CHARLES MITCHELL
Acting Night Editor.

FAULTS.

What do you suppose this world would be like if people did not have any faults? If we were all perfect there would be no variety, and variety is said to be the very spice of life. It is presumptuous to imagine a faultless world, and since faults are bound to exist it is well to consider them. Everybody has his faults—there is so much bad in the best of us—though perhaps no two persons have the same ones. They are as varied as they are numerous, hence it behooves everyone to judge as he would be judged and be as generous as possible in measuring his fellowman. It is not charity to overlook or forgive a fault in a friend, because he may be tolerating a very similar trait in you.

Rare indeed is the person who does not know what his faults are. He may strive to ignore them but deep in his heart he always knows where his weaknesses are. We know ourselves well enough to realize the point at which we begin to give way and let faults overcome our better judgment.

Faults are not of necessity bad in the sense that we consider most things bad. They are merely imperfections, and a slight imperfection is not ruinous provided the basic fabric is good.

EXHAUST

Three more days to do your Exam cramming.

Yes it was an Alpha Chi pennant in Charley Ray's picture at the Lyric. At first we thought we were seeing things, but on looking a second time we saw that our optics were still functioning right. It was right in the middle of the wall of Charley's studio where you couldn't help noticing it. No we wouldn't expect the Alpha Chi's to even notice it, so we thought it well to mention it, in case they haven't told you already. We have been given to understand that the Alpha Chis have been keeping pretty well posted on happenings in Shadowland ever since "Betty" Melton starred in the local melodrama.

Why register? It's being done. And still it's a good thing some don't ever have to "register" intelligence—it would sorta' disturb their facial expressions.

Students registering for philosophy 100 will do well to equip themselves with an overcoat to wear during lecture hour. The absence of heat in the classroom is supplanted only with warm discussions, and these never have raised the temperature above 60 degrees, fahrenheit.

Summer Camp's All-American. Last word in all-American teams for 1921:

- Journeys, end.
- Blockand, tackle.
- Prison, guard.
- Cork, center.
- Nose, guard.
- Fishing, tackle.
- Happy, end.
- Counterfeit, quarter.
- Better, half.
- Halfand, half.
- All, full.
- Pullman, coach.
- Honorable mention: Losta, half; Railroad center; Shinn, guard; Doubt full; Cesta, quarter; Nearly, full; Rear, end, and Safe, guard.

—The Ohio State Lantern.

The boy stands on the burning deck,
 His head just whirled and whirled,
 His eyes and mouth are filled with hair,
 His arms are filled with girls.
 —The Daily Cardinal.

University Notices.

Iron Sphinx will meet Sunday afternoon, 4:30 p. m. at the Acacia house.

Prize For Skit.

A prize of \$5.00 will be given to the writer of the best skit written for the use of the Business Administration college on University night. Skits must be handed to J. H. Tyson not later than Thursday noon, January 12.

A. I. E. E.

Allen Woodward, report and test engineer for the Henry I. Doherty & company will give a talk to the A. I. E. E. next Wednesday evening at 7:30 in the E. E. building.

Mr. Woodward is a result and test engineer for the Doherty people who operate 90 public utilities in the United States. He goes from plant to plant testing and inspecting the plants of the company both in regard to efficiency and cost of operation and makes recommendations for improvements which will better either. He is located at Lincoln at the present time testing and inspecting the Lincoln Gas and Electric Co., a holding of the Doherty company.

Mr. Woodward will speak on "Power Plants," a subject of great interest to electrical and mechanical engineers. All engineers are urged to hear this talk which will be worth their while.

No home economics club meeting tonight. Next meeting will be regular monthly meeting.

Notice.

All Bizad students get your shingles this week at the commercial club rooms.

GIVE CHILI FEED FOR NEAR PHYS. ED. GIRLS

The girls in the physical education department were at home to the Near Phys. Eds. at a chili feed Friday noon in the Gym. All rivalry was laid aside for the hour and good feeling reigned over the feast board. The forty girls present joined lung power and made the time fly with yells and speeches.

The girls in the physical education department on the committee were: Nannie Roberts, Jessie Hlett, Lois Pederson and Helen Kennedy.

"How would you like to have a pet monkey?"
 "Oh, this is so sudden."

In Years Gone By.

Ten Years Ago Today

Mr. La Flesche, or "The Arrow," a real, live, Indian, gave an address to convocation. He was a native, fullblooded Indian, and son of the last chief of the Omahans.

Eight Years Ago Today.

The seventeenth birthday anniversary of Chancellor Benjamin E. Andrews of Nebraska university, was formally celebrated at his alma mater—Brown university.

Professor H. W. Caldwell gave an address before the Omaha teachers on the subject of "The Problem of World Peace."

Seven Years Ago Today.

Dr. Louise Pound went to Fairbury to speak on "Colonial Literature" before the Quivira chapter of D. A. R.

Captain Rutherford and Guy Chamberlain were picked for the all-American team by the Portland Oregonian.

Two Years Ago Today.

The Cornhusker basketball team won a series of two games from Warren Howard's Omaha Athletic club. The first game was won by a score of 51-10 and the second, 26-23.

Cornhusker Queries.

Q—Who was football coach in 1900?

