WEDNESDAY BIG DAY FOR DRIVE

Up to Yesterday Afternoon Student Subscriptions Totaled More than \$20,000.

Jack Best Makes Donation Entirely Unsolicited—Today Last Day for Campaign.

The next to the last day of the great Memorial Drive which was designated as "Tag Day" on the University campus, swelled the coffers of the new gymnasium fund manifold. The University grounds were dotted with students wearing the insignia showing that they are subscribers to the Nebraska Memorial when the soliciting was finished for the day.

"It was the biggest day yet," said a committee chairman late Wednesday afternoon. "The University of Nebraska is responding nobly to the great cause it has guaranteed to finance. Today is the last day and it is the aim of the committees that tonight will see every Cornhusker with his subscription badge pinned on the outside of his coat."

Large Subscriptions Yesterday
Several large student donations were received Wednesday. Amounts ranging from ten dollars to a few hundred dollar subscriptions, and several of \$250 and \$500 were announced by the general committee. To date students alone have contributed more than \$20,000 to the gymnasium and stadium, and although faculty subscriptions are just beginning to come in, the total donations from them amount to slightly over \$3,000. Two professors have pledged themselves to give \$400 and several other large amounts have been promised.

The University of Nebraska's quota is set at \$75,000 and this amount must be raised in pledges before the

EVERYTHING READY FOR EXAMINATIONS

Authorities Announce That There is no Shortage of Test Paper this Time.

GRIND ENDS ON JUNE 4

Examination week is rapidly approaching. As in recent years the grind will start next Saturday morning at nine o'clock when twenty-nine examinations will be conducted in the French, Spanish and English courses. The final gong will sound at 3:15 p. m. when all papers will be handed in. The examination schedule continues throughout the next week concluding Friday, June 4.

Many professors who will engage in summer work other than the profession of teaching and who are anxious to finish their semester reports, are giving finals Wednesday, Thursday and Saturday of this week. Students voice their approval of this plan because they wish to eliminate as much of the conventional worry and "cram" as possible.

Purchasing Agent Chadderton announces that he has obtained enough paper to enable every student in the University to write everything he knows. Many students are surprised to know this fact since the rumor has been that the supply of examination paper was about exhausted. Consequently the usual quota of paper will be allotted to each student.

Cornhusker Staff Members Who Are Responsible for Success of Nebraska's 1920 Year-Book

Stryker, Nelson, Ross, McGregor
Ryons, McFarland, Hoagland, Finch, Wilcox, Farman
McMahon, Lindsay, Patty, Reed, Gerhart, Brenke, Davis

TRACKSTERS OFF FOR MEET TODAY

Seven Leave this Afternoon to Compete at Ames—Rest go Tomorrow.

68 ON CROSS-COUNTRY LIST

Gish, Lees, Gerhart and the four quarter milers leave this afternoon on the Burlington at 1:40 for Ames, where they will enter the preliminaries of the Missouri Valley meet in the high jump, the pole vault and the quarter mile. Coach Schulte will accompany these men so as to be on hand for the preliminaries and make the necessary arrangements for the rest of the team.

The second bunch will leave at the same time tomorrow afternoon. Floyd Wright will be in charge of the second bunch and they will go straight through from Omaha to Ames on the Northwestern so as to get a good night's rest before the meet on Saturday.

Anyone that places either second

ENGINEERING STUDENTS CHOOSE NEW OFFICERS

Men Selected Will Serve During First Semester of Next Year.

Officers of the Mechanical Engineering, the Civil Engineering and the Electrical Engineering societies were elected at a recent meeting of the American Association of Engineers. They will hold office during the first semester of the next school year. The list of officers is as follows:

- Civil Engineers**
President.....H. H. Barnard
Vice-President.....E. M. Critchfield
Secretary.....L. K. Holloway
Treasurer.....H. Upton
Blue Print Representative.....L. K. Holloway
- Mechanical Engineers**
President.....W. H. Foxwell
Vice-President.....H. Smith
Secretary.....Kratz
Treasurer.....Weaver
Blue Print Representative.....W. Montgomery
- Electrical Engineers**
Honorary Chairman.....Dean O. J. Ferguson
Student Chairman.....H. O. Peterson
Vice-Chairman.....Vellie
Secretary-Treasurer.....C. O. Hedges
Blue Print Representative.....A. Weaver

How the Professors Measure Brain Power

The semi-annual inquisition is at hand. Already the persecutors are preparing the instruments of torture. Some are even grasping for their victims this week. The ingenuity of the Spaniards cannot hold a candle to the scientific efficiency of our modern "profs." Instead of thinking up such unmethodical devices as a pit full of rats or a knife-like pendulum, our "profs" have their tortures worked out in mathematical precision. We stupid students can never expect to fathom the depths of their plots.

Some who are sharks at solving riddles say that first the "profs" calculate the number of cubic centi-

STUDENTS DIVE FOR YEAR-BOOKS

Rush Began at Eight this Morning—Every Annual Has Been Sold.

Those Who Departed from Straight Path Find Student Life Section Alluring.

