## FINANCE OFFICE IS REORGANIZED

Eastern Colleges — Relieves Strain on Chancellor

### J. STUART DALES TO REMAIN

Will Pattern After Illinois in Arrangement of Offices and the Administration

The reorganization of the finance office of the University is progressing according to plans diagrammed by Comptroller Morey of the University of Illinois. Mr. Morey was brought to Lincoln in the late summer to give expert advice on the conducting of the administrative offices, according to the plan introduced at Illinois.

The office of comptroller for Nebraska was offered to a man at Miami, O., on Mr. Morey's recommendation, and it has been expected that he would undertake the duties of the office the first of next January, but there is still doubt as to his acceptance. Meanwhile adjustments are being made so that everything will be running smoothly in accordance with the new plan before a finance head arrives.

The office of comptroller has been created in various universities in order to relieve the chancellor or president from too great burden of executive duties. In Nebraska the chancellor will retain the responsibility for the annual budget and fixing of salaries. But when the budget has once been fixed it will fall to the comptroller to carry out its provisions. He will sign all vouchers, arrange for repairs and improvements of buildings, and shifting of funds, when necessary, from one department to another. If advice on finance matters is needed, the comptroller may deal directly with the board of regents. He will probably attend meetings of the board. If information concerning back history or previous salaries is required he will deal with the recording secretary.

**Dales Will Remain**  
J. Stuart Dales will remain permanently recording secretary to the board of regents. Mr. Dales has been connected with the university since its organization and is familiar with every detail of its history, financial and otherwise.

The purchasing agent, a position held by L. F. Seaton, appointed last year, will have general control of buildings and repairs. He will be responsible to the comptroller. A new position, that of bursar, has been created. L. E. Gunderson of the secretary's office, has been appointed bursar this fall. He will have charge of the bookkeeping and accounting of university funds. The bureau will be under the comptroller.

Some of the details of the plan, such as shifting of present employees into definite positions, are not definitely fixed.

Changes have already been made in the arrangements of the offices devoted to the accountants. The space on the first floor of the administrative building has long since been outgrown. It is understood that Secretary Dales, who is no longer connected with the finance office, will have his office on the second floor. Cages somewhat in the style of a bank building, have been erected for the cashiers and bookkeepers in the main office for finance.

### Notice Those Limps The Girls Bear Up With on the Campus

You have been noticing the numerous girls who have been around the campus this week. This is not due to any strange disease, but is due to the fact that so many of the girls are playing soccer, and when they make connection with the ball and their feet, they make the connection on the wrong part of the foot. The result is a painful foot for a time, and that's what causes the limp.

Perhaps after a while the girls will learn to kick, and then the soccer game will progress more rapidly. The game is played every afternoon on their field just east of the social science hall.

## PENNINGTON TRANSFERS TO ROCK ISLAND CAMP

Warrant Officer Homer E. Pennington who has been stationed at the University of Nebraska for the past year has been ordered to the Rock Island Arsenal for duty as assistant to the property auditor. This order will take effect on October 1.

Mr. Pennington has had long service in the army and among other decorations has received the Cross of the French Legion of Honor. The Nebraska R. O. T. C. unit has had two warrant officers on duty here until this summer, when Mr. James was transferred to Camp Knox, Ky. Both men were on duty at the R. O. T. C. camp at Fort Snelling.

## OMAHA CLUB ELECTS OFFICERS FOR YEAR

Members Go On Record As Opposed To Fraternities In Nebraska High Schools.

Last night the Omaha club held its first meeting of the year. A great many of last year's members were present and many of the freshmen attended. Officers for the coming year were elected at the meeting.

H. Stephen King was elected president of the organization, Gladys Mickel, vice-president, Leata Markwell, secretary, and Peter Barber, treasurer. These students have been active for some time in Omaha club work.

The organization went on record as being against high school fraternities. During the year the club will do its best to have such organizations stamped out of Omaha high school.

The constitution of the organization, which was made and revised last year was finally approved last night.

A vote of thanks was tendered the retiring officers of the organization who were as follows: President, Harry Latowsky, vice-president, H. Stephen King, secretary, Gladys Mickel, and treasurer, S. A. Lewis.

