

## GRID WARRIORS ARE HONORED

Annual Cornhusker Banquet is Held at the Lincoln Hotel Friday.

### CHEERS FOR 1919 TEAM

Speakers on Toast List Tell of Nebraska Athletic History and Prospects.

The main dining room of the Lincoln Hotel was not big enough to hold all the men who had secured tickets to attend the annual Cornhusker banquet held Friday night. Nor was it big enough to hold in all the "pep" and the old Cornhusker spirit that was manifested during the evening. The songs and yells of the enthusiastic followers of the gridiron escaped the walls of the banquet hall, rolled out to the hotel lobby, and thence to the down town business districts of the city.

Three hundred sixty-two men were served, three hundred in the main dining room and the rest on the adjoining balcony. After the feast, room was made inside for all to hear the program.

Between courses entertainment was furnished by Gayle's "Raga-Jazz" orchestra, the University Quartet, a cabaret dance by Herbert Yenne, and an Orpheum number. The Nebraska songs and yells which were in vogue during the whole evening left no doubt in the minds of all but that the banquet was truly a Cornhusker Banquet.

After the last course Dr. L. D. Young of the First Presbyterian Church took charge and acted as toastmaster. He spoke of the part athletics play in any university and impressed upon the men that the east no longer holds supremacy over the west in football but that Nebraska is known through the east as well as the west for the type of football teams she turns out. He then introduced Chancellor Samuel Avery as first speaker of the evening.

The Chancellor stated that his topic, "The Kick Off" was not as joyous a subject to talk upon as the one to follow for it is the beginning of the game and Nebraska's beginning was not as joyous as her comeback. He dwelled upon the circumstances that confronted the football team this year. He closed with the statement that it was the spirit of the students not on the team that was responsible for the overcoming of these obstacles of having a new coach, a new system of coaching, and the stiffest schedule that Nebraska has ever gone up against, and which caused the final success with which this year's football schedule closed.

### Highest Scholastic Standing

Dr. J. T. Lees was the next speaker and went back to the first football teams that upheld Nebraska's fame. Here he mentioned the one man who was here with the first teams and is still here—Jack Best. A standing tribute and an applause lasting for sixty seconds was made for the little old man who although hardly able to get around, dispels all the pains and bruises which the football men receive. Dr. Lees compared the days when it was necessary for him to go to a bank and borrow the money with which to finance the football season with those of today when the visiting team does not so much as question the financial side of the game. Dr. Lees then spoke of the scholastic standing of the men on the team and made the statement that, "This year's football team had the highest scholastic standing of any team in the history of Nebraska athletics."

Coach Schulte who was introduced as the most influential man on the campus then spoke of his impressions of Nebraska and the type of football which is played here. After admitting that he came here with vague impressions as to the spirit at Nebraska he declared that he now understood just why it was that Nebraska turned out such high quality teams—the school spirit. He impressed upon the men that they were entirely responsible for the type of teams turned out at Nebraska and that now since football is so well established the track team should command the attention of all loyal Cornhuskers. "You put two hundred fifty men out on the field for track and I will give each one individual attention and in a few years Nebraska will be the Cornell of the west," said Coach Schulte upon the subject of Nebraska.

(Continued on Page Four.)

## INTERFRATERNITY BASKETBALL

All fraternities who expect to participate in the inter-fraternity basketball tournament are requested to file their applications and an entry fee of one dollar with Secretary Farley Young as soon as possible. The committee in charge is anxious to arrange the schedule immediately and desires all applications to be in the hands of the secretary within the next few days.

## ROAD INSTITUTE TO BE HELD THE FIRST WEEK IN MARCH

The third Nebraska Road Institute will be held during the first week of March on the city campus of the University of Nebraska. All Nebraska engineers, surveyors, draftsmen, highway commissioners, county commissioners or supervisors, road builders, contractors, and other persons interested in the improvement, construction, and maintenance of Nebraska's public roads and bridges are invited to attend.

This institute will be conducted by the College of Engineering of the University of Nebraska with the co-operation of the Nebraska Department of Public Works and a number of prominent Nebraska road builders. There will be no charge for attendance but it is hoped that the various counties will defray the expenses of one or more delegates of this institute. The Nebraska Road Institute was inaugurated in 1918 with an attendance of nearly 200 persons representing nearly every county in the state. Nearly 300 persons attended the institute in 1919. The attendance of the third Nebraska Road Institute will be in the neighborhood of 500 of Nebraska's "highwaymen."

