

# THE DAILY NEBRASKAN

VOL. XX, NO. 6.

LINCOLN, NEBRASKA, WEDNESDAY, SEPT. 22, 1920.

PRICE FIVE CENTS.

## RHODES MAN PICKED SOON

COMMITTEE READY TO SELECT REPRESENTATIVE OF STATE.

NEBRASKANS IN THE RACE GROUP EXPECTS TO ANNOUNCE CHOICE LAST OF THIS WEEK.

Seven Men Are Applicants for Scholarship in English University—Wonderful Opportunity to Winner.

The choosing of the Rhodes scholar from Nebraska will take place the latter part of this week, according to Professor Rice, who is a member of the committee which will select the candidate from Nebraska. In all probability the Daily Nebraskan will be able to announce the winner of the scholarship by Monday morning.

There are seven applicants from Nebraska for the Rhodes Scholarship. Three of these men were graduated from this University. In the final count there will be only one man sent from the state. In case the man chosen has not been graduated he will complete his four year course here before beginning the work in some selected course at Oxford in October, 1921.

Courses Specialized at Oxford. The courses at Oxford are specialized and any course is open to the scholars. The work which will cover three years may lead either to the A. B. degree or Ph. D. These advanced studies will correspond very closely to post graduate work in American colleges.

The candidate will be an all-round man who has participated in numerous school activities. It is preferable that he has had at least two years of university or college work. The national committees in charge of selecting the men for the scholarship consist of at least three ex-Rhodes men and the chancellor of the University. The members of the Nebraska committee are Messrs. Good, Noble, Rice and Chancellor Samuel Avery.

## LIBRARY CHANGE MADE BY UNITING TWO DESKS

A change was recently made in the University Library when the reserve and loan desks were united. The reserve desk was moved from the west end of the main room to the northern part and joined to the loan desk. This change will save students many extra steps and confusion in references. New shelving has been added to accommodate the extra books. Miss Helen Wilson is in charge of reserve desk and Miss Ann Storkan assists.

Because of the overcrowded condition of the stackroom in the main library 12,000 less-used classes of books have been moved to a storeroom in the Law Building. A stairway has been cut in the western end of the main room of the Library leading to a first-story room which is to be used as a faculty reading room and a door has been added to give easy access to the storeroom of the Law Building.

## Awgwan Will Make an Optimist Out of You—"Kick In" Today

Awgwan is the name of the old man who brings a little comedy into the Cornhusker's life when he is haunted by thoughts of too much cramming. Like a court jester Awgwan drives the blues away; like a big fat healthy malted-milk, he makes you feel better.

Co-eds will sell you a year's subscription to Nebraska's Life for \$2.00, which includes the wealth of material to be found in nine sparkling issues. It is rumored that a new and promising artist of the Nell Brinkley type has made her appearance at the University and that she will draw some clever futuristic impressions for the college comic.

The first copy of the "passing show on the campus" will be published this week. The cover design, called "The End of the Glorious Parade," depicts the conclusion of an endless chain of summer vacation joys. This brilliant art work will be printed in four colors.

## NEW BAND MEMBERS ARE SELECTED AT TRYOUTS

The University Band is practicing hard to be ready for the football game with Washburn, October 2. Between fifty-five and sixty of last year's men are back this year and are working hard every Monday, Tuesday and Thursday night at five o'clock.

The following new men have been chosen to play in the band: Irvin Weller, cornet; G. Bixby, clarinet; R. L. Clem, baritone; C. C. Wiles, drums; Robert E. Lunner, cornet; W. O. Johnson, clarinet; Fred Calvy, trombone; C. D. Maxon, trombone; R. Zreglein, trombone; C. C. Ryan, clarinet; L. D. Nicholas, saxophone; R. M. Deal, trombone.

## COMMERCIAL CLUB MEETING TONIGHT

UNIVERSITY ORGANIZATION WILL MEET THIS EVENING.

Get-together Planned at Which Officers for the Ensuing Year Will Be Elected.

The first meeting this school year of the University Commercial Club will be held Thursday, September 23, in Social Science 305, at 7:30 p. m. The purpose of the first "get-together" is to elect the new officers for the 1920-21 school year and to plan the affairs of the Club. New systems of governing the organization will be considered. Every old member of the Club will be vitally interested in the discussion of these new plans.