The club will meet in two weeks, October 12th, in the Social Science building. All Omaha students have been tendered a welcome to visit the next meeting of the club.

## FRESHMAN TEAM SHOWS SKILL IN SCRIMMAGE

Coach Young Works Out First Year Men at Rock Island Field

Coach Young took his freshman warriors out to Rock Island for practice yesterday. The first part of the afternoon was spent in passing and kicking. Later they were put to the real grind of scrimmage. They are developing along this line and soon they will be ready to get into action against a stiff team. The back field in getting to show some real football stuff and is showing great skill in carrying the ball.

Some good punters are being developed slowly but they are getting the hang of it and are able to send the pigskin quite a few yards. Most of the scrimmage work is in plowing thru the line, this method not only helps the back field but also helps the line men to develop. Coach Young has not picked a definite team to go against the varsity but whoever he picks will put up a good fight.

A part of Wednesday's practice was spent in scrimmaging with the Cathedral High School football team. The Fresh showed up good and nary a time did the High School eleven gain an inch thru the Yearling's line. First year men were 100% on the defensive as well as offensive. Long gains were made thru the opposing line by them and they gained a lot of ground on long end runs. Few forward passes were tried by Coach Young's men, everything being devoted to carrying the ball.

Hinman and Kase were doing good at the pilot positions while Dewitz, Hubbs, Day, Cameron, and Creelious carried the ball for many yards before being stopped. No other scheduled scrimmages have been made with any other teams but they will scrimmage every afternoon.

## CORNHUSKER JOBS OPEN TO STUDENTS

Cornhusker Staff to Give Places On 1922 Annual to Hard Workers.

Students who wish to work on the 1922 Cornhusker will make application at once to the student activities office for the necessary blanks. Qualifications for doing the work will be the main factor considered in selecting the staff. The applicants can make a choice of the work they desire to do and in so far as it is possible that work will be assigned to them.

The following special notice appears on the application: Any member of the Cornhusker staff who fails to do satisfactory work, or who fails to do the work assigned him, will be dropped from the staff and notice of his dismissal published in the Daily Nebraskan.

This regulation will have the effect of putting people on the staff of the Cornhusker who are willing to work and who are qualified to do the work. The result will be that the 1922 Cornhusker will be an extremely well-edited book. It is not the intention of the editors to fill up the staff with people who want all the glory and will do no work.

## TENNIS TOURNAMENT TO BEGIN NEXT WEEK

Fall Championship of University to be Decided on Campus Courts

A single tennis contest for the fall tennis championship of the University and also to serve as a means for determining the tennis ability in the University will be staged next week on the university courts. Entrance in the meet is open to all holders of season athletic tickets and to others on payment of tennis dues which are \$1.50 per semester.

All wishing to play in the tournament will leave their names and telephone numbers at the office of the Director of Athletics, Dr. Leuhring, and drawings for the matches will be made Monday, September 3.

Freshmen, as well as upper classmen, are eligible to compete the only requirement being that you have paid your tennis dues.

Special courts will be reserved for the use of the competitors and they will be kept in best of condition.

## TIME LIMIT IS SET FOR KOSMET PLAYS

Entrants For \$100.00 Prize For Original Play Must Turn In Manuscripts Before November 1.

Students who are planning to turn in manuscripts in the contest for an original play to be used in the annual Kosmet Klub production next spring have only another month to complete their manuscripts.

The prize of \$100.00 which the Klub is offering is for a plot well worked out and suitable for a musical show. Definite information as to what kind of plays are wanted may be obtained not only from the members but from Prof. R. D. Scott, who produced the play last May.

Each applicant is asked to notify the president of Kosmet Klub or Prof. Scott this week if possible so that the committee will know about how many more plays are to be counted upon.

## DIRECTORY EDITORS WANT NEW ADDRESSES

Students With Changed Locations Asked to Notify Committee

Books are now placed on the campus for changes of address in the Student directory. All students who have changed their address since registering can make the changes by giving the correct information in the books placed on the campus at various places. One book will be placed in front of U hall, one book in social science building, one in the Law College, one at the main entrance to the campus and one at the agricultural college.

