**STUDENT INDIFFERENCE.**

When a man believes and admits that a certain thing should be done and then does not do it, he is admitting his own weakness. And yet most of us fall into this category for we believe and admit that there is too much social activity and not enough serious consideration of worthy problems, the solution of which is certain to confront us in the near future. How many of us are willing to forego a single social function in order to attend a lecture on some live subject that is commanding serious attention? If choice lies between hearing a debate of some current question and accepting an invitation to a dance it's dollars to doughnuts that we'll dance.

And yet we continue to dance while these important problems are demanding solution just as Nero fiddled while Rome burned. Those who struggle to awaken the student body from its indifferent mood are still hoping that the students will obey the impulse that often rises and attempts to assert itself. A faint ray of hope exists. A few students have promised solid support for the Sherwood Eddy meetings but there still remains the task of securing the support of the great body of students.

Very likely most of us will flock to the first meeting more out of curiosity than because of a real interest in the subject and purpose. We are prone to regard anything that savors of Y. M. C. A. as dull and uninteresting. Just because it lacks the superficiality of ordinary entertainment and requires our concentrated mental effort we dismiss it as belonging outside of our sphere.

Sherwood Eddy comes to Nebraska with a real message. He is seeking to interest the students in serious consideration of moral, political and social problems of the world. If we have any sense of responsibility toward ourselves and others we will at least lend an ear to a man who comes with a world of information.

**CLEAN POLITICS.**

Just lately we have been hearing much comment on the subject of cleaning up the "rotten politics" said to be existing in the university at present. When election time rolls around these sentiments are invariably expressed by some ambitious reformer or group of reformers. When the time comes for candidates to file for offices someone always takes notice that our politics are anything but clean.

As a matter of fact we refuse to believe that conditions are half as bad as they have been painted, with all due respect to the coeds who are going to do the cleaning. The views referred to above are usually advanced by persons who really have little or no conception of what politics, is. Politics, from its nature and origin, demands organization. It is not a game for the individual. In the university, just as in the state or nation, this holds true.

Political parties are a fundamental necessity of representative governments. It is not necessary to defend them in detail here. As a form of organization, this applies to a university campus as well.

We are glad to note an organization of non-fraternity students. It is the only way they can get representation to which they are justly entitled. In the past fraternities have probably controlled politics on the campus, and why? Because of one thing—organization.

So again we contend that politics is not so bad as is claimed. We must realize that politics on the campus is just the same as politics anywhere else. It is a game of organization and always will be.

**OTHER WORLDS.**

Are you reading the daily bits of news in the Nebraskan that have been gleaned from exchanges? They afford a bird's-eye view of happenings of interest in other colleges and universities and should be of interest to Nebraska students.

We sometimes think that Cornhusker students know too little about other institutions. One cannot know too much about his own school, but it is very easy to overlook an acquaintance with conditions or other campuses.

Don't become too self-centered, Nebraskans! Wake up to the fact that other worlds than ours exist. Read this column every day.

**Contemporary Opinion**

**FAULTS.**

What do you suppose this world would be like if people did not have any faults? If we were all perfect there would be no variety, and variety is said to be the very spice of life. It is presumptuous to imagine a faultless world, and since faults are bound to exist it is well to consider them.

Everybody has his faults—there is so much bad in the best of us though perhaps no two persons have the same ones. They are as varied as they are numerous, hence it behooves everyone to judge as he would be judged and be as generous as possible in measuring his fellowman. It is not charity to overlook or forgive a fault in a friend, because he may be tolerating a very similar trait in you. Rare indeed is the person who does not know what his faults are. He may strive to ignore them, but deep in his heart he always knows where his weaknesses are. We know ourselves well enough to realize the point at which we begin to give way and let faults overcome our better judgment.

Faults are not of necessity bad in the sense that we consider most things bad. They are merely imperfections, and a slight imperfection is not ruinous provided the basic fabric is good.—McGill Daily.

**Ag. Student Notice.**

The committee in charge of the greater Omaha agricultural college student aid fund have announced that they will undertake to continue their assistance to needy agricultural students by making short time loans, upon the proper recommendations of college authorities so that upper classmen who need financial assistance to complete the year may be able to do so.

A number of such loans were made last year and practically all of these have been taken up promptly when due. The money paid in this way will be available for students this year.

Application should be made to the dean of the college of agriculture. These loans are available for both men and women, in the agricultural college.

This is certainly great weather especially for kites, and there's lots of ice for the cheapskates. While your nose isn't running away with you, your feet are bound to slip out from underneath you. And it is mighty hard for the co-eds to avoid chaps, still some of them enjoy 'cing other chaps.

**The Library Table.**  
I.  
Of all the tables  
In the library  
One stands out  
For its contribution to  
Student life.

II.  
Where it came from  
No one cares  
Only by taking it away  
Would it be noticed much.  
Under the hall steps.

And the shadow of a plaster athena. It has stood long.  
It has gone through all kinds Of campus campaign— Money has been laid out For Y. W., W. S. G. A., and war funds;  
Ballots have been dropped here For class elections and beauty contests.

On this tabled date Has awaited date. To be dated out here. Hurried meetings before class. As well as impatient waiting after Find this a hardy place. Even stray members of The campus troop of dogs. Find seclusion beneath it From vigilant janitors. Each day brings it new uses.

III.  
Yet the old ink-stained table Fits humbly and unattached in The crook of the library steps— Causing one to wonder If it really wouldn't like A more modest life. In a nook of some pantry.