The University Commercial Club, sponsored by the College of Business Administration of which J. E. Le Rossignol is dean, is sure of a big year. The society was organized under difficulties in the fall of 1914. The purpose of the organization is to create a fellowship among the students in the Business Administration College, and to receive practical information from prominent business men by the holding of meetings at which they are the principle speakers.

Work of Club Last Year. An exclusive Club dance which was held at the Lincoln Commercial Club rooms March 25, 1920, was one of the important events last school year. Special lectures by W. F. Hardy of the Hardy Furniture Company, O. J. Fee of the Evans Laundry Company, and Mr. Shoemaker of the National Cash Register Company were features of last year's club program.

The membership of the society is open to any student in the College of Business Administration and this year the enrollment of the organization, increasing with each year, is expected to be larger than ever before.

## ARTISTS ORGANIZE SATURDAY MORNING

An organization of artists was partially formed at a meeting held Saturday morning at the university library building. Miss Lily Yont was elected president. A meeting to further perfect the organization will be held Thursday evening at the home of Miss Helen Wilson, 928 E street. A university room will be given the society for an exhibition of pictures.

## DEAN SEAVEY NEW LAW SCHOOL HEAD

COMES TO NEBRASKA PREPARED WELL FOR POSITION.

Graduate of Harvard With Class of 1902—Spent Number of Years at Tientsin, China.

Dean Warren A. Seavey, who comes to Nebraska University to be the head of the Law College, has had a wide experience in teaching and in executive positions.

Mr. Seavey's home is in Bloomington, Ind. He received his A. B. and L. L. B. degrees from Harvard University in 1902. After about four years of private practice in Boston, Dean Seavey was appointed Professor of Law in the Imperial Pei Yang University at Tientsin, China. He returned in 1912 to be a lecturer in the Harvard Law School.

His next appointment was the Professorship of Law at Oklahoma when the Law College was organized. In 1914-16, Dean Seavey taught law at Tulane University and was the secretary of the college, the latter duty giving him opportunity to display his executive ability.

A Captain in Infantry. In 1917 Dean Seavey was commissioned Captain of the 334th Infantry, N. A. He saw active service in the war zone. When the armistice was signed he was called to take charge of the Law School of the American Expeditionary Forces at Beaune, France.

Dean Seavey has been decorated "Order of Double Dragon" for his work in the Pei Yang University. He is also a member of the American Bar Association and Phi Delta Phi, the honorary legal fraternity.

He has written several legal texts and special articles. His best known works are: "Cases on Equity" 1910, and "Cases on Agency" 1911. He has also written articles for the Southern Legal Quarterly.

## ENGINEERING COLLEGE REPORTS SOME CHANGES

All curriculums of the College of Engineering of the University of Nebraska were investigated last year by the course of study committee which has made several changes in the courses as a result of its findings. Some of the courses duplicated each other in part and this has been changed.

In the shop work of the department of mechanical engineering more attention is being paid to factory methods and standards than formerly. Electrical engineering has been made a subject for the second semester of the Sophomore year instead of a Freshman subject. A new course in methods of construction is now required of all Freshmen in the department of civil engineers. All work in the department of chemical engineering is now required of all Freshmen in the department of civil engineers. All work in the department of chemical engineering is now done under the advice of Professor Upson, chairman of the department of chemistry.

May Divide Work. Arrangements have been made by which all engineers may take some work in the College of Business Administration. A course in economics is open to all engineers in their Junior and Senior years. A course in accounting has also been opened to registrants in the College of Engineering.

## AWGWAN OFFERING TRIPS TO KANSAS

COMIC SHEET WILL SEND TWO STUDENTS TO BIG GAME.

Campaign Contest Launched for One Semester Subscriptions at One Dollar Each.

Two of Nebraska's prettiest co-eds will witness the Kansas-Nebraska football game on the Kansas gridiron at Lawrence on November 13 at the expense of Old Man Awgwan, Nebraska's gloom dispeller.

Two round trip tickets to the Jayhawk rendezvous are to be given away free to the student (not necessarily a girl) who sells the larger amount of Awgwan subscriptions in the all-University campaign that opens in earnest Wednesday morning and continues through the rest of the week until the 2,000 subscription goal is reached.

One yearly subscription at \$2.00 will count two points in the race for the railroad tickets and one semester subscription at \$1.00 will give the solicitor one mark in the percentage column.

The plan to split the year's issues of Awgwan into two single semester subscriptions was decided at a meeting of Sigma Delta Chi Tuesday evening at which time the other details of the subscription drive were worked out.