The men in charge are desirous that everyone make the necessary changes, and that they do so as soon as possible. Write plain and assist the Editor in putting out a perfect directory in record time.

The date which has been set aside on the official University calendar this year for the Kosmet Klub production is the evening preceding Ivy day. This evening will be an open night and comes about the middle of May.

There are two kinds of men: those whom you can trust and those whom you agree with everything you say.

## NEWS OF THE DAY

WASHINGTON, Sept. 28.—Progress of the national conference on unemployment indicated today prospects for completion of an emergency relief program earlier than had been anticipated.

The conference adjourned on Monday until October 5 when it is to receive reports from its sub-committees, but conferees said today that the work of shaping the reports was being accomplished so rapidly that it was believed most of them would be ready by the end of this week and the conference be able to consider a general emergency program.

The question of public employment agencies was taken up today at the conference's public hearings.

Russell F. Phelps, director of labor statistics of the Massachusetts labor department said it was desirable that employment service should be furnished without charge and suggested the best system would be for local authorities to handle the direct contract with the workers, supervised by state and federal employment authorities.

John Hilder, of the chamber of commerce of the United States, declared that the majority of the chamber's members, in a recent referendum vote went on record in favor of a federal employment system to work in cooperation with state and local agencies.

WASHINGTON, Sept. 28.—The interstate commerce commission today announced tentative plans for consolidating all of the major railroads of the United States into nineteen great

systems and gave notice that hearings would be called upon it in the near future.

The step was taken under provisions of the transportation act which allows the consolidation, if voluntary with the railroads concerned. The proposals now put forth by the commission follow in the main a plan prepared under its direction by Prof. W. Z. Ripley of Harvard.

The commission's proposed nineteen systems, as outlined today, provide for retention of the competitive arrangement of transportation lines giving most sections of the country access to two or more of the great routes devised. The principle followed in making up the consolidation that was that of hitching weaker and less profitable roads to more prosperous competitors or connections, at the same time maintaining the identity very largely of existing great railroads. In some cases branch lines of existing roads are suggested for divorce from present owners and attachment to other systems, with re-arrangement of terminal facilities.

PARIS, Sept. 28.—Premier Brainier will outline the position of the French government relative to the conference on limitation of armaments and Far Eastern questions in a speech at St. Nazaire on October 3. He will also discuss national questions including finance and German relations, in addition to the Washington conference.

It is reported he has decided to sail for the United States October 29, on board the LaSavoie with his entire staff to attend the Washington conference.

## ENGINEERING STUDENTS HEAR FRANK H. JACKSON

Frank H. Jackson, assistant testing engineer, bureau of roads, Washington, D. C., who was in Lincoln Tuesday in investigating the materials testing laboratories used for testing the highway materials for use on federal aid roads, gave a brief talk before the engineering students on methods of testing highway materials. He gave a short description of proper methods and compared our present knowledge and practice with that of a few years back.

Mr. Jackson gave a very favorable report on equipment and methods used in the University laboratories and complimented the department on the way the work was handled.

## HUSKERS PREPARING FOR WESLEYAN TEAM

Tentative Varsity Will be Selected by Coach Dawson Today—Officials to be Known Soon

Varsity football practice last evening consisted of the regular preliminary work followed by a long signal practice. Coach Dawson didn't put the Huskers through the usual thirty minute scrimmage grind that up to last night has been one of the chief factors in the Cornhuskers practice.

Forty men reported for work last evening and Coach Dawson with his assistants, Frank and Day, kept three elevens going all during the workout. Coach Farley Young of the yearling crew is bringing his men around into shape and will be ready to battle the Varsity in a few nights.

The Varsity teams will continue to battle each other until the first year men are ready to meet their more experienced opponents. Followers of the Husker football athletes are due for a pleasant surprise Saturday when the 1921 Scarlet and Cream aggregation get into action.

A tentative lineup will be printed in tomorrow's Daily Nebraskan with the weights of the entire squad, giving the Husker supporters some idea as to the strength of the 1921 combination. The Wesleyan lineup will be run in connection with the Husker eleven and a comparison of the two teams will be given.

