Theatre Reviews Constance Binney in '39 East,' the famous stage success which is a humorous little story of a minister's daughter who joined the chorus will be seen at the Rialto the first part of this week.

'Big Happiness,' starring Dustin Farnum, a wonderful picture with a wonderful star is likely to prove popular with Colonial theater-goers Monday, Tuesday and Wednesday. The story, 'Joan of Rainbow Springs,' has been adopted and as 'Girl of My Heart,' featuring Shirley Mason, will be the attraction the last part of the week.

Go to the Lyric if you want 'Something to Think About' and you surely find it in this Cecil B. DeMille feature. Gloria Swanson and other stars make up a cast which will serve to interpret the story in a way that will strongly impress its message.

The Sun has three excellent programs billed for this week. Monday and Tuesday, Constance Talmadge in 'Two Weeks,' her sister Norma in 'The Woman Gives' on Wednesday and Thursday, and 'Back to God's Country' with an all-star cast, on Friday and Saturday, should delight all patrons.

George McManus' now 'immortal' character, 'Jiggs' will be bombarded as usual, by 'Maggie,' when 'Bringing Up Father at the Seashore' will be given at the Orpheum Tuesday night. Beginning Wednesday, Eddie Vogt in 'The Love Shop' with elaborate costumes and settings will fascinate and delight Orpheum audiences. 'Follow On,' a one-act comedy with Harriet Marlowe in the lead is also a headliner of unusual quality. The contributing bill is said to be excellent.

The Liberty will have a well balanced program this week. Several vaudeville acts and 'Mrs. Temple's Telegram,' with Bryant Washburn as the star will be given the first half of the week. Eugene O'Brien, the widely-told-of 'perfect lover,' has the first role in 'The Figurehead,' a marvelous tale of intermingled love and politics, which will be the picture the rest of the week.

The Department of Conservation and Soil Survey has received many requests from over the state for the pictures taken on the recent airplane trip that extended over 1,200 miles of Nebraska. A request was also received from the Classon Map Company of Denver, for a number of Nebraska photographs to be used in a road publication soon to be published. The department has also received for distribution a number of valuable films showing the Panama canal, Colombia, South America, Glaciers, Yellowstone National Park, New England, New York City and the cotton and the steel industries.

The motion picture reels now reach from 5,000 to 30,000 people weekly in Nebraska and are also used in a number of other states. Dr. Condra has accepted a place on the program of the national organization of Soil Survey. The meetings will be held in Chicago November 18 and 19. The Doctor will outline in considerable detail the plans and progress of the Nebraska survey. Nebraska's progress in this line has been much more than that of most states.

1870 NEW YORK 1870 Most of the famous buildings of the world are equipped with Otis Elevators THE WOOLWORTH TOWER—the tallest office building; the Equitable—the largest; the Singer Building—in fact most of the buildings that make up the best known skyline in the world, are equipped with Otis Elevators. Few people realize the amount of wealth of Manhattan Island that is due to the creation and development of modern vertical transportation by the Otis Elevator Company. New York City could not grow wider hemmed in as it was by the two rivers and the bay. It had to grow skyward. And now, the Otis Elevators in New York City carry daily more than twice the number of passengers carried by all the traction lines of New York—subway, surface, elevated and railroads. Nothing short of a book would adequately tell the story of Otis in New York alone. OTIS ELEVATOR COMPANY Offices in all Principal Cities of the World
