THE RAJAH'S PALACE MYSORE, INDIA Equipped with Otis Elevators

WITHIN the romantic line of "India's cotal strand," in remote, un-thought-of places, Otis has introduced modern, vertical transportation.

The Rajah of the native State of Mysore resides in this palace in the capital city of the same name. What a strange note this modern elevator must bring to this palace! . . . The civilization of the West reaching into the very heart of the Orient and paving the way for other products!

As an achievement, this Otis installation is noteworthy in itself, but its chief significance lies in the fact that it is a typical indication of the world-wide scope of Otis activities.

Most of the famous buildings of the world are equipped with Otis Elevators