Wesleyan to be Feared

The popular feeling seems to be that Saturday's contest will be in the nature of a practice game for Coach Dawson's proteges but after looking over both elevens the Wesleyan clan will put a team against the Huskers that will not only equal them in weight but also experience. Coach McCandless of the Gold and Brown eleven viewed the Huskers in their daily workout yesterday and commented very favorably upon the showing made.

The Methodist school have not been playing such large schools as Nebraska for a number of years and Saturday's game will be the first real big contest the Wesleyan clan have undertaken for some time. Announcement of the officials will also be made in tomorrow's paper.

## KOMENSKY CLUB GIVES RECEPTION TO MEMBERS

All Persons of Bohemian Parentage Invited to Initial Meeting

The Komensky club will entertain its members and all persons of Bohemian parentage at the Faculty hall rooms in the Temple building, Friday night in the first big meeting of the year. Meetings will be held every two weeks during the semester.

For the meeting Friday night, a program of light entertainment will be given, and arrangements made for carrying out a program at each meeting. The programs will attempt to carry along with them a certain educational feature stressing the ideas of John Ames Komensky, the eminent Bohemian educator, after whom the club was named.

The local organization is the first Komensky club ever organized. There are many other clubs over the state, several in Iowa, and a number at other universities and schools.

## AWGWAN AWARDS CONTEST PRIZES

Valora Hullinger is Presented With "N" Blanket For Securing Most Subscriptions.

### MANY STUDENTS SUBSCRIBE

Campaign To Continue This Week—Record Number of Subscriptions Hope of Management.

Valora Hullinger, a member of Alpha Omicron Pi, was the winner of the prize given to the individual selling the largest number of subscriptions to the Awgwan on Tuesday of this week. The prize is an official "N" blanket.

Miss Hullinger solicited 181 subscriptions the first day of the campaign, nearly double that of her nearest competitor. Miss Lois Thompson, Kappa Kappa Gamma, ranked second with a total of 92 subscriptions. Madge Morrison, Alpha Phi, stood third with a total sale of 69 subscriptions.

Announcement will be made of the winner of Wednesday's blanket in the Daily Nebraskan on Friday. A complete report of the outcome of the campaign, together with the winners of Thursday's and Friday's blankets will be ready for announcement on Sunday.

The number of subscriptions sold has not approached the number yet to be sold. The person who came close to winning one day may win the blanket the next day. The awards are made to the one person who sells the most Awgwans on one specific day. The number makes no difference as long as it stands highest. Those working for subscriptions are earnestly solicited to keep up their efforts and swell the number of subscriptions each day by as many as were obtained Tuesday.

Campaigns of past years have always dwindled down during the last few days but the management says that it is not always the best policy to follow precedent. It is to be hoped that this year, as some years previous have proved, will be unusual and that the number of subscriptions will break all records.

The formal awarding of the blankets will probably take place Monday. These blankets are highly valued and coveted by University of Nebraska coeds. More interest than usual has been shown this year and the final results of the campaign will be keenly anticipated by the students.

## PRE-MEDIC SMOKER TO BE GIVEN ON FRIDAY

The pre-medic society of the University held its first meeting of the year Tuesday evening in Bessey hall. All former members were present in addition to a goodly number of freshmen. Great interest was manifested in the work of the organization and plans held for the coming year.

Plans were formulated for a smoker to be held at the Omega Beta Pi house Friday evening, to which all pre-medic students will be welcome.

### STUDENT RECEPTION

English Grace Lutheran invites all university students especially Lutherans to attend the annual student reception in the church parlors, 14th & F Streets, 8:00 p. m. Friday, Sept. 30.

## English Professor is Voracious Reader of Recognized Novels

As part of his instruction in freshman English, Rowse B. Wilcox, a new new instructor in the department, gave his classes a list of something over three hundred volumes of prose fiction, novels, poetry, and drama. From this list the students are required to read five works. But the significant thing about the assignment is the fact that Mr. Wilcox has read every volume mentioned. He can, if given the name of the book, tell who the author is, and give a synopsis of the story narrated. The instructor attributes his knowledge to the fact that he has always been fond of reading, and that his mother, when he was a small child, had a large, fine library. The result was that he was trained as a child to read.