The contest is open to all students of the University and each solicitor has an equal chance of riding down to Lawrence and back with full transportation paid. Blank subscription books may be secured at the Student Activities office.

Timid green-topped Freshmen as well as the austere Seniors are targets for the armies of bewitching girls which are blocking all entrances to the campus and attacking the unwary in the corridors this week. It will take a brave heart indeed to resist the persuasive appeal of these co-eds and those who succeed in hanging on to their dollar bills will be considered as hard-hearted as Blue Beard and as grasping as King Midas.

## NEW GIFTS PRESENTED TO THE WOMAN'S BUILDING

Gifts for interior decoration in Woman's Hall have recently been presented by Mrs. R. G. Clapp, Mrs. Howard Caldwell and Xi Delta, Sophomore girls honorary society.

Mrs. R. G. Clapp, former head of the physical training department for women, presented a brass candelabrum. Another gift is Watt's picture, "Hope." This was given to the women of the University by Mrs. Howard Caldwell, wife of Professor Caldwell of the American History Department, in honor of her two daughters Evelyn and Frances Caldwell, who were graduated from the University in 1919. Chartres Cathedral, another picture hanging in the hall, is a gift of Xi Delta.

An exquisite Cloisonne vase, formerly in Chancellor Avery's office, has been loaned to Woman's Hall. This is a vase presented the University several years ago by the Chinese commission which made a tour of the United States to inspect educational institutions.

These gifts are very much appreciated and will add much to the attractiveness of Woman's Hall.

Interior decorations add to the attractiveness of any building or room and the gifts made to Woman's Hall are no exception to the rule.

## NAMES OF FRATERNITY PLEDGES STILL HELD UP

The lists of fraternity pledges will not be announced until later in the week, according to Professor R. D. Scott, chairman of the special committee to investigate the records of high school fraternity men who wish to pledge University fraternities, after an extended meeting Tuesday evening in the Law Building.

There were such a large number of men who presented themselves before the committee last night that two more meetings have been announced for Wednesday noon and Friday evening at 7:30, at which time the records of the remaining men will be gone over.

## FAVORS MILITARY TRAINING FOR ALL

COMMANDANT MOSES TELLS BENEFITS OF DRILL.

Army Colonel Believes Training a Great Benefit to Nation and Citizenry.

In an interview on present conditions emanating from the world war, and the transition which is following, Colonel Moses, commandant of cadets, told a reporter from the Daily Nebraskan yesterday, that he favored military training to bring about association of the different classes of people in order to get the best results in benefiting the nation.

In the course of the interview Colonel Moses said:

"We are passing through the transition period which usually follows a big war. A few are enthusiastic about avoiding the mistakes which were responsible for our being drawn into the last war and, by proper preparation and training, retain the prestige which we have won at so great a price. The vast majority are, as heretofore, searching for some means of bringing about the millennium while a much weaker class do not care what becomes of the nation. This latter class is governed by impulses which is the result of either heredity or environment, or both, and their mental processes are such that a normal man is incapable of analyzing them.

"The first class mentioned is filled by red blooded Americans of the Washington, Jackson, Roosevelt type and I love them.

"The second class I sympathize with and fully understand but I would like to be able to convince them that in this age of "Safety First" they should join the first group until their schemes have passed beyond theory, and they have proven their practical value by building up a world-wide feeling of brotherhood among peoples, and of confidence and good will among nations.

"The only hope of eliminating the third class is by change of environment of the individuals composing it. This may be brought about by compelling them to associate intimately with members of the other groups. There is no better place to accomplish this than on the drill field, there is no better time to do it than during the years when youth is passing into manhood."

## SIXTY SCRAP FOR VARSITY

LARGE FIELD OF CANDIDATES OUT FOR FOOTBALL.

SCHULTE PICKS LINEUP

GOSSIP STARTS REGARDING THE MAKEUP OF FIRST SQUAD.

Regulation Football Equipment Will Be Donned By Husker Warriors When Heat Wave Has Subsided.

Between fifty and sixty men are now reporting regularly for Varsity practice and the work is progressing with encouraging rapidity. Covering punts and tackling practice occupied the greater part of the Coach's time yesterday afternoon. Moore, Dale, Swanson and Howarth were used in the kicking department and their work prophesies that Nebraska will not be as weak in this end of the game as was formerly thought. The loss of Paul Dobson and Bob Russell, star punters on the 1919 eleven, gave the coaches grave worry at the beginning of the season but late developments indicate that Nebraska's punting game will be as strong as it ever was.