A—"Bummy" Booth began his career as coach in 1900 and from then until he left in 1905 Nebraska had an unbroken string of championships of the Missouri Valley.

Q—When did Nebraska begin to play Western conference colleges in basketball?

A—Nebraska began to play Western conference teams in 1900 but without much success. The basketball teams until a few years after that played the losing side of the game.

Q—Where was the first university library?

A—The original library was housed in one and then two rooms in the southeast corner of the second floor of U hall.

Q—How was the heating of the university cared for in the early days?

A—Until the installation of a steam heated plant in the north wing of the basement in 1885, the janitor service was performed by students. John Green became the first janitor with the coming of the new heating plant.

Q. Were the literary societies ever exclusively men's societies?

A. Yes, for a few years. Both the Palladian and the Adelpian societies however, admitted women to membership in 1873.

Q. When was the first board of regents organized?

A. The first board was organized at a meeting held in Lincoln on June 3, 1869.

Q. What was the score of the Nebraska football game with Iowa in 1915?

A. The score was Nebraska 52; Iowa 7.

Q. When was the Ag. college founded?

A. The College of Agriculture was founded by the act of the legislature of 1909, reorganizing the college within the University.

Alumni Notes.

Miss Cora Shields, '02, recently gave an address before members of the Omaha School Forum on "How to Use the Library."

Lorene McWilliams, ex-'22, is teaching at Chappel, Nebr.

Mrs. J. W. Cetchell, (Fern Davis, '14), is residing at Marsland, Nebr.

Joy Elmer Morgan is now managing editor of the "Journal of the National Education Association" published by the National Education Association of the United States, 1201 Sixteenth streets, N. W., Washington, D. C.

Bertha M. Luckey writes from Cleveland, Ohio, where she is chief examiner, psychological clinic, board of education, Cleveland, Ohio.

The alumna association is in receipt of a letter from Sarka E. Hrbkova, formerly professor at Nebraska, in which she states that she is manager of the foreign language information service, Czechoslovak section, 15, West Thirty-seventh street, New York city. Miss Hrbkova was the only Nebraska alumna present at a huge meeting of college and university graduates, held recently in the metropolis.

CHEMICAL ENGINEERS OF UNIVERSITY FORM SOCIETY

A meeting of all chemical engineers was held in the Chemistry hall last Monday night for the purpose of organizing and promoting an interest in chemical engineering. In former meetings, but little progress had been made in regards to organization. But in the last meeting a constitution was brought up for approval, and after some discussion was finally accepted and signed by all present. The constitution states that the

name of the organization is to be the Student Chemical Engineering Society of the University of Nebraska. The names of the signers of the constitution are as follows:

- Earnest Hickman, president
- Irvin Lounsbury, vice president
- Ted Chevront, secretary
- Herbert H. Ulrich
- Chester D. McHargue
- G. E. Heacock
- Andrew Buell
- Harry G. Mendelson
- Curtis E. Plass
- John C. Evans
- Julius Zelen

Officers were elected and several acting committees appointed to take care of various social and business functions.

There are but twenty-four chemical engineers in the university so it should be but an easy matter to make the membership to the society 100 per cent strong. So if you're a chemical engineer be sure and come to the next meeting and help put chemical engineering on the map in the University of Nebraska.

DR. EMERSON LECTURES ON UNDERWEIGHT CHILD

Dr. William R. P. Emerson, the greatest national expert on underweight children, lectured on how to eliminate the greatest financial waste in connection with our public school system, at the St. Pauls church, January 7th. More than one-third of the Lincoln school children are undernourished, caused chiefly by carelessness and ignorance, said Dr. Emerson in his lecture here Saturday. Why has the greatest waste in connection with our public school system, that of expending large sums of money on building intellectual structures on many weak and crumbling physical foundations, been overlooked?

Can one imagine a more absurd, pathetic and tragic picture than seen when one-third of our grade, high school, and University graduates, whose bodies are more or less bankrupt, leave the platform with their scholarship diplomas? The U. S. rejected them as unfit and the business world today demands physical as well as special fitness for service.

To improve conditions in Lincoln, it is necessary for parents, commercial and social organizations to share the responsibility and to support Dr. Emerson's program which will take this greatest community health movement over the top.

Dobbs: While you were standing in the doorway saying goodnight to the sweet young thing, did it ever dawn on you—
 "Mutt": No, I never stayed that late.

Sackett: An anecdote is a short funny tale. Give me a sentence using the word anecdote.

"Brad": A rabbit has four legs and an anecdote.

Youthful Clothes for the College Miss

THE modern girl at college selects with diligent care the wardrobe that will reflect her youthful, exuberant personality.

She sees in clothes an opportunity to express her joyousness, her buoyancy, her charm.

In ministering to the fashion needs of the college girl, the creators of House of Youth apparel appeal particularly to instinctive good taste in youthful modes in clothes of natural delightfulness and grace.

The leading stores are now displaying the House of Youth's newest spring creations. To see them is to revel in youthful loveliness—and the prices are most moderate.

THE HOUSE OF YOUTH
 SCHULMAN & HAUPTMAN
 38 East 29th Street, New York
 3 Avenue De L'Opera, Paris

If you do not know the name of the store in your locality we will be pleased to direct you.
