## PERSONALS

Phi Delta Theta announces the  
pledging of William B. Grainger, '23,  
of Lincoln.

Ted McCarl, left yesterday for his  
home in Hastings, after spending the  
week-end at the Beta Theta Pi house.

Greta Cooley, '19, who is teaching in  
the high school at Wahoo this year,  
was a guest at the Alpha Delta Pi  
house for the week-end.

Edward Hoffman, '21, who for the  
last few weeks has been assisting in  
making income tax reports through  
the state, returned to school yester-  
day.

Delta Zeta entertained its members  
at the annual birthday dinner at the  
chapter house Sunday, when about  
forty guests were present.

Roy Lyman, ex-'21, of MacDonald,  
Kansas, was a guest at the Sigma  
Alpha Epsilon house for the past week-  
end.

Ruth Irvine, of Arlington, is a visi-  
tor this week at the Gamma Phi Beta  
house.

Denman Kountze, '23, returned Mon-  
day from Omaha, where he had spent  
the week-end.

Beulah Mills, '21, Ruth Sleskis, '23  
and Naomi Buck, '23, were all guests  
at a house-party in Harvard the latter  
part of last week.

Douglas Thornton, ex-'18, of Gering,  
and Alfred Noyes, '19, of Waterloo,  
were guests at the Sigma Alpha Epsi-  
lon house this last week-end.

Maurice Tawney, '22, of Fremont,  
visited at the Beta Theta Pi house for  
the week-end.

Lorena Evans, ex-'23, who has been  
a guest for the past few days at the  
Delta Gamma house returned yester-  
day to her home in Columbus.

Ensign Lester Ward Hansen, who is  
stationed at Governor's Island, New  
York, is a visitor at the Kappa Sigma  
house during his ten days' leave.

The alumni living in Lincoln of  
Sigma Alpha Epsilon were entertained  
at a dinner at the chapter house Sun-  
day evening.

Ralph Wagner, '14 and Wm. Kavan,  
'14 of Omaha visited at the Silver  
Lynx house over the week-end.

F. W. Hopper, '23 spent the week-  
end in Omaha.

Jack Landale and Sidney Goodfel-  
low are both ill at the Sigma Nu  
house.

Oakle Cochran, '23, has returned to  
school after an absence of three weeks  
due to a severe attack of influenza.

Josephine Gund spent the week-end  
at her home in Blue Hill.

Ruth Irwin, who is teaching in Oma-  
ha, was a week-end visitor at the  
Gamma Phi Beta house.

Oakle Cochran, '23, has returned to  
school after an absence of three  
weeks, due to a severe attack of in-  
fluenza.

Josephine Gund spent the week end  
at her home in Blue Hill.

Ruth Irwin, who is teaching in  
Omaha, was a week end visitor at the  
Gamma Phi Beta house.

### MEMORIAL COMMITTEE WILL MEET THURSDAY

The War Service Memorial commit-  
tee will meet at two o'clock Thurs-  
day, February 26th, in the cancel-  
lor's office to hear the report of the  
sub-committee, composed of Chancel-  
lor Samuel Avery, Regent Earl Camp-  
bell, of Lincoln; C. T. Kountze, of  
Omaha; Prof. Alice Howell and R. A.  
Van Orsdel, president of the alumni  
association, on their success in at-  
tempting to secure a campaign man-  
ager for the financial drive.

### EGG LAYING CONTEST INTERESTS NEBRASKANS

The Nebraska National Egg Laying  
Contest, a twelve month project which  
began November 1, under the direction  
of the Nebraska agricultural experi-  
ment station and having for its pur-  
pose the promotion of breeding of  
high laying strains of standard-bred  
poultry, is now well under way.

The major part of the birds, of  
which there are one hundred entries  
of ten pullets each, is from Nebras-  
ka, indicating the interest which is  
taken in poultry in this state. Other  
states represented are: Michigan,  
Wisconsin, Minnesota, Iowa, Kansas,  
Missouri, Illinois, Ohio, Indiana, and  
New York.

The pullets are housed, fed and  
managed according to the best accept-  
ed methods and each individual is trap-  
nested and complete records kept.

Each house contains a flock of two  
hundred birds which are managed  
under conditions comparable to what  
they may be, and should be, on the  
farms throughout the state.

Since this contest is the first of its  
kind in the state, conditions have been  
somewhat unfavorable and but 657 of  
the pullets have laid, and are laying,  
to date. An entry of Single Comb  
169 eggs being credited to them in  
the month of January. Fifty-five  
birds, of different entries, laid from  
twenty to twenty-six eggs each dur-  
ing the same month.

### UNIVERSITY NEWS LETTER MAKES FIRST APPEARANCE

The University of Nebraska weekly  
news letter was printed for the first  
time this week. Up to this time it  
has been mimeographed. A copy of  
this news letter is sent to every news-  
paper in the state for advertising and  
exchange purposes. In addition to  
this, a copy of this weekly bulletin  
is sent to all colleges in the middle-  
west and the middle-south.

### DID YOU KNOW THIS?

Dingle-dingle-dingle - dingle-  
dingle-dingle-dingle. Shuffle, scrape,  
and slam, as at ten minutes to the  
hour, class-room doors are hurriedly  
opened and thousands of students  
pour from the class-rooms and build-  
ings on their way to another class,  
homeward bound, or "refreshment-  
bound."

For years and years thousands of  
students have gone through this rou-  
tine hour after hour on school days,  
but how many have ever stopped to  
wonder what an intricate mechanism  
regulates the working of these bells?

In a tiny stone-walled room in the  
basement of U. Hall there is a master  
clock which winds automatically every  
minute on the thirtieth second. On the  
sixtieth second this master clock  
works the secondary clock on the  
campus. At present there is only one  
secondary clock connected with this  
master clock. This clock is in the li-  
brary tower.

A five-minute program machine con-  
nected with this clock which makes it  
possible for all the bells on the cam-  
pus to be rung at any five-minute in-  
terval. There is a battery current in  
this machine and it is so set now that  
at ten minutes to the hour and on the  
hour connection is made that makes  
this battery current become relayed to  
one hundred and ten volts which rings  
every class room bell on the campus.

The most perfect master clock sys-  
tem on the campus is that in the  
Teacher's College. The schedule is so  
arranged that teachers will have five  
minutes to get to a class in this school  
from a university class and are dis-  
missed so that teachers will have five  
minutes to get to a university class  
after a class in the Teacher's College.

This clock has a one-minute program  
machine and has four different cir-  
cuits which can make different toned  
bells. As it is there are three differ-  
ent toned bells. In this building there  
are twenty-seven secondary clocks.  
These secondary clocks have no clock  
works other than an electro-magnet,  
but resemble any other form of clock.

Connected with this clock in the  
Teacher's college there is a time  
stamp which, no doubt, causes much  
consternation to the pupil often tardy,  
for when the high school pupil is  
tardy he gets his permit to enter  
classes with the exact time and date  
he enters the office on it so there is  
no necessity for him to take fifteen  
minutes to get to a class then. This  
stamp automatically changes the date  
and time to the minute.

### THE COLLEGE WORLD

#### Ohio State

Four new organizations have been  
installed at the University of Ohio.  
They are: Aechoth, Keystone, Phi Kap-  
pa and Sigma Alpha Delta.

The weekly custom of sounding  
"taps" in honor of former students  
who died in the service, was begun  
last Wednesday. Following the call  
to attention, two buglers sounded  
"taps," the students on the campus  
halted and the men stood at attention  
and uncovered. This practice has  
been adopted as a mark of respect for  
the men who sacrificed their lives in  
the World War.
