DISCOVER NEW CAUSE OF BIRD'S DEATH

A new method by which birds come to their death has been called to the attention of the department of zoology. Recently several birds have been brought to the department, which have been killed from contact with telephone and telegraph wires in their flight. In most cases the birds were seen to fly against the wires. It is presumed that they are unable to discern the wires until it is too late, and flying as they do at such a high rate of speed, simplifies their destruction.

Throughout the book are clever pictures by Katharine von Monckwitz and W. C. McCorkle, the artists for the book. Nebraska pictures are also produced.

The volume is dedicated to Mrs. Carrie B. Raymond and to the students and alumni of the University.

The twenty-eighth annual competitive drill of the cadets in the reserved officers training corps of the University will hold sway on the campus this afternoon.

Dean Engberg has formally declared a half holiday in honor of this gala occasion which is scheduled to begin at 1 o'clock and continue for two hours. Colonel Moses, commandant of cadets in the R. O. The program will begin with a review of the entire regiment before Chancellor Avery and Colonel Moses. Following the review will be the inspection of the companies by the chancellor and colonel.

LITTLE GREEN THEATRE HERE ANOTHER SUMMER

Clever Method of Entertainment Afforded Citizens and Members of Summer School Session.

The summer school students and the people of Lincoln are again to enjoy the cool comfort and splendid entertainment offered by the Campus Players in their unique Little Green theatre. The idea was conceived last summer and carried into effect with remarkable success. It is a modification of the little theater movement which has become so wide-spread throughout the United States during the past six years and which is being looked to as a means of improving and raising the standards of the American stage. It has ceased to be an experiment.

California already supports several of these open air theaters and some of them have a nation-wide reputation. New York, Michigan, Ohio and several other states have their quota of outdoor theaters. Nebraska is now copying after these states and their theaters but is for an advance in ambitions and methods.

The Little Green theatre will have a modern stage completely equipped with curtains and light. As an addition to the stage equipment there has been built a permanent cyclorama with the necessary lighting equipment and a sounding board at the rear of the stage. Two small dressing rooms will be built to accommodate the players.

The Campus Players are composed of older members drawn from the University Players and the alumni. They will produce three new one-act plays each week, the nights of performance being Wednesday, Thursday and Friday of each week beginning June 7 and continuing until July 14. The plays will be selected carefully from a large list compiled from the efforts of the leading American and European playwrights. Heavy royalties will be paid to secure the best plays available. The staff of the Campus Players is as follows: H. Alice Howell, director; Irma Wolfe Coombs, business and advertising manager; C. S. Coombs, stage manager and electrician.

The first three performances will be free and will be given Wednesday, Thursday and Friday, June 7, 8 and 9. The summer school students and faculty are especially invited to attend.

ADAMSON HEADS SUMMER PUBLICITY

Its duties consist of acquainting the public at large with what the University is doing. News from the deans of all colleges, is gathered regularly and given to the Lincoln and Omaha press.

The work of the publicity department will be very important during the vacation period, because of the fact that the Daily Nebraskan will not be printed and summer school students will have to go to Lincoln papers for news concerning the University and its activities.

Mathews will be senior member of the band next fall. He has served as chief musician during the present year and has been very active in orchestra work.

The University band has been successful this year under the leadership of William T. Quick and the new material that he has developed assures Nebraska of a better band next year. A drum major for next year will be appointed by the band director sometime during the summer.

A.T.O. BASEBALL NINE WINS CHAMPIONSHIP

D. U. Performers No Match for Opponents in Finals—Score 22-3.

The inter-fraternity baseball tournament was brought to a close yesterday afternoon when the A. T. O. nine won from the Delta Upsilon by a 22 to 3 count. Poor fielding on the part of the D. U. men was the chief cause for the defeat. The A. T. O. nine presented one of the fastest lineups seen on the local diamond this season and have a bunch of sluggers that would give the varsity a good battle.

Maxwell, captain and third baseman for the A. T. O. team, batted 1000 per cent in yesterday's contest, driving out one circuit clout and counting five scores. Blakely on the mound for the A. T. O. men proved to have a baffling delivery and struck out eleven men. Smaha pitched excellent ball for the D. U.s but was not supported in the pinches and a large number of the A. T. O. runs were the result of bad errors.

The A. T. O. men proved their right to the championship by winning every contest of the tournament by a large score.
