MAY AID FAMILIES OF SLAIN SOLDIERS

VOCATIONAL TRAINING IS ASKED FOR WIDOWS, MOTHERS AND ORPHANS

American Legion Sponsors Bill in Congress to Help Soldiers' Next of Kin

Washington, (Special) — Widows, mothers, and orphans of men who died in service during the world war will receive vocational training, if congress acts favorably on legislation now being pressed by the American Legion.

At present the next of kin of a soldier who lost his life receives \$25 a month from the government. Investigation has shown that hundreds have been thrown on their own resources, having no trade, profession, or business experience with which to meet the competition of the business world, and with no aid other than the relatively small compensation payment to keep them going.

A bill sponsored by the Legion providing a training program to cover the situation passed the senate during the last session, but died in the house. Its resurrection and passage will be persistently urged by its supporters in the present congress.

In the more than three years which have elapsed since the signing of the armistice no steps have thus far been taken by the government to lend assistance to the dependents of the war dead in fitting themselves to earn a livelihood, the Legion declares.

It is estimated that there are approximately 15,000 wives and children dependents, many of whom are now in distress.

NEW ORLEANS FROM OCTOBER 16 TO 20

INDIANAPOLIS MEETING SETS A DATE FOR BIG LEGION GATHERING

Other Important Resolutions Passed By Officials—Hundred Get 408 Initiation

Indianapolis, (Special)—October 16 to 20, inclusive, has been fixed as the date of the next national convention of the Legion to be held at New Orleans. This action was taken at the conference of Legion officials at national headquarters called by Commander MacNider.

Erection of Eden park in Cincinnati, on an imposing brow of the hill overlooking a bend in the Ohio river, of a simple memorial to Commander F. W. Galbraith, Jr., of Cincinnati, who was killed in an automobile accident in Indianapolis last June in the service of the Legion, was approved by the executive committee. An appropriation of \$25,000 was voted and the committee decided to refuse any contributions toward the memorial from the city, county or state. The memorial will be a granite parapet and bench with a central shaft, bearing a bronze tablet.

A resolution was adopted to send a cablegram to the vatican expressing sorrow over the death of Pope Benedict.

Another resolution deplored the death of James Cowgill, mayor of Kansas City, who was one of the official hosts at the last national convention.

The war department was urged in a resolution to retain the American cemeteries at Bony, France, where a large number of American soldiers, who fought on the British front are buried.

President Obregon, of Mexico City, received a vote of thanks for his courtesy in sending the police band of the City of Mexico to the national convention at Kansas City.

The committee decided that hereafter the band which wins first place in competition at national conventions shall be recognized as the official band of the Legion for the year following the convention.

Following a report on conditions of discrimination against ex-service men in employment alleged to exist in the navy yard at Puget Sound, Wash., the executive committee adopted a resolution asking the navy department to investigate the employment situation in all navy yards.

The national commander was authorized to appoint two national color bearers and a committee to investigate the advisability of the organization of the fathers of Legion members.

A motion to admit to membership, secretaries, dieticians and technicians who served with American forces was voted down by the committee.

A financial situation in the national organization was disclosed by Milton J. Foreman, of Chicago, chairman of the finance committee which makes imperative an early increase in membership and the prompt payment of delinquent dues by all present members.

The full conference voted unanimously an indorsement of the policies of the editorial and business heads of the American Legion Weekly.

The big frolic of the occasion came on Saturday evening, after all business had been disposed of. One hundred candidates were initiated into the mysteries of the Societe des 40 Hommes et 8 Cheveaux. Among the candidates were Henry D. Lindsley, first national commander; Charles Kendrick, of California, national vice commander; Gen. Wilder S. Metcalf, commander of the Kansas Department, and John G. Emery, past national commander.

STATE RESTS IN ARBUCKLE TRIAL

San Francisco, Feb. 1.—The state finally rested in the second trial of Roscoe (Fatty) Arbuckle for manslaughter at 10:35 o'clock this morning, just three weeks after the trial opened.

Three witnesses, Dr. W. H. Harrison, medical expert; Carl Eisenheimel, handwriting expert, and J. V. O'Neil of the police identification bureau, closed the state's case.

Judge Louderback declared a recess until 11 o'clock when Assistant District Attorney U'Ren opened the argument for the state.

Judge Louderback said if arguments were completed late this evening he would charge the jury this evening. Gavin McNab, chief counsel for Arbuckle, said he might, in order to speed the case, eliminate all defensive arguments.

RIVALRY MAY CAUSE GRIDIRON SPORT WRECK

Philadelphia, Jan. 31.—College sports are headed toward ruin thru too heated contest toward supremacy, R. Tait McKenzie, physical director of the University of Pennsylvania, declared in an address today.

"Athletic activity is the best substitute for war, and every virile nation must have one or the other," he said, "but the encroachments of commercialization have endangered international collegiate athletics. At this time over-enthusiastic alumni of institution after institution are competing for the services of coaches to turn out winning teams at salaries that surpass the salary of the college president. This is especially true in the west.

"Their memory does not go back a few years to the time when the rankness of the abuses they are thus fostering caused the total abolition of intercollegiate contests in more than one prominent college and menaced the very existence of football as a college game.

"They do not remember that the game was saved only with difficulty by the national college athletic association through a drastic reform in its conduct and rules. At present more than one college president, himself a lover of clean sport, is looking toward this goal."

NEW BUILDING FOR MILITARY RECORDS

LEGION ASKS THAT GOVERNMENT DOCUMENTS BE KEPT SAFELY

Are Now Stored in Various Places in Capitol—Other Organizations Interested

Washington, (Special) — Rough plans have already been prepared by the Fine Arts Commission for a national archives building, in which valuable government documents and the military records of all men who served in the war will have a safe resting place. A bill providing for an appropriation is before congress.

The thousands of Civil War cases still being brought up demonstrate the necessity of preserving the military records of soldiers from the menace of fire and decay. The archives building is sought by the American Legion, the national Historical Association, and other organizations to whom war documents are vital.

At present, official records are stored about the national capital in various structures, many of which have been declared unsafe. Anxiety for the safety of their own records has served to arouse veterans of the Legion to take steps toward the erection of a permanent archives building.

An item of \$500,000 to acquire a site for the proposed structure is included in an appropriation recently passed by the senate. Preliminary steps toward the erection of the building will be taken if the house assents to the appropriation.

\$50 FOR TROPHIES

Omaha Vet Valued Souvenirs of War at \$10,000 But Judge Did Not Agree

Omaha, Neb., (Special)—How much war trophies are actually worth depends on whose neck was risked to get them. John G. James' room in an Omaha, Neb., boarding house was rifled of all his A. E. F. souvenirs from a model-laden belt captured from a German major, iron crosses picked up from battle-fields, the gas mask he had used in many battles, Red Cross bags containing shrapnel extracted from his wounds, a silver cigarette case taken from a German prisoner, to his American Legion button. He told the court they were worth \$10,000. But the law only compelled the landlord to pay \$50, because the trophies were in a suitcase at the time they were stolen.
