

## CHANCELLOR IS BACK FROM TRIP

Attended Association at Columbia, Mo., and Conference of Chancellors at New Orleans.

## NEBRASKA UNI IS HONORED

Chancellor Has Been Very Active in Those Associations—Holding Residency of One.

Chancellor Avery returned early Sunday morning after an absence of ten days from the university. The first three days were spent at Columbia, Mo., taking part in the sessions of the association of American Universities. This is an association comprising some twenty-five of the leading universities of the country. The discussions were of general educational policies and especially the work of the graduate college. It has been facetiously termed sometimes as the leading "high-brow" association in the country. A number of years ago this association was asked by a group of foreign universities to evaluate those institutions that came up to the standards of its members in preparing students for graduate work and since that time membership in this association or approval by the association has been considered the standard for graduate study.

A number of years ago this association was asked by the United States bureau of education and the Carnegie foundation to undertake to prepare a list of standard colleges and universities on the basis of ability to do graduate work. This work is to be taken up and pushed next year, the members of the association all realize the difficulty of securing a list of institutions justly showing their standing insofar as preparation for graduate work is concerned.

In this association everything is done in the name of the college which the individual represents. Thus, some twelve years ago one of the leading papers was presented for Princeton university and the person who happened to present the paper was Woodrow Wilson. Papers for Harvard university have been presented by President Lowell, and for Yale by President Hadley. In the rather peculiar phrasing of the organization the place of meeting is designated with a university rather than in a city. In harmony with this procedure the association unanimously elected the University of Nebraska as president and the John Hopkins university as the place of meeting for next year. The secretary of the association is the University of Chicago, the work actually being done by Professor David A. Robertson.

### Attends Chancellor's Conference.

At the close of the meeting Chancellor Avery proceeded to New Orleans reaching there in time for the meeting of the national association of state universities. Membership in this association consists of all institutions recognized by their own states as state universities. The delegates to this association are the presidents (chancellors) of the institutions or someone especially delegated by the president to represent him. This organization is some fifty years old. It has been very influential in public matters. A committee of this association consisting of President Thompson of Ohio as chairman, President Fairall of Arkansas and Chancellor Avery had much to do with the drafting of the R. O. T. C. military legislation and co-operated with other organizations in securing its passage. The members of this organization co-operate in furnishing information in regard to budgets and legislative requests.

The meeting of this association closed with a joint session with the members of the association of land grant colleges. The last named association comprises all the colleges of agriculture and mechanic arts of the country. Dean Burnett, Director Brown, Dean Ferguson and Miss Fedde were also in attendance. The session of the association continued during Wednesday and Thursday. One of the most important addresses was given by C. W. Pugsley, well known in university and city circles and now assistant secretary of agriculture. This is the association which has had the most to do with federal grants for agriculture and mechanical training as well as home economics and

## JUNIOR LAWS PLAN HOP FOR THANKSGIVING EVE

President Clarence Beck of the junior law class announces the following committee in charge of the junior law hop to be given at the K. C. hall, Wednesday night, November 23: R. C. Van Kirk, chairman; A. H. Adkins, Adolphe Wenke, Bryan Quigley, L. V. Jacobson, and Walt White.

The Wednesday night preceding Thanksgiving has been declared an open night by university authorities and this dance is predicted, by the committee, to be the gala event of the evening. Refreshments are to be served, and during the evening there will be a number of novel features to entertain those attending.

Tickets may be purchased from any member of the committee for a dollar.

## W.S.G.A. PLANS VOCATIONAL TALKS

M. C. Myer Will Tell University Girls of the Opportunities in Library Work.

The Womens' Self Governing association will begin its series of vocational talks this year with Mr. M. C. Myer, university librarian, who will speak of the opportunities for girls in library work. This first talk will be held Wednesday, November 16, at 5 o'clock, Ellen Smith hall. All university girls are invited to attend.

These talks are especially beneficial to girls who have not decided what field of work they will go into after college. There will be three other talks during the year by specialists in three different lines of work. Not only will the advantage of certain vocations be put before the girls, but the disadvantages as well. The underclassmen should not miss these subjects as entirely new and interesting fields may be opened by the speakers.

Miss Helen Bennett, of the national bureau of collegiate alumni, will be here for the third time, some time during the second semester. Miss Bennett is acquainted with vocational opportunities all over the country and has been stimulant to the hesitant student more than once. Those who met her when she was here before remember her as one who is well informed and an inspiration to those who go to her for advice.

