against the disapproved sort of dancing.

Its members count as less than no consequence the young men's desire to learn if a girl's cheek is as velvety as it looks and the girl's willingness to permit them to learn that it is even so.

Drastic measures will be taken if "cheek-to-cheek" dancing is not eliminated from campus dances it is promised.

**SPEED!**

The speed of submarine telegraphy is illustrated by the fact that five minutes are usually sufficient to cover a complete buying and selling operation between the London Stock Exchange and Wall Street. The distance between these two points is about 4000 miles and it takes the message less than a minute for the journey.

**ELECTRIC DEVELOPMENT IN JAPAN**

It is stated that there are 175 electrical utility undertakings in Japan, including 625 power plants, 42 electric railways, and 48 companies operating both power plants and tramways. This is an increase of 40 companies over last year and evidences the growing popularity of electricity in that county.

**DUNNO**

"History repeats."  
"Think we will have another whiskey insurrection?"—Judge.

**DISCHARGED PROFESSOR SUES COLLEGE PAPER**

Vindication of charges of disloyalty brought against him in October, 1917, which caused the directors of Columbia University, N. Y., to drop him from the faculty, is sought by Prof. James McKeen Cattell, former head of the department of psychology, who has filed in the supreme court a suit to recover \$75,000 damages from the Alumni Federation of Columbia University and Levering Tyson, managing director of the Columbia Alumni News.

Three weeks ago Prof. Cattell filed a suit to recover \$115,000 from Columbia University for the loss of his position.

The new action is based on an editorial appearing in the Columbia Alumni News on September 28, 1917, a short time before Prof. Cattell was dismissed. This article comments on the commencement address of President Nicholas Murray Butler, who stated that there was no place on the faculty for any one who uttered seditious remarks against the United States or who opposed the laws of the country.

**BETTER ENGLISH**

Lincoln high school this week is observing a very important national movement known here as Better English Week is to attempt to improve the speech of Lincoln high school students.

American speech is not a dainty, cultivated style of verbal gymnastics. It stands for simple and pure speech, sincere and characteristically American. It is not the object of Better English Week to inspire the use of long hard words that are meaningless to the average high school student, but instead to attempt to get rid of such grammatical errors as "I ain't" and "she done." The student who speaks straight is the student who means straight. The strong use of strong speech enables him to say well what he thinks and helps him think better. A careful, simple and pure language helps him to say what he means and mean what he says.

Good English is not only a standard which should be maintained but it is the root of good Americanism.

Everyone has an opportunity this week to help forward the Better English movement. Let's all "set our hands to the plow" and turn poor English under.

—Advocate, Lincoln High School

**OH! LOUISE**

There was a boy in Long Beach,  
And he was wondrous wise.  
He never bragged what he would do  
But took me by surprise.

**YEA, VERILY**

My wife is like an automobin,  
She costs a lot of cash.  
And when I lose control of her  
There's bound to be a smash.

Paddy makes mortar,  
Paddy lays bricks,  
And he drives to work  
In his super-six.  
—Chappie.

Peter, Peter, pumpkin eater,  
Had a girl and couldn't keep her,  
"Cause she said she didn't like  
The way in which he did recite.

**STYLE HEADQUARTERS**  
Society Brand Clothes