Distribution of the Cornhuskers began at eight o'clock this morning at the Student Activities office. Every book has been sold and a great pile waits at the office to be given out to those who present their receipts and pay their remaining two-fifty. Those who do not have their receipts can get their Cornhuskers Friday.

Unusual interest surrounds the Student Life Section. It is so full of life that inklings of scandal have been leaking out during the last few days. Big events are the stuff that fills that section. Some great shocks have come to students who strayed from the straight and narrow path pointed out by Deans Engberg and Heppner and thought nobody knew about it.

The "Greater University"

A more serious section attracting attention is the "Greater University." This was written by Professor Alexander and is illustrated by pictures of the best buildings on the campus. Not only those now existing in brick and stone but those now known as air-castles—those to be erected as soon as funds are available—appear.

The miscellaneous activities not included in the other departments are under the head of "School and Class Activities." This includes last year's Ivy Day and University Night and University Week of this year.

MARJORIE BARSTOW WILL HEAD W. A. A.

Ten Girls Awarded "N" Sweaters—Irene Springer Gets Senior Cup.

\$500 DONATED TO DRIVE

Officers elected for the Woman's Athletic Association for next semester were announced. "N" sweaters were awarded, and the Senior loving cup awarded at the last W. A. A. meeting of the year held in Woman's Hall Wednesday evening.

Marjorie Barstow was elected president. Sue Stille, vice-president; Ruth Lindsay, recording secretary; Ruby Swenson, secretary, and Cora Miller, treasurer. The sports leaders chosen to take charge of W. A. A. sports next semester are as follows: Tennis—Ruth DuBois; track—Ruth McKenney; swimming—Martha Krogmann; soccer—Ruth Fickes; hockey—Eleanor Snell; baseball—Mary Shepherd; minor sports—Donna Gustin; basketball—Margaret Henderson; hiking—Katherine Wolfe.

Irene Springer, retiring president of the W. A. A., received the loving cup awarded to the Senior who has won the highest number of individual points in athletics in her four years of college.

SCHULTE PLANS TO KEEP IN TOUCH WITH HUSKERS

It is Probable that Book About Nebraska's Athletes Will be Published.

Coach Schulte does not intend to let Husker athletes forget the school and athletic affairs during the summer if present plans materialize. The following notice was tacked on the "gym" door Wednesday:

"Every old man, new man, dub, who wants to see Nebraska on top in football, baseball, basketball, track, cross-country, write a short letter—news of yourself and other athletic men—to Henry F. Schulte, Marcellus, Mich."

These letters will be printed in "Tales of Cornhuskers" which will be sent to all athletes who get their names on the free subscription list. The first issue comes out June 30.

Schulte's idea is to keep his big band of athletes in close personal touch during the summer and believes Nebraska athletics will be benefited by their increased enthusiasm next fall.

HUSKERS SET FOR LAST BALL GAME

Pip Cooke's "All Stars" Say They Can Whip Nebraska's Nine.

Game Begins at Four-Thirty this Afternoon on M Street Field.

A couple of good workouts this week have put the Huskers in form for their game with Pip Cooke's "All Stars" at M Street Park this afternoon at four-thirty. Cooke's team have also been on their toes during the past week. Daily practice has been their schedule. The "All Stars" swamped the city champions Tuesday evening and expect to make a repetition of the procedure this afternoon.

The "All Star" team is composed of old baseball men, all of whom have attended the University of Nebraska at some time. Some of the men's Nebraska days date back to 1902, but they have all attended the University. Some of these men are ranked with the best athletes that have been turned out at Nebraska and are not ready to step aside for the present-day baseball men.

Pickett Will Not Twirl

Cooke, in his challenge to the Huskers, made the stipulation that Captain Pickett would not pitch. This will be a serious handicap to the Nebraska team, but with the marked development that has been shown by both Reynolds and Ely they should be able to hold the "All Stars" in mound work.

The "All Stars" lineup includes such men as "Tuffey" Towle, Earl Carr, Jasper Clark, "Buck" Beltzer, Stutz Sturzenecker, Less Hyde, Schleuter, Sam Waugh, Jim Beltzer, Cody Clark and Carl Stein.

"It was with this lineup that we
(Continued on Page 4)

BOOKLETS SENT TO ALL HIGH SENIORS

Several Thousand Pamphlets Describing University Mailed to Graduates.

WILL GAIN NEW STUDENTS

This week several thousand pamphlets were sent out from the office of the registrar to the high school students throughout the state. They are made up of attractive pictures and descriptions of University affairs and education. The book is a sort of a sketch book of the University and is sent out to these high school Seniors with the intention of interesting them in coming to the University next year.

The appeal made to these students is as follows: "The University of Nebraska congratulates you upon the event of your graduation from high school. You have received the benefits of a general public education liberally provided for you by your community. Graduation from high school marks a 'commencement' in a very true sense of the word: from that date forward you commence your own, individual career.

State Interested in Future

"The state of Nebraska is interested in your future, for the character and success of its future citizens is its greatest asset. The University of Nebraska is maintained by the state for the purpose of giving
