HISTORICAL SOCIETY 1/2 ENLARGES COLLECTION

(Continued from Page 1.)

the city of Mexico in 1906 by Miss Eva Thompson.

From Frank A. Harrison—selected personal material from the library and office of Dr. B. L. Paine. These include papers showing the beginning of Methodist social and religious work in Lincoln, memoranda upon Dr. Paine's personal practice and social relations, picture of Dr. Paine as he appeared in his younger years and valuable books.

From Thurlow Lieurance, a Chinese banjo made by primitive workmen and representing an early stage of musical development.

Secretary Sheldon and Mrs. Sheldon returned the past week from a field trip which included the old Pawnee village sites in the Loup valley, the site of Fort Laramie treaty at the junction of Horse creek at North Platte and the historic entry of the first Union Pacific train into Lyman on the Union Pacific extension from Gering west.

BIG REGISTRATION IN AGRICULTURAL COLLEGE

(Continued from Page 1.)

the coach, expects to take a good team to Minneapolis to represent the College at the National Dairy Show October 8-12, where the team will compete against teams from the leading schools of the United States and Canada.

Agricultural students are being agreeably surprised to find that they will no longer bear the odium of attending school at the "State Farm" for the name of the campus has been officially changed to "Agricultural College of the University of Nebraska." The State Farm is a thing of the past. Even the street cars are labelled "Ag-College," and attractive signboards appear on Holdrege street pointing the way to the College campus.

WANT ADS.

WILL THE MAN WHO BORROWED a fountain pen from a stranger in Social Science please return to student Activities office.

DETROIT DOCTOR HEADS MEDICAL FRATERNITY

Dr. Stuart Wilson, professor of medicine at Detroit College of Medicine, was elected president of Phi Rho Sigma medical fraternity at the twelfth biennial convention which closed at Omaha this week. Chicago was named as the next meeting place.

Hoot Mon! Tweeds

DINNA ye ever wear tweed—fresh as th' daisies—bonny as th' heather? Mon! but they're smart.

Made of the choicest woolsens; some of them on old hand looms. There's a breath of the heilands in them; a pedigree of centuries behind them. Cotton and shoddy 100% absent.

There's nothing quite so sprightly as a rough looking, hard wearing, "Hoot Mon" Tweed for both business and sports wear. Today the young man's most fashionable suit; always worn by the smart dressers of our metropolitan cities.

"Hoot Mon" Tweeds are tailored in a wide variety of models, all typical of Stratford style leadership.

It pays to buy the best.
