HOLCOMB DRIVE TO BE LAUNCHED

Campaign for Funds to Support Nebraska Graduate in Egypt Sponsored by Y. M. C. A.

Movement to Teach Mohammedans American Ideals Will Affect All University Men.

The drive for funds to support C. S. Holcombe. '17, in his work at the Mohammedan College in Cairo, Egypt, will soon be on in full force at the university campus. This campaign is purely a student movement and it is hoped that every man enrolled in the university will avail himself of the opportunity to help in the education of the unchristianized natives of northern Africa.

It is planned to not only help defray the actual expenses of the Y. M. C. A. missionary, but to aid him in his personal work. Funds are absolutely pecessary toward maintaining workers abroad, and students can feel that this missionary is their missionary. because he has been sent to a foreign land by their representative, the Y. M. C. A. and is to be supported by their own means.

Holcombe was an active man in Nebraska, and at the university, and will no doubt duplicate one hundred times this work on the other side of the waters. The conditions of Egypt are disadvantageous to a missionary, but with sufficient funds they are able to carry their work to a successful termination, and to convert many to the saneness of American ideals,

The missionary in Cairo was for two years state student secretary of the Y. M. C. A., and was president of the university organization for some time. He was honored in his senior year in school by being elected president of his class.

Similar movements for the support of missionaries by the student body have been launched successfully at Ames, Wisconsin and Indiana, Ne braska has already seventy-two graduates in foreign fields, and all of them are doing excellent work. Their duties take them to the cities and ional institutions of many lands

POLITICAL RUMORS SWEEPING CAMPUS

Class Elections Will be Hotly Contested According to Pre-Election Reports.

Much interest is manifested in the class elections to be held next Tuesday. With only a partial list of the candidates who have filed, it is evident that at least the senior and freshmen presidencies will be kcenly contested.

According to the information at hand, three seniors have filed to compete for the presidency of that class. They are Lucile Cline, Alfred I. Reese and George Driver. Miss Cline is a Fine Arts student. Mr. Reese is the winner of the Rhodes scholarship. He is an Acacia, registered in the Arts an l Science college. Mr. Driver is a Phi Kappa Phi and is in the college of Business Administration. The contest for the freshmen presidency shows a similar alignment of one co-ed and two men up to the present time. They are Nellie M. Bates, (Continued on Page Four.)

fraternity basketball schedule, as drawn up by the schedule committee of the inter-fraternity athletic association. The tournament will start Saturday morning, February 21, and all games must be played on the date set or they will be forfeited.

The first two games of the preliminary round will be played in the morning of February 21, and the second two in the afternoon of the same day. The sixth game of this round is slated for 5:00 p. m., Monday February 23, and the last two matches will be played on that date also, from 6:00 to 8:00 p. m. The upper half of the first round games is to be played on Tuesday. February 24, from 5:00 to 9:00 p. m., and the lower four between the same hours on Wednesday, February 25, the second round or Thursday, February 26, the semifinals on Friday, February 27, and the final battle for the championship on Saturday, February 28. The exact time of the games may be arranged by mutual consent of the teams playing.

Many Well Known Authorities Will Address Third Annual Convention.

The Nebraska Road Institute will hold its third annual convention in Lincoln, March 1-5. The convention Engineering and meetings will be held in the Temple or Room 206, Mechani- liers, so it is easily seen that Coach cal Engineering building. A program has been planned that will cover every phase of road building. HUSKERS REST BEFORE BATTLE

Ponies Lay Off Heavy Work Before Scrap With Michigan Aggies.

To Meet Redoubtable Farmers on Local Floor Friday and Saturday Nights.

With five straight victories to their credit, the redoutable Michigan Aggius are coming to Lincoln to engage in two battles with the Cornhuskers on Friday and Saturday nights. The AL gies are craciled with victories over some of the fastest quintets in the middle west and will give the Huskers a run for their money. Recent victories over Notre Dame, Wabash, Chicago Y. M. C. A., Michigan, and Kalamazoo have placed the Michigan Farmers at the very top in western basketball. On their western trip the Aggies are playing Notre Dame at South Bend, two games with Creighton at Omaha, and two with the Huskers here.

In their first clash with Notre Dame, some time ago, the Aggies cmerged victorious over the Irish, winning by a score of 23-20. The game was played at Lansing and was featured by considerable rouganess on the part of both teams. "Frddy" Granfeld, one of the mainsurys of the Catholic team, was ordered from the floor for unfair playing. It is safe to say that these two teams rate about even in the court game. The Aggies had little trouble in disposing of the Michigan five, the count being 25-13 and the game was played at Ann Harbor. Only two teams nive won from the Aggie five, Indiana and Chicago, both top-notchers in the Big Ten The Maroons and the Hoosiers were each victors over the Agoic by the arrow magam of one point. Newill be conducted by the College of bracka fans are fully aware of the strength of Jumbo Stiehm's Ho a Scnissler's Huskers are in line for two stiff games when the Aggies come to town this week end.

The Michigan Aggies have for a tenance and transport work and 1915 they were the only outfit that

including Argentina, China, Japan, India, Burmah, Egypt, Armenia and Turkey.

DR. MOULTON TO SPEAK FRIDAY ON ASTRONOMY

Chicago University Professor Will MILITARY DEPARTMENT Tell of New Theory of Origin of Planets.

Dr. Ray Forest Moulton, professor of astronomy in Chicago University and one of the foremost scholars-in the world in the line of mathematical astrnemy, will speak Friday moraing in the Temple before a joint meeting of Sigma Xi and Phi Beta Kappa sorieties.

In addition to his work at the University of Chicago Dr. Moulton has written many books and short articles which have attracted nationwide attention on the subjects of astronemy and mathematics. In his witings on celestial mechanics, periolic orbits, resistence to comets passing through the sun's corona, his autherity is accepted the world over. Dr. Moulton is a member of many learned societies in America and abroad and together with T. C. Chambrin, professor of geology at Chicago University, has evolved a new theory s regard to the origin of the planets. This theory is based on the suppositon that the solar system was made on of minute, solid bodies as they recoived in the heavens and not out d ms, which older theory was sugfented in 1796 by Laplace, the French athematician.

These who have read announce neam of Dr. Moulton's work through ttern years, especially during the ver, in which he served as major, are meer to hear him
