BUSINESS MEN BACK EXPANSION

Commercial Club Defines University Zone—Student Colony Near Campus.

Boundaries Set for State Institution in Order to Protect its Interests.

The boundaries of the land which is to be set aside for use by the University in its future growth were fixed Monday noon in a resolution passed by the members of the Lincoln Plans Committee of the Commercial Club. The University zone is bounded by Q Street on the South, 9th Street on the west, the Rock Island railroad on the east, and the Missouri Pacific on the north.

A marked growth and development of the part of the University is looked for within the next few years by the Lincoln business men and others who are on this committee, therefore, these steps are being taken to assure an extent of land sufficient to allow this growth. It is the opinion of this committee that before long the University campus will include an area three or four times that which it now comprises.

Regent Miller and Chancellor Avery spoke at the meeting of the Commercial Club and at a general discussion of the future growth and the manner in which this land is to be used, the question of a system of dormitories was introduced. It was suggested that the land at the eastern end of the new zone, between Sixteenth and Seventeenth streets, be used in event of any action in this respect. The suggestion was also made that lots be set aside for the erection of houses for use by the University professors.

If the sororities and fraternities at Nebraska should all locate their houses either in this territory or adjacent to it, the result would be decidedly beneficial for the welfare of the University and would establish an atmosphere which would mean much to the interest taken by the students in their studies and University professors.

SELECT TWO ROUTES FOR UNIVERSITY WEEK TRIP

The towns on the University week schedule are now definitely lined up, and the people in charge of the entertainments are working hard.

Part of the entertainers will take a northeastern route and part a northwestern route. The schedule for the northeastern trip is Newman Grove, Albion, Madison, Norfolk, and West Point; for the northwestern, Lexington, Gothenburg, North Platte, Chapell, Sidney and Kimball. These towns will be visited either in the order named or in the reverse order, i. e., beginning with the last-named and ending with the first.

The students who will represent the University on this tour have not all been chosen. The casts of "It Pays to Advertise" and "Under Cover" will be the same as when the plays were presented here with the possible exception of one or two characters.

The trip is an annual affair. Student talent is selected with the greatest care possible in order that the best presentation possible may be made. Former trips have covered a great deal of territory but it is impossible to cover any extensive amount of space in one week.

SUBSCRIPTION BOOKS!

There are still 24 books that have not been turned in at the Student Activities Office. These must be in not later than Wednesday, March 10th, 12 o'clock.

GRACE COPPOCK FUND CAMPAIGN NEARS END

Only One More Day to Solicit Salary—Goal Far Distant.

With less than a day left to reach the \$1900 goal, the teams soliciting pledges to the Grace Copcock fund are working hard. \$965 had been pledged when the captains of the teams met Monday noon.

At that time the Freshman commission was in the lead with a total of \$175 pledged and Olive Hartley's team ranked second with \$124.50 to its credit. Thirty girls compose the Freshman commission team, while each of the other teams including Miss Hartley's is composed of ten.

The teams have a card catalog of all the girls in the University and are checking off the names of the girls as they solicit them, Monday noon, when over half the \$1900 had been pledged, less than half the girls had been solicited. In speaking of this Miss McKinnon declined to make any prediction in regard to the outcome, because she had no way of knowing how the response of those who had then been solicited would compare with the response of those who the girls had solicited.

SNEAK-THIEVES GET BIG HAUL MONDAY AT PHI DELTA HOUSE

That night prowlers have not wholly confined their operations to cellars was proven early Monday morning when sneak-thieves entered the Phi Delta Theta house at 544 So. 17th street for the third time this year and succeeded in depleting the house exchequer to the extent of \$150.

The unwelcome visitor gained entrance through the front portal between the hours of one and two o'clock in cold and silent morning. All the articles of haberdashery were carefully rifled of available currency and silver. The thief was kindhearted enough to leave jewelry and timepieces to the owners.

The loss was discovered by one of the occupants who arose early for study. The news was quickly sounded and all the men instantly jumped from the "ostermoores" to their rooms where individual invoices were taken. The final count totaled approximately \$150.

The local police were dispatched to the scene of the early morning frolic where they endeavored to obtain clues. After a day's investigation the blue-coats gave up the hunt and declared the bandit was a "slicker"—but they hoped to eventually land him in the public bastille.

BASEBALL MEN

All men who intend to go out for baseball in the spring, meet at the Armory Wednesday at four o'clock.

ILLINOIS HOLDS INDOOR MEET

Wright and Dale Represent Nebraska—Johnson of Michigan Establishes New Record.

6,000 Persons Watch Track Meet in New Armory at Champaign-Urbana Saturday.

Floyd Wright and Fred Dale were the only two contestants which Nebraska sent to the Third Annual Relay Carnival which was held in the new armory at the University of Illinois, Saturday, March 6. Wright entered the 75-yard hurdles, and Dale handled the weights, but neither succeeded in placing against speed demons from all parts of the country. Dale received fourth place in the shot put event, but only three places were given by the judges. The Nebraska relay team, which is one of the best in the country composed of Gibbs, Owen, McMahon, and Stromer, was unable to attend the carnival because several of the men are recovering from recent injuries.

The brilliant work of Captain Carl Johnson of Michigan, who won three events and established a new American record in one, featured the carnival. The Wolverines won first place in the 75-yard high and low hurdles and the running high jump. Chicago was the first to score a victory, when its team won the two mile relay in the record-breaking time of 8:04 4-5. Captain Speer of Chicago nosed out Captain Emery of Illinois by inches. Jackson Scholz, fleet Missouri sprinter, took the 75-yard dash in :07 3-5, which broke the carnival mark and tied the American amateur record.

Ames won the four-mile relay, Michigan and Kansas tied for first place in the pole vault, and Illinois took the one-mile relay through the great running of Phil Spink on the last lap. Georgetown grabbed the 2-mile medley by Connolly's speed.

The idea of the indoor track carnival originated with Mr. Harry Gill, the coach of track teams at the University of Illinois. Harvey T. Woodruff. (Continued on Page Four)
