Light Tax on Securities.

Dr. Kirshman's solution to this problem is a light tax on all securities, which in the long run would bring a great return to the state and do justice to corporations issuing the securities.

Representative C. B. Anderson of the First Trust company of Lincoln has written about existing conditions in a local paper and has introduced a bill in the legislature proposing a plan similar to the one Dr. Kirsh-

man is advocating. Governor McKelvie has also made a recommendation to the state legislature to do away with this obvious injustice.

He recently signed a three-year contract with the Selwyns, under the terms of which they are to star-feature him next season in a new comedy with music which is being especially written for him by George V. **REV. HILTON ACCEPTS
UNI PASTOR POSITION**

der his leadership. It was during those formative years that the devotional life of the church was emphasized and a deep spirituality developed as a foundation upon which the present church has grown.

Called from his labors to become financial secretary of Cotner college, at a time when that school property was all but lost to the church, Mr. Hilton spent two years raising the necessary money with which the college property was redeemed from indebtedness after which he was called back to resume his labors as pastor of the East Lincoln congregation. Two years later he was called to the pastorate of the University church in Bethany, and later to a professorship in Cotner college.

He served in these two capacities at Bethany for a period of ten years. In the meantime the East Lincoln church made little progress and in 1910 appealed to Mr. Hilton to again

become its minister. Accepting the call, he led the congregation in his last pastorate for a period of ten years. During these ten years the membership has grown steadily until it now has a membership of 450.

Plans have been completed for a modern church building. The congregation has moved from the old frame building to the basement of the new church home. The church is out of debt and about \$35,000 has been subscribed towards the completion of the new building.

In addition to this valuable contribution to the growth of the East Lincoln church, the University church, and Cotner college, Mr. Hilton has generously assisted in the building of churches in other fields. He Havelock church was started with the assistance of the University church during his pastorate there and when the Tabernacle church was organized, he led the East Lincoln church, which together with the other churches of the city, gave valuable assistance in the establishment of that church at Seventeenth and South streets.