This state is now actively engaged in the construction and maintenance of approximately 5,000 miles of State Aid Road System. This system will put every county seat on a permanent road and will provide means for transportation of which the state is now greatly in need. The funds for building the Nebraska State Aid Road System will be provided by Federal Aid, State Aid, and automobile tax and will aggregate approximately \$5,000,000 for the year of 1920. The main object of the work of the Nebraska Road Institute is to aid in the dissemination of knowledge of the construction and maintenance of roads and bridges and of materials to be used in their construction.

The program for the third Nebraska institute will be a live one. Some of the subjects being: Organizations of State Highway Department, Bridges, Culverts, Earth Road Construction and Maintenance, Permanent Improved Roads, Motor Transportation, and Inspection of actual work being done in Lancaster county.

## CLASS ON REFRIGERATING IN ENGINEERING COLLEGE

Refrigerating has been studied by one of the classes in the engineering college this semester and in a recent test the young men manufactured a goodly display of ice. Prof. A. A. Luebs takes up with his students the different types of machines used in refrigerating. In all there are four. The compression type gets its name from the fact that a compressor is used to restore the refrigerating medium to its original state so that it can be used over and over. With the absorption type of machine, ammonia is used as a refrigerating medium in that ammonia is absorbed by the water and re-evaporated. The dense air of air machines is used very little at the present time except on board some of the large war ships. The principle is that air, which is expanded, cools. The use of ammonia on board ship may be dangerous so this type of refrigerating is preferred.

The fourth type is almost out of date. It is the vacuum type in which they take into account the fact that water has a low boiling point in a vacuum. The compression and ammonia absorption types are the most commonly used in this country. In Europe they use SO<sub>2</sub> and CO<sub>2</sub> machines more than we do. Yet these are used in some small resident plants.

It has been quite a "spell" since anyone has said anything about "the dignity of labor."

## ADDITIONAL SPEAKERS FOR CORN IMPROVERS ASSOCIATION MEETING

The addition of several prominent speakers to the program of the Nebraska Corn Improvers' association at its annual meeting here January 20 and 21 has been announced by Secretary W. W. Burr. Wednesday afternoon, which had been left vacant for a joint session of all the organizations meeting here the week of January 19, has been filled on the corn improvers' program with addresses by Governor McKelvie; former Congressman Dan Stephens, of Fremont; George L. Loomis, income tax collector for Nebraska; and M. L. Corey, counsel for the Omaha federal land bank.

Governor McKelvie's subject has not been announced. Mr. Loomis will speak on "The Farmers' Income Tax," Mr. Stephens on "Rural Credits," and Mr. Corey on "How the Federal Land Bank Helps the Farmer."

This program is expected to draw an extra large number of people, on account of the vital importance of the income tax, rural credits and the land bank to the farmers, Mr. Burr said. A number of farmers wrote Secretary Burr that they desired further light, especially on the income tax problem.

## BASKETBALL SCORES

- Kansas 29; Ames 27.
- Kansas 24; Ames 18.
- Missouri 34; Washington 29.
- Grinnell 5; Kansas Aggies 5.
- Grinnell 15; Kansas Aggies 20.
- South Dakota 16; Wesleyan 10.
- Morningside 16; Wesleyan 14.
- Ohio State 37; Purdue 35.
- Iowa 23; Northwestern 13.

## A. A. E. ELECT OFFICERS AT MEETING SATURDAY

The Lincoln chapter of the American association of engineers met Monday evening in the mechanical engineering building on the state university campus. Permanent officers were elected for the current year as follows: President George W. Bates, city engineer; vice, president, Professor R. E. Davis of the civil engineering department; secretary, C. K. Leonard of the state highway department; treasurer, H. H. Wheeler. This chapter is preparing resolutions to be forwarded to congress urging the establishment of the proposed national department of public works which will bring under one organization all of the engineering construction activities of the federal government which are at the present time administered by many different departments. This should bring about much greater efficiency in the conduct of this public work and should result in a great saving of the people's money.

Floyd Gale who holds two degrees from the University of Nebraska has been a professor of botany in the University of Idaho. He is now working for the doctor's degree in the University of Washington. He was at one time an assistant in the botany department in the University of Nebraska.

## Co-eds Depict Every Freak of Humanity at Annual Party

When the men aren't there the girls have a good time anyway! The girls' Cornhusker party held Friday evening in the Armory was an affair to be long remembered by all those present.

People of every race, color and condition of servitude were represented. The girl who appeared clad in the bear skin rug, the girl dressed as an ear of corn, the gypsies, the bums, the negroes, the adventurous maid dressed as Cleopatra, who died before the audience in a snake dance, but left them rather skeptical as to whether her death was the result of the serpentine shimmy or the snake bite, and scores of others were to be seen.

Although no members of the opposite sex were to be admitted, somehow about twenty slipped in. It was to be noticed, however, that they wore high heels.