The Nebraska W. S. G. A. stand among the first in the country in offering such service to the girls. This is the second year these talks have been given, and after the success last year, the council decided to make the series a permanent part of each year's program.

## LINOTYPE MACHINE FOR TRADE SCHOOL

Will Soon be in Place—Folder Broken En Route—Parts Expedied in Near Future.

The first of the two linotypes designated for the University of Nebraska trades school arrived Monday morning and is being installed under the supervision of F. A. Miles, instructor in charge of the school. It is a number 14 linotype and one of the most up-to-the-minute machines in the printink industry.

The folding machine, a supplementary machine to the large Babcock cylinder press installed last week, has arrived also. It was broken in several places, however, and new pieces will have to be gotten from the factory before it can be installed and ready for use. With the installation of several fonts of hand type, the printing plant should soon be ready to start operation.

Students at first will be mostly those taking vocational training under the supervision of the government. They will be started by learning the hand setting processes, the making up of forms, and other simple or fundamental processes of the printing trade. When they finish the course, they will have received instruction in every phase of the printing industry necessary for a man running a small town country newspaper.

## Y. M. C. A. BUDGET DRIVE FOR FUNDS

Association Staging Campaign For Funds to Support Its Work for Coming Year.

## CAUSE WORTHY OF SUPPORT

"N" Book, Directory, University Night, Housing Bureau Are Among Many Activities.

Eight fraternities at their regular business meeting Monday night signified their wholehearted support to the university Y. M. C. A. budget drive. Each member in the fraternities also voted to contribute \$2.00 toward the support of the Y. M. C. A. for the coming year. The object of the simultaneous actions of the fraternities is to show that they as organizations, are willing to co-operate with and help support the Y. M. C. A. on the campus.

The fraternities that voted 100 per cent. contributions are:

- Alpha Theta Chi.
- Bushnell guild.
- Phi Gamma Delta.
- Silver Lynx.
- Pi Kappa Psi.
- Pi Delta Chi.
- Farm House.
- Lambda Phi Alpha.

Other fraternities have not had equal opportunity to give the support as a body but prominent members of the organizations have signified that the greater portions of their groups are willing to contribute \$2.00 and give their support.

The Y. M. C. A. is becoming more and more popular amongst the students today, because students realize its importance on the campus.

Each year the Y. M. C. A. prints a handbook of information and distributes it to the incoming freshmen, free of charge. This handbook contains a complete university calendar and is a very big help.

The university directory is also compiled and printed, and it is sold to the students at cost.

University night, perhaps more widely known on the campus than any other university event, is directly under the supervision and management of the Y. M. C. A.

At the beginning of each school year the Y. M. C. A. has on file at least 1,000 rooms, so that incoming students will have no difficulty in getting rooms. In addition to this, all trains are met so that those who are strangers in the city can be conducted to their rooms. The activities of the Y. M. C. A. are many and students are realizing more and more the magnitude of the organization.

The committee that has charge of the drive has made an estimate of two dollars per male student on the campus. Solicitors are making efforts to see that every student is given a chance to subscribe.

## NOTED ARCTIC EXPLORER TELLS OF EXPERIENCES

Mr. Vilhjalmar Stefansson, one of the world's greatest explorers at this time, will speak in Lincoln Saturday night at the city auditorium. Mr. Stefansson's journeys and successes are among the marvels of polar explorations. He demonstrated that it is possible for the white man to exist in arctic temperatures by living, eating, and dressing as the natives do. On a journey of nearly a thousand miles he explored Coronation gulf, a body of water in the arctic regions and discovered the so-called blond Eskimo of Victoria land—tribes before that time, unknown to the white man. On another expedition, although he

## Nebraska Girls Hold Annual Traditional Husker Luncheon

The largest and most spirited Cornhusker luncheon in the history of its long tradition was held when 580 girls squeezed into feast hall, Saturday noon for a spirited get-together. Every luncheon was keyed up to the highest capacity and when the good old Nebraska songs and yells were brought forth, the halls shook with noise. Bob Henderson and Isabel Fearsall led the yells and singing. The girls' orchestra furnished the music for the luncheon. Betty Scribner acted as toast-

## HUSKERS BID FOR CONFERENCE TITLE

Scarlet and Cream Grideters Bid Fair to be Valley Champs by Vanquishing Ames.

