LAW-DENT GAME PLAYED TODAY

(Continued from Page One)

It was rumored Friday that Grand Island College has challenged the Law College to a game to be played in Grand Island Thanksgiving. No definite information has been given out as to whether this contest will be staged.

Pucelik Coaches Dents.

John Pucelik was selected coach for the Dental College. The Dents appear confident of a victory over the barristers, in spite of the fact that the Engineers fell before the tactics of the Laws in the Armistice day tangle. Coach Pucelik, with the assistance of Captain Warren has placed the players for the coming contest. Both colleges have a large number of men that they expect to use for substitutes. Coaches Malcolm Baldrige and John Pucelik announced that the game would be started with the following lineup:

Laws	Pos.	Dents
Smith	re	Hull
Elliott	rt	Kositsky
Woodle	rg	MacAshland
Chas. Reed	c	Capt. Warren
Elmen	lg	Dally
Halbersleben	lt	Leigh
Harry Reed	le	Smith
Fogelson	qb	Carman
Preston	rh	Hamilton
McCarthy	lh	Johnson
Capt. Pickett	fb	Byers

The game promises to be exciting. Cheer leaders from the ranks of both colleges will appear on the field and inject spirit into those in the stands.

come of the game was 49 to 0 and the Cougars are fast making up for this defeat. They defeated Oregon Agricultural College to the tune of 28 to 0. It will be remembered that the O. A. C. is now coached by Dick Rutherford, Husker star of a number of years ago.

Coach Schulte will rely mostly on signal practice this week for his proteges. The Varsity will be drilled in breaking up the Cougar formations and plays.

Francis A. Brogan Talks to Students

"In law as a profession there is room for an attorney at the top, in the middle and up and down both sides. Where are you going to be?" said Francis A. Brogan in his address to the law college during the ninth general lecture period at eleven o'clock Friday, November 19. Mr. Brogan has been practicing law in with your life achievements. Omaha for many years and he re-

lated many interesting phases of the legal profession. He also was former president of the State Bar Association. He is very interested in students who intend to make law their profession. Many valuable suggestions were made to them concerning the problems of their future work.

The students were advised by Mr. Brogan to start their practice in a small town of not more than ten thousand inhabitants. He said that the city is apt to offer work that only involves one side of the law while a small town is advantageous because of the fact that practice covers nearly every phase of the lawyer's work. Law practice grows on its merits and must grow wholesomely, he said.

In closing he made several valuable suggestions, namely: "A real successful lawyer is dependable and honest. In summing up his success, he doesn't count the wealth he has accumulated or the cases he has won. You should so fix your standard and so develop it that when you end your career as an attorney you shall be able to look back and be satisfied

Night and Day Service

At the plant of the Kline Publishing Company, there is continuous production—night and day service.

The question of volume and efficient production should be given strict attention by students of Journalism. Volume determines price.

Efficient production is the arch enemy of General Overhead.

Prices made by the Kline Publishing Company are based on constant output—24 hours of effort. Many cost systems include the ravages of sixteen hours of idleness with eight hours of effort.
