PRICE FIVE CENTS

OPEN CAMPAIGN FOR FUNDS TODAY

Effort to Secure Contributions for Support of Steele Holcombe's Work Starts at Noon.

HOLD LARGE MASS MEETING

The Goal of the Canvass is \$1700 Which Should be Raised by Friday Night.

Noon, today, marks the opening of Nebraska in Egypt week campaign to raise funds for the support of the work of Steele Holcombe. The teams will begin canvassing in the afternoon, following a luncheon at the Grand hotel at 12 o'clock. A. L. Miller, who has spent some years at Lahore, India, and was Y. M. C. A. secretary at Indiana University, will speak to the workers on the objects of the Nebraska in Egypt week.

Wednesday evening, from 7 to 8, a joint mass meeting of men and women will be held in the Armory. This meeting is open to all students regardless of whether or not they are actively engaged in working on the Nebraska in Egypt or the Nebraska in China campaigns. An attractive program of local and out-of-town talent has been arranged and a special effort will be made to have this the largest meeting of the week.

Will Hold Large Mass Meeting.

Prof. R. J. Poole, chairman of the Botany department, will act as chairman of the mass meeting and will introduce as speakers, A. L. Miller, Miss Genevieve Lowry, '15, just returned from China, and Mrs. Katherine Willard Eddy. Miss Margaret Perry of Lincoln has promised several musical numbers. The topic of the meeting will be "What Nebraska is Doing Abroad," and the talks will be confined to the work of Nebraska graduates in foreign fields. All of the speakers have been actively engaged in the work of which they speak, so that all countries will be represented with first hand information.

One thousand seven hundred dollars is the goal set for the Nebraska in Egypt week teams who are working under the direction of the University Y. M. C. A. This money will be used for the furtherance of the work of Steele Holcombe in Alexandria, Egypt. Holcombe is a graduate of Nebraska University, and the effort to contribute as large a sum as possible toward his maintenance is similar to the work of many other large universities and men's colleges both in the middlewest and in the eastern states. The \$1700 does not by any means pay all of the expenses of the Alexandria station, and the remainder of the funds are secured through the national Y. M. C. A. The purpose of Nebraska in Egypt week is to help make Nebraska's influence felt abroad as much as possible and to interest the men on the campus in world affairs which are being felt more and more each year.

Campaign Ends Friday.

The teams will continue their canvassing until Friday night, by which time it is hoped that the full amount will have been raised. Each team consists of four men, including a captain, and has a certain number of men to reach. Noon meetings are to be held for the workers, under the direction of Frank Patty. Mr. Miller will discuss the problems of the week. Reginald Frary is general chairman of the executive committee on charge of Nebraska in Egypt week and Clifford Meyer is senior captain.

Nebraska in Egypt week is carried on each spring. Information concerning the work which Steele Holcombe is doing or any other feature of the week can be secured not only at the Wednesday evening mass meeting at the Armory but from the maps which have been placed around the campus telling the location of Nebraska graduates in foreign missionary work.

Engineers Will Publish A Spicy Scandal Sheet At Their Annual Banquet

The Engineers' banquet on April 22, will be graced—or disgraced—by the appearance of a spicy, and highly slanderous scandal sheet. This journal, an added feature of Engineers' Week, will contain all the shady happenings in the Engineering College, and neither names, nor details will be omitted in its revelations.

At the last A. A. E. meeting the Engineers unwittingly voted to publish such a paper, and ever since the editorial staff has been dividing its time between sleuthing and wearing out typewriters. Already, numerous forgotten skeletons have been dragged from various Engineers' closets, and special operatives are now on the Engineers' inspection trip, spotting everything that happens, and it will do any rubber-necking Engineer well to avoid the nightly whirl, because he will be found out just as surely as he would if he did his carousing in Lincoln.

However, the staff realizes that it is not perfect, and therefore, calls upon every Engineer to assist by turning in all bits of rumor and gossip reaching his ears. Boxes have been placed on the first floor of the Mechanic Arts building for receiving any communications of this nature, and the editors guarantee to assume all responsibility and libel suits resulting therefrom. No names of contributors will be mentioned, no questions will be asked, and anonymous contributions will be gladly accepted. Furthermore, no hush money will be accepted, and anyone offering it will live to regret it. (Will the person who dropped a quarter in the box, please note.)

The name of the sheet is being kept secret, but its victims may be assured that it will be quite appropriate.

Meeting of all men interested in Tennis at the Social Science Auditorium at 5 p. m., Tuesday, evening, April 12.