## DOPE POINTS TO VICTORY

Dawson's Crew Outweighs Opponents at Nearly Every Point—Expect a Record Crowd.

With two games remaining on the Husker 1921 calendar Coach Dawson and his men will start the final lap of the present season. Thus far the Huskers have five victories to their credit and one defeat registered against them. All of the victories have been shutout contests.

The next team for the Nebraska eleven to buck against will be the Ames Aggies at Ames this coming Saturday. The Iowans defeated the Kansas Aggies by a lone touchdown last Saturday and by comparative scores Nebraska ranks way ahead of the farmers. The Nebraska squad will leave Lincoln Thursday night and will rest in Des Moines Friday where they will probably work out on the Drake field. Coach Dawson will take his men to Ames Saturday morning from the Iowa capital.

When the Huskers meet the Aggies Saturday the Scarlet and Cream warriors will have a 3 to 0 defeat to avenge from two years ago. The Ames eleven unexpectedly handed the Cornhuskers the short end of the score two years ago here and expect to retrieve this score Saturday. The Ames eleven is piloted by "Polly" Wallace, this year, the Ames leader is considered as one of the greatest centers in the country by many sport writers. Wallace weighs a little over 200 pounds and holds up the center of the line in great style.

The Nebraska eleven will outweigh the Iowa men considerable in practically every position but Coach Dawson is leaving nothing undone in preparing for the Cyclones. Welier is still out of the game with a bad leg but is expected to be in shape for the Ames contest Saturday. The entire Husker team came through Saturday's mill with the Kansas aggregation in fine shape and Coaches Frank and Day gave the men signal work yesterday afternoon. Coach Dawson has had several of the squad practicing booting drop kicks from the field and Nebraska fans may have a chance to witness a second Dobson before the season is over.

Ames is making plans for the largest crowd in the history of the school, this being the homecoming for the Aggies. Nebraska is expected to be a big drawing card for the contest against the Ames men on account of the record the Scarlet and Cream has set up already this season. The chances for the Missouri Valley championship coming to Nebraska this year hinges on the outcome of Saturday's game. The Huskers are confident of a victory but Coach Dawson and his assistants are endeavoring to kill all the over-confidence that is trying to come into the ranks of the Huskers.

## AGS AND PHARMACISTS CLASH ON GRID TODAY

College football fans will have another opportunity to see an interesting clash Wednesday afternoon when the Ag. eleven meets the Pharmacy heavies on the Ag. gridiron.

Spirit is running high in both colleges and the outcome of this contest is a topic of no little comment on the campus.

## HOCKEY ON CO-ED SLATE SOCCOR GIVES PLACE TO

The second fall sport on the W. A. A. slate is now in full swing. The new fields east of the social science building are filled all day long with ambitious hockey players. The air is filled with the clacking of clubs, and the cry, 'sticks' breaks the monotony of those attending classes in the buildings near by.

All girls interested in the sport should come out at once. A girl does not have to be a member of W. A. A. to come out for sports. Ten practices are required for eligibility on class teams. For those making teams one hundred W. A. A. points will be awarded. This is the best time to get in the practice requirements as the weather may make some impossible.

## UNI PLAYERS WILL PRESENT NEW PLAY

Booth Tarkinton's Late Comedy "Clarence" Will be Produced by Special Cast.

The University players will follow up their successful production of "Seven Keys to Baldpate" with another late New York comedy by Booth Tarkinton—"Clarence." This remarkable comedy was first produced in New York after the armistice was signed. It is the first comedy that Booth Tarkinton has written directly for the stage, all of his other plays among them "Seventeen" were written in book form first and then dramatized.

"Clarence" has all of the youthful fun of "Seventeen" with a great deal more of a plot to balance it. It had a remarkable run of three hundred nights in New York during a season when plays with extensive plots were very numerous. But "Clarence" more than held its own and later proved to be the biggest success of them all.

"Clarence" is being produced this week Thursday, Friday and Saturday with a carefully selected cast of university players. The cast includes Katherine Matchett, Gladys Appleman, Wilfred Marybaw, Marguerite Perry, Mary Bost, Walter Herbert, Herbert Yenne, Hart Jenks, Ed Nuss, George Stone. Specially designed scenery will be seen for the first time in "Clarence." The cast is under the direction of H. Alice Howell, head of the dramatic department.

Lincoln theater-goers will remember "Clarence" was played here at the Orpheum theater by the La Salle players in 1920. The University players have also taken "Clarence" on the road playing it at the state asylum Monday night. From the reports, it appears to have been a great success at the asylum; in fact one enthusiastic person went so far as to say that every one out there was 'crazy' about the play.