Several splendid stunts were put on by various organizations, and gave evidence of much work and ingenuity. The Alpha Omicron Pi sorority presented a wild and bloody western melodrama, in which the characters galloped about on untamed steeds from the toy counter of the ten-cent store.

## WOMEN MAY ENROLL FOR SHORT COURSES IN AGRICULTURE

An error was made when it was announced that women would not be admitted to the University of Nebraska winter short course in agriculture. Several women poultry raisers were planning to attend the course when they saw the notice. They complained to university authorities and a correction was immediately ordered. No work will be given in home economics, but women may register for the courses in poultry raising and dairying, or any of the other courses. It is expected that most of the women attending the four weeks' course will specialize either in poultry raising or dairying. Nebraska women have been especially successful in poultry raising and their interest in this line of agriculture has increased rapidly in the last year or two.

University authorities are expecting a large enrollment for the short course in agriculture. C. A. Newberry, of Alliance, has announced that he will defray the expenses of fourteen Box Butte county boys to attend the course. He will select one boy from each township in the county.

Students must be at least 18 years old and have an eighth grade education. They may specialize in any of the following courses: Poultry raising, dairying, animal husbandry, horticulture, crops and soils, farm management, and farm bookkeeping.

One hundred and twenty men registered January 5 for the university short courses in automobiles, tractors, trucks, and the farm shop. These courses run four weeks and may be entered any Monday. More than 200 men have registered for these courses so far this year.

## MORE LIBERAL BENEFITS FOR FORMER SERVICE MEN

Under the new amendment to the War Risk Insurance Act, which has been passed by Congress and which became a law on December 24, 1919, when it was signed by the President, war term insurance or United States government life (converted) insurance policies may be made payable to any of the following list of beneficiaries:

Parent, grandparent, stepparent, parent through adoption, wife or husband, child, grandchild, stepchild, adopted child, brother, sister, half-brother, half-sister, brother through adoption, sister through adoption, step-sister, uncle, aunt, nephew, niece, brother-in-law, sister-in-law, a person who has stood in the relation of a parent to the insured for a period of one year or more prior to the insured's enlistment or induction, the children of such person; parent, grandparent, stepparent or parent through adoption of the insured's wife or husband.

United States government life (converted) insurance may now be paid at death in a lump sum or in installments for 36 months or more, at the option of the insured. The rate of compensation for disability has been greatly increased.

## NEBRASKAN STAFF APPLICATIONS

Applications for the following positions next semester on the Daily Nebraskan must be in at the Student Activities office by Wednesday, January 21:

- Editor
- Managing editor
- Two news editors
- Associate editor
- Business manager
- Assistant business manager
- Circulation manager

## POULTRY MEN WILL HOLD EXHIBITION AT CITY AUDITORIUM

The thirty-fifth annual exhibition of the Nebraska State Poultry association will be held in the Lincoln city auditorium January 19 to 26. Poultry raisers of Nebraska have been exceptionally prosperous during the last year, according to members of the association, and this prosperity is expected to be reflected in this year's annual show. A large number of entries are expected. The premium list includes a large number of cash prizes, cups, medals and ribbons.

The Nebraska State Poultry association is said to be the oldest of its kind in America. It was organized in 1882, incorporated in 1892 and legalized by an act of the state legislature in 1893.

The officers of the association are: President, C. M. Hulbert, Fairbury; vice-president, R. W. Lairry, Verona; treasurer, C. Bonsall, Fairbury; secretary, M. G. Scudder, Central City. The following are members of the board of directors: C. G. Cottle, Edgar; A. C. Andrews, Miller; W. L. Houck, Fremont; L. P. Harris, College View; H. H. McLellan, Kearney; E. C. Jewell, DeWitt. The following will judge the 1920 show: James A. Tucker, Royal Oak, Mich.; V. O. Hobbs, Kansas City, Mo.; A. C. Smith, St. Paul, Minn.; E. G. Roberts, Fort Atkinson, Wis.

## DEAN ENGBERG GIVES MUSEUM GIFT OF SHELLS

The state university museum has been enriched this week by the generous gift of about 200 ocean shells. This is the result of exchanges made by Dean C. C. Engberg who began the collection of marine specimens about four years ago in the neighborhood of Puget sound. His summer vacations spent in gathering these have brought him both pleasure and fame. He has a large collection of specimens in his own home about which his guests tell wondrous tales. He has, besides, on several occasions, enriched the university museum with valuable gifts so that the museum director smiles with joy and pride when his marine specimens are mentioned.

