IT'S YOU, JUST YOU

"If you want to be in the kind of a school,
Like the kind of a school you like,
You needn't slip your suit in a grip,
And start on a long, long hike;
You'll only find what you left behind,
For there's nothing that's really new,
It's a knock at yourself when you knock your
school—
It isn't the school, it's you!

"Real schools are not made by those afraid
Lest somebody else gets ahead,
When everyone works and nobody shirks,
You can raise a school from the dead,
And if, while you make your personal stake,
Your neighbor can make one too
Your school will be what you want to see—
It isn't the school, it's you!

—Exchange."

Did you ever feel like telling someone to pack up his grip and go when he began knocking your school? Did you ever come home after working all day decorating or planning for an all-university party, to find a friend comfortably settled in your favorite chair, and have him say, "Oh, why do you work so hard? This school is the deadiest, most unappreciative place imaginable anyway. Now at— and so on.

It is perhaps a trite, stock expression to say that "a school is what you make it," but it certainly is a true one. School activities and entertainments are almost as important in the student's education at Nebraska as studies. The university is simply a pocket-edition of future situations in the business and social world and the man who has a helpful attitude, who actually works for school affairs, has a good start toward success in later life.

The best way to create and hold interest in campus life is for every student to take upon himself some responsibility and do his share toward encouraging the many Nebraska campus interests. Let's all get together, put our shoulders to the wheel, and give a real push for Nebraska.

THE COST OF ONE HOUR'S CREDIT

An interesting experiment has been recently tried here, on the actual cost of one hour's credit. Taking the total average amount spent during the semester for living expenses and tuition, and dividing the total by the average number of hours taken by most students, it was ascertained that the actual cost of a one hour course is \$15.00. This should be interesting to the students who have failed this past semester in three or five hours. If the cost of a one hour study is fifteen dollars what has a student taking two five hour subjects thrown away after failure? How much more worth while it would have been, had such a student utilized his time and money to the monetary value of the fifteen dollars, and at the same time saved the energy and morale of the instructor and class. This is not a mere computation of figures; it shows the actual accomplishments of the average students at the University of Nebraska.

DID IT EVER OCCUR TO YOUR?

"Did it ever occur to you that the most enduring institution man has founded are his universities? Did it ever occur to you that the universities of the Middle Ages, lived through all the changes that have taken place since then? Did it ever occur to you that the University of Paris has seen all the upheavals that have taken place in France and that has usually taken place within the sound of the Sorbonne, and has survived them all? Did it ever occur to you that Oxford and Cambridge have lived through the War of the Roses and through the English Revolution, and have continued to be just as vital and just as strong as they ever were before? Why is that? It is because the university really contributes to the highest in civilization something that is eternal."—President Lowell, Harvard University.