Eleven Lines Up on Field.

For the first time this season Coach Schulte lined up an eleven on the field yesterday afternoon. No signal practice was given, however, and only one formation was used. The first lineup called out by Schulte contained many of the veterans of last year and sent a thrill of recognition and appreciation through the stands, where a large number of students and fans had assembled to watch the practice. The lineup was as follows:

Ends—Swanson and Dana.  
Tackles—Pucelik and Monte Munn.  
Guards—Wade Munn and Young.  
Center—Day.  
Quarterback—Newman.  
Halfbacks—Hubka and Wright.  
Fullback—Dale.

Two other lineups were also formed by the Coach but only the one formation was used.

Schissler again put the Freshman squad through a stiff workout on the State Farm field. Schissler is now giving his men signal practice and expects to start scrimmage work tomorrow or Friday. He has a squad even larger than the Varsity outfit and intends to keep this number of men out as long as possible. The Freshmen will tangle with the Varsity in the first scrimmage of the year Saturday afternoon.

Regulation football equipment will be donned by the 1920 Cornhusker gridiron warriors today or tomorrow, according to information from Coach Schulte. The oppressive heat which has existed the past week has made it advisable for the Coach to require only track uniforms. The proximity of the opening game and the shortness of time have caused this move, although the weather has descended but very slightly in temperature.

Washburn is Confident.

Information reaching the Cornhusker football camp from Washburn College, which is to clash with Nebraska in the season's gridiron manhood.

(Continued on Page 4.)

## Grab a Bewitching Co-Ed "Rag" Solicitor and Subscribe Now!

Perhaps you were "held up" yesterday on the campus by a young lady with a charm akin to that of Elsie Ferguson, combined with the coquetry of Constance Talmadge. These co-eds, this week, are known as "solicitors" and they extract from the pockets of Freshmen, nearly all Sophomores, some Juniors, and a few Seniors, checks, dollar bills and even I. O. U.'s.

Yesterday these vivacious co-eds played ragtime on the campus and if you were "held up" and robbed of a dollar plus a quarter you can feel fortunate. It is not often you get a subscription to a college publication and meet a violet-like little maiden at the same time.

You won't be able to get an "extra" free all semester. If you yield to the siren calls of the co-ed solicitor you will not have the "sick" conscience of a "rag picker" when you grab your daily paper. You will be able to read the campus news of the day without

waiting to borrow a Daily Nebraskan from some unfortunate student. You will feel that you have a real personal interest in the publication of the paper and may feel free to make suggestions, and sing praises or cast criticisms.

Do you realize that a better and bigger Nebraskan which follows in the footsteps of the best publications in the country is impossible if the financial returns are not abundant? Do you realize that you have left the "spirit" of Nebraska in your unpacked trunk if you do not subscribe to her Daily?

Grab the nearest co-ed solicitor by the arm and tell her you want the "Rag" for one semester. You can spare the \$1.25 because everybody knows that you just received a fat check from home.

Subscribe and the campus smiles with you, be a "Rag picker" and you are ashamed to smile.

## News of the Day

Former Omahan in Hunger Strike.

OMAHA, Sept. 21.—Joseph Kinney, near death in the Cork, Ireland, prison on account of a hunger strike of forty days, formerly lived in Omaha. He was arrested on suspicion of being an Irish republican soldier.

Another Race Riot in Chicago.

CHICAGO, Sept. 21.—Only heroic action of Father Gabriel saved the city from a serious riot. One man was killed and several wounded in the riot before Father Gabriel quieted them.

Probe Dishonest Baseball.

CHICAGO, Sept. 21.—The grand jury are probing the case of alleged dishonesty in the baseball game between the White Sox and the Cincinnati Reds. The charge is made that some White Sox were "influenced" by dishonest gamblers before the game.

Prices Go Down.

DETROIT, Mich., Sept. 21.—Henry Ford announced that Fords are practically back to pre-war prices. This will lower the prices of many other cars, and will also force much of the raw material that has been stored, back on the market.

Guards to Prevent Bomb Explosion.

NEW YORK, Sept. 21.—A strong guard is maintained at the Customs House to prevent the possible bomb explosion predicted yesterday. A warning was sent to the collector of internal revenues to search all persons carrying bundles.