## DIRECTORIES WILL BE OUT THIS WEEK

Many New Departments in 1921 Book Which Will Prove of Value and Warrants the Delay.

The 1921-22 student directories will be out this week. They will probably go one sale Thursday or Friday. Although there has been some delay in placing the books on the campus, the editors believe that the make-up and content of the book will more than atone for the delay.

A beautiful two-tone sepia cover, with an original cartoon, is one of the features of this year's roster. The cartoon was drawn by Harold Gish, '25, and is an excellent piece of work. It is much different from the ordinary cover and sets the book off to a decided advantage.

Another new department has been included in the directory. All towns are listed alphabetically together with the names of all students coming from the respective towns. This will prove of great help to both students and faculty members.

Other features the book will contain are: complete campus telephone directory, officers of campus organizations, directory of all fraternities and sororities, both social and professional staffs of all university publications, complete membership lists of all fraternities, sororities and literary societies.

## SPECIAL TRAIN TO AMES ON SATURDAY

Thousand Loyal Cornhuskers Will Journey to Aggie School to Urge Revenge.

## START TICKET SALE TODAY

Silver Serpents and Vikings Are in Charge—Special Round Trip Rate of \$11.50.

Sales start today for the tickets to the Ames-Nebraska football game at Ames Saturday. A special train has been chartered for loyal Nebraska students and special rates have been secured from the Northwestern railroad for the trip. The sales campaign will be managed by the junior honorary organizations, the Silver Serpents and the Vikings.

The annual Ames-Nebraska gridiron struggle will be the only out-of-town game this year that is to be played near enough to Lincoln to make a trip like this possible. Notre Dame and Pittsburgh were too far from the University of Nebraska and a trip to these games would have been a greater expense than most students are able to meet with the present financial situation.

The train will leave the Northwestern depot at Ninth and S streets at 6:30 a. m. Saturday, arriving at Ames in time for a breathing spell and lunch before the game. The students will then go in mass to the Ames field where a special section has been reserved for the Cornhuskers. After the same plenty of entertainment will be provided.

The presence of the University of Nebraska band and a number of orchestras on the train spoils any chance for a dull trip. Considerable effort is being expended in providing some other entertainment while on the train.

A number of trips have been made in the past by large delegations of students from the University of Nebraska. A number of years ago a thousand students made the trip to Minnesota university. The trip to Kansas last year made a very strong impression upon the students who visited that university.

It is not often that a student has the advantage of visiting another great university besides his own and of learning its traditions and the activities of another large student body.

The Corncobs are planning to represent Nebraska at the Ames game in the same hilarious manner that caused so much comment and admiration when the Oklahoma Sooners sent their crew of "Jazz Hounds" to Nebraska two weeks ago.

Following are the names of the students who will take part in the campaign to send "a thousand to Ames":

- Silver Serpents—Bell Fairman, Muriel Allen, Verna Bowden, Mary Bost, Charlotte Coulidge, Marjorie Cooper, Elizabeth Gist, Mildred Hullinger, Ruth Kadel, Mary McCoy, Irma McGowan, Marie Mcmahone, Ruth McDill, Florence Miller, Florence Price, Joyce Rundstrom, Florence Sherman, Elizabeth Wilcox, Dorothy Williams.
- Vikings—Glenn Baldwin, Frank Bieser, Harlan Boyer, E. M. Critchfield, Byron Erries, Arnold Fauts, Carroll Frost, Orvin Gaston, Tudor Gardner, C. E. Rersch, Stanley Matzke, Mike Miles, C. D. Phillips, Glenn Preston, Charles Phillips, Eugene Philbrick, Richard Reese, Joe Ryons, Fred Thompson, F. K. Warren, Adolph Wenke, Wilbur Wolfe.

Tickets can also be obtained at the student activities office. All those selling tickets are requested to make a report of progress by 5 p. m. Tuesday, at the student activities office so that more definite plans for the ordering of coaches can be made.

## BIZADS ARE CONFIDENT OF VICTORY OVER LAWS

The Bizads, with confidence strengthened by their victory over the Engineers, have challenged the university champions, and will attempt to wrest the title from them Wednesday afternoon. While the Laws have had no game to show them the weak spots of their team, they have been practicing consistently, and are prepared to defend their crown against the challengers.
