

SENIORS STAGE STARTLING "SHINDIG"

Mysterious Secret Revealed at Last Class Party of Year.

A successful Senior "Shindig," the last gathering of the Class of 1920, gave hundreds of fourth-year students an opportunity to have a unique good time Saturday night in Woman's Hall. An interesting program was a feature of the entertainment, and dancing and games were enjoyed during the evening.

On entering the building, a scarlet and cream card was pinned on each guest, and on this card each person wrote his or her name. At the end of the festivities, a mysterious secret was revealed to only members of the class—Senior "Sneak Day" was made known.

HUSKERS WIN IN 16-12 SLUG-FEST

(Continued from Page One)

and Captain Pickett came to the rescue in the fourth with the bases full.

He shut out the Dakotans without a score. On account of his sore arm Pickett was relieved by Reynolds in the sixth inning. Both teams settled down to business and played good ball the remainder of the nine innings.

The Coyotes crossed the plate twice in the sixth and three times in the eighth while the Huskers added two more runs to their credit and called it a day.

The score:

Nebraska		South Dakota	
ab	r h o a e	ab	r h o a e
Linn, 2b	6 2 1 0 1 1	Cook, 2b	6 1 1 3 1 1
Bekins, 1b	5 3 1 13 0 1	Horkey, 1b	5 2 1 14 0 1
Pickett, lf, p.	5 3 2 0 0 0	Duncan, cf	5 3 1 0 0 0
McCrary, rf	5 1 1 0 0 0	Roberts, cf	5 3 1 0 1 1

Hubka, cf	5	1	2	3	0	1
Russell, 3b	5	1	1	1	3	1
Bailey, ss	5	0	1	0	7	1
Smith, c	5	3	2	6	0	0
Kline, p	1	1	0	0	0	0
Ely, p	1	0	0	0	0	0
Reynolds, p	1	0	0	0	0	0
Swanson, lf	2	1	0	1	0	0
Wythers, lf	1	0	0	0	0	0
Totals	42	16	11	24	11	5

South Dakota

ab	r	h	o	a	e	
Smith, rf	6	2	2	1	0	0
Cook, 2b	6	1	1	3	1	1
Horkey, 1b	5	2	1	14	0	1
Duncan, cf	5	3	1	0	0	0
Roberts, cf	5	3	1	0	1	1
Hirehman, c	5	1	1	4	2	0
Peterson, ss	5	0	1	2	4	1
Quintal, 3b	5	0	1	2	6	2
Hengle, lf, p.	5	0	0	1	0	0
Totals	47	12	9	27	14	6

By innings:
Nebraska 1 7 0 1 5 1 1 0 x-16
South Dakota 0 1 1 0 2 2 0 3 0-12

Two base hits—Smith, Pickett.
Cook, Hubka. Sacrifice hits—Cook, Roberts, Bailey. Stolen bases—Bailey, Bekins, McCrary, Hubka, Peterson. Hit by pitcher—by Hengle 3. Struck out—by Hengle 4, by Kline 3. Time of game 2:15. Umpire—Scottie Dye.

"HOME-EC'S" WILL PICNIC THURSDAY

(Continued from Page One)
Whittle the sticks to toast their marshmallows on.
Other years the picnic has been given by the new officers to the rest of the Home Economics Club. This year the officers elected for next year with the co-operation of the faculty and some other members of the Home Economics Club are giving the picnic to all the Home Economics girls, whether members of the club or not. There are 225 in the department.

FOGG GIVES WAR LECTURE IN OPERA HOUSE AT ORD

Professor M. M. Fogg lectured at Ord Saturday night. His subject was "Over Nebraskans' Battlefields in France." The lecture was given in the opera house. It was illustrated with nearly sixty pictures he took when he made his tour of the battle front as the guest of General Pershing. The lecture was presented to University students at a convocation early the second semester.

ENGINEERS STAGE NOVEL OPEN NIGHT

(Continued from Page One)
which poured a continual stream of black liquid, attracted a great deal of comment. A wireless telephone apparatus set up by two Junior Electrical students was in operation. Experiments with bolts of electricity were carried on by one student. The testing machines, both the small 50,000-pound capacity one and the large one of 200,000 pounds capacity, were put through their paces by expert students. The laboratories where brick and paving material were tested interested many of the spectators. A brick, which was being cut through by the driving of a small wire against it with sand and water to hasten the process, demonstrated the wear that paving materials must be able to stand.

INDIANS FALL IN TRACK MEET

(Continued from Page One)
led the Husker runner by a small margin at the finish.
Wright and Finney cleared the 220-yard low hurdles and won easily. Wright's time was 27.3 seconds; Gaf, holder of the Missouri Valley Conference record in the two-mile, got away

with a big lead in this event, and held it to the tape. Patasoni, the little Indian, crossed the line in second place with Harper on his heels.

Freshman Handicap Staged

The Huskers ran away with the field events, the Indians' only rating second and third places. Coach Schulte staged a special Freshman handicap quarter-mile for the yearlings. The results were Gardner, first, with a handicap of ten yards at the beginning; Beezer, second, with a handicap of ten yards; Hapson, third, with a thirty-yard handicap, and Leyton, fourth, running from scratch. The time from scratch was 53:1.
The relay team that Nebraska sent on the field Saturday romped away from the Indians in the final event of the day. Gibbs gained a good lead on Bates in the first lap, while Osage and Thompson failed to gain on McMahon and Stromer. Owens ran the last lap with a burst of speed and finished ten yards in front of Winne, the Indian runner.

PLAYING SAFE
A student earning his way through college is justified in playing safe. Many realize that salesmanship offers the best chance for large returns, but hesitate to take the risk of failure and consequent loss of a smaller but apparently surer profit in some form of clerical or manual labor. Your next year at college may depend upon the result of your summer's work. Under these circumstances, you have a right and, indeed, show good judgment, in asking definite guarantees from any company seeking your services on a commission sales contract. We guarantee \$7.00 per day.
Write us for particulars.

VACUUM RESEARCH ROOM G-E LABORATORY
Using the X-ray in the Home

Greater X-ray Service—through Research

FOR years after the discovery of X-rays it was evident that only intensive research could unfold their real possibilities.

Meanwhile, scientists of the General Electric Company developed the process of making wrought tungsten. This proved ideal as the target in X-ray tubes and its use for this purpose soon became universal.

Then further research resulted in the development of an X-ray tube of a radically new type—the Coolidge Tube—with both electrodes of wrought tungsten and containing the highest attainable vacuum.

But the complication of high-vacuum pumps made the new tube in large quantities impossible. The answer to this problem was the Langmuir Condensation Pump, utilizing mercury vapor in its operation and almost automatic.

To meet the need for simple X-ray apparatus during the war, the G-E Laboratory developed the Self-Rectifying Coolidge Tube, which made possible portable outfits at the front. The latest X-ray outfit of this type is so small it can be taken conveniently to the home or to the bedside in the hospital.

Thus the Research Laboratory of the General Electric Company continues to serve, that progress in things electrical may continue for the good of humanity.
