LOOKING AHEAD.

Not long ago a young attorney returned to his school for a short visit. He met his old professors, searched out some of the friends of former days and went home to his fraternity house intending to go right to bed his first night, but—he didn't.

This chap was making a moderate success in his chosen profession. He had worked no harder than the average while at Nebraska and was doing just about what is expected of the average Husker. The younger men of his organization were impressed with this fellow and, as best they could, drew him out about his life while in the University, of his everyday experiences, and what he would have done if he had the job to do over again.

"I'd develop foresight above most all other qualities," he said. His audience gasped. "Foresight"—very few professors drilled the need of THAT accomplishment into them. What did this fellow mean?

"If I had foresight while going to school at Nebraska, I'd put in part of three years of my time in some lawyer's office down town," he continued. "If I could have received three years of practical work with my three years of theory, I would be much farther than I am now, and not so bruised."

The man was right. How many Nebraskans are without foresight? There is a decided lack of it in the little things as well as in the big things we attempt. This lack is one of the most serious things we have to contend with.

At the end of a semester most of us look with envy at the student that has a well-kept, and absolutely complete note-book from which he can review the important points in his course. We appreciate how clever those students were who worked off their requirements in their first two or three years, leaving the last two free for the specialization that this preliminary drill work-out has shown is needed.

There is always admiration for the political leader who has played with this force or that force for months as his plan.

That at the critical time he can marshal the necessary power to "put across" his plan.
The football player that trains during the summer months so that he is "hard as nails" when the season begins shows up well right from the start, can devote his time to the finer points of the game without worrying about "condition" and is far surer of a birth than the men who are "soft" when the season starts and must work strenuously to reduce the surplus weight and bring back the wind that too many cigarettes have taken from them.

In Nebraska today there are many men and women holding positions of trust and responsibility that have reached their places, not so much from ability, but from foresight. Hard work, of course, has helped, but the ability to analyze conditions far in the future has been their best help.

But why go on recounting the many instances where foresight has played such an important part? The business geniuses of today apparently are wizards when it comes to using this quality. Isn't that enough of a reason for us to begin in a small way, with our own affairs to develop this quality?

Correction.

Owing to a typographical error in yesterday's paper in the article mentioning sororities that contributed one hundred per cent toward the Y. W. C. A. bazaar, the name of the Achoth sorority was omitted.

A Thought For Today.

My Own Shall Come To Me.
By John Burroughs.

Serene I fold my hands and wait,
Nor care for time nor tide nor sea;
I fret not more 'gainst time or fate
For lo! my own shall come to me.

I stay my haste, I make delays,
For what avails this eager pace?
I stand amidst the eternal ways
And what is mine shall know my face.

Asleep, awake, by night or day,
The frineds I seek are seeking me;
No wind can drive my bark astray
Nor change the tide of destiny.

What matters if I stand alone,
I wait with joy the coming years;
My heart shall reap what it has sown
And gather up its fruit of tears.

The stars come nightly to the sky;
The tidal wave comes to the sea
Nor time, nor space, nor deep, nor high
Can keep my own away from me.

The waters know their own and draw
The brook that springs in yonder heights;
So flows the good with equal law
Unto the soul of pure delights.

Cornhusker Queries.

Q—How old is the iron fence around the campus?

A—During the administration of Chancellor Confield 1891-95, the legislature made a special appropriation for this fence and it was built shortly after.

EXHAUST

You go to
Your classes,
So sleepy
You're dense.
An eight
O'clock class
Is a pest.
You take off
Your coat—
Lean back
In your seat,
And decide that
You'll have
Some rest.
You're snoozing
Away
So soon, it's
A shame.
Of long nights—
And weep.
Of times that
Have past,
In days
Of yore,
When you worried
About nothing
Of sleep.
You know
How it goes—
You're sleeping
Away;
You hear some—
One speaking
Your name.
Professor has
Spied you,
E. joying
Your rest,
And awakes you
So rudely
A shame!
Gosh!
Ain't it fierce?

Why Back, Old Dear?

I
O here's a quaff to the hangers-on,
Best known by the name of "Grad,"
Who seek M. A. or Ph. D.
With visage long and sad.

Some give forth a serious cause—
Such work may lead to fame.
Teachers come back for brisking up

Study will give, they claim.
III
But of all the prize excuses
Hurled at the enquiring yub,
The best is from a class '21
Who admits a lack of a job.

We were going to have some good
wit for the colym but someone forgot
to bring 'em in.

In Years Gone By.

Ten Years Ago Today.
Nebraska lost to Iowa in the debating contest.

The first vesper song service of the year was held at five o'clock in Memorial hall. These meetings had been instituted the previous year.

Seven Years Ago Today.
Eighteen men received football "N" sweaters. The honored ones were Captain Halligan, Howard, Potter, Rutherford, Cameron, Abbott, Balis Chamberlain, De Lamatre, Doyle, Hawkins Corey, Shields, Gross, Caley, Porter, Seizer, and Fouts. Diel Rutherford was elected captain for the coming year.

Six Years Ago Today.
The seniors became champions of the interclass football by defeating the freshmen 7 to 3.

The Nebraska debating squad left for Lawrence, Kan., to debate the negative side of the armament question. Those who made the trip were Charles L. Schofield, '17; Guy C. Chambers, '16; and Harold Schwab, '16.

Two Years Ago Today.
The Student council decided not to abolish the mid-week down-town dances, at least until proper facilities were provided whereby a greater majority of the student body could be accommodated for social gatherings.

Personal Notes.

Mr. Dean Winchester, U. of N., '06, who has been doing oil work in Brazil for a Denver company, stopped in Lincoln for a short visit last week.

Mr. and Mrs. Dalbert Williams and little daughter visited Lincoln last week and spent considerable time on the campus. Mr. Williams is now a consulting geologist in Kansas City. He was formerly a professor of Geology in the University of Kansas