## JOAN OF ARC TONIGHT

Mme. E. Guerin, who will impersonate Joan of Arc at the First Christian Church tonight under the auspices of the Lecture League, had made an exceptional reputation for herself, before the war, in the cultivated circles of Great Britain and the United States. In many roles he appeared repeatedly before such schools as Rugby, Clifton and Queen's College, Enguand; and Yale, Bryn Mawr, Wellesley and Brown in this country. She will be presented by Dr. F. M. Fling and assisted by Prof. Alice Howell, who played in the great pageant at the temple at Domremy on the very spot where Joan listened to the Voices. Miss Howell's niece participated in the unveiling of the Riverside Drive statue, New York, when Mme. Guerin impersonated Joan of Arc at the dedication.

Students may secure very low rates on tickets at College Book Store.

O. C. Bradbury, A. M. '15, Ph. D. '19, at one time fellow and graduate assistant in the zoological department at the state university, writes to Dr. R. H. Wolcott that he is prospering in Baylor University, Waco, Texas. He has two other men in the department and a graduate fellow, is himself the head of the department and his salary has been raised to \$2,700.

A. K. Peitersen, an alumnus of the state university recently spent several days in Lincoln on his way to Fort Collins where he will be head of the department of botany in the experiment station. He has been a professor in botany at Burlington, Vt.

## HUSKERS TAKE BOTH GAMES

Scarlet and Cream Wins Twice from University of Colorado Five.

### WESTERN TRIP A SUCCESS

Boulder School Team May Play at Lincoln on Trip East.

By Orvin B. Gaston

Taking two hard-fought games from the University of Colorado team, the Husker basketballers completed a successful invasion of the west, winning four games out of five. Rallying from a defeat at the hands of Colorado College by a margin of two points on Thursday night, the Cornhuskers came back strong and trounced the Boulderites by scores of 27 to 16 and 24 to 13. Reports from Boulder describe the playing of the Nebraskans as the best passing and floor work ever seen on a Boulder floor.

In the first game at Boulder, Coach Schissler started his pony team, the Husker basketballers, with the exception of Bailey, whose guard position was filled by Captain Schellenberg. The Colorado team held this combination at bay and after fifteen minutes of play were leading the Huskers 6 to 4. The Huskers spurred for a time but ten minutes before the final whistle blew the score was tied at 15 all. At this stage of the game Russell was substituted for Smith and thus reinforced the Nebraskans gave a brilliant exhibition of teamwork which completely bewildered the Colorado guards and resulted in goals by Russell, Patty, Schellenberg and Bekins. Before the game ended the Cornhusker score was boosted to 27 while the Colorado total was 16. Bekins was the chief goal tasser of Schissler's team, tossing the ball through the hoop four times. Newman and Russell were each credited with two baskets. Jesse Patty registered one basket and five foul goals.

The Saturday fray was played in the afternoon instead of the evening in order to permit the Huskers to catch an early train home. Again the Huskers completely outclassed their Rocky Mountain opponents, displaying superior strength in all departments of the game. The generalship and speed displayed by the Nebraskans was too great for the wearers of the Silver and Gold. The ball was in possession of the Cornhuskers most of the time. The big team was selected by Coach Schissler to start this fray and they did not allow the Westerners a look-in at any stage of the game. Pickett, at forward, was the chief scorer, making four baskets. Russell, Paynter, Smith, Bekins and Bailey each accounted for one basket and Patty and Jungmeyer each accounted for three foul goals. The pony team was sent in near the end of the game. Colorado also used ten men, playing their freshmen team the last part of the game.

Before the Cornhuskers departed from Boulder, Coach Schissler invited the Colorado team to play in Lincoln later in the season. No definite arrangements were made but if the scheme materializes the Colorado trossers will probably be seen in Lincoln during the week of the state high school tournament.

The lineups and summaries:

FIRST GAME		
Nebraska		
	G.	FG. Pts.
Smith, f.	1	0 2
Patty, f.	1	5 7
Bekins, c.	4	0 8
Schellenberg, g.	1	0 2
Newman, g.	2	0 4
Russell, f.	2	0 4
Totals	11	5 27
Colorado		
	G.	FG. Pts.
Schrepperman, f.	1	2 4
Willard, f.	1	0 2
Breckenridge, c.	1	0 2
Nogge, g.	3	0 6
Williams, g.	0	0 0
Totals	6	4 16

SECOND GAME		
Nebraska		
	G.	FG. Pts.
Russell, f.	1	0 2
Pickett, f.	4	0 8
Jungmeyer, c.	0	3 3
Schellenberg, g.	0	0 0
Paynter, g.	1	0 2
Smith, f.	1	0 2
Patty, f.	0	3 3
Bekins, c.	1	0 2
