

HUSKER GRAPPLERS PREPARE FOR IOWA

Nebraska Mat Team to Meet the Hawkeyes in Dual Meet Here Saturday Night.

TROUTMAN AND HUNTER MEET IN FEATURE MATCH

Two Gladiators Met in Semi-finals of Western Intercollegiate Meet Last Year.

The Cornhusker grapplers held another strenuous workout at the armory yesterday in preparation for the Hawkeye invasion Saturday. The meet with the Iowans promises to be the hardest meet remaining on the Scarlet and Cream schedule, and Dr. Clapp and Coach Harry Troendley are drilling the Husker squad of mat men continually in an effort to round the Husker team into winning shape. Several weaknesses in the Nebraska team were discovered in last Saturday's meet with the Gophers, and the coaches have been busy this week strengthening the weak spots in the Husker team. The Cornhusker grappling crew is still handicapped by the ineligibility of the regulars in the 115 pound class. Dr. Clapp is expected to have Pickwell, a 125 pounder, train down to the featherweight class, or use an inexperienced rasser in this division.

The feature match of the meet with the Hawkeyes Saturday will probably be the bout in the light heavy-weight division between Troutman of Nebraska and Hunter of Iowa. These two grapplers met in the semi-finals of the western intercollegiate meet last year, and after a fierce battle, Hunter secured a decision over Troutman. The speedy Husker has improved since last year and is expected to turn the tables on the Iowan in the meet Saturday.

The Hawkeye school has an unusually strong wrestling team this year. Five of the men on the Iowa team are veterans, while the two men wrestled on the freshman team last year. The Iowans triumphed over the Purdue mat men last Saturday, 36 to 14, in a dual meet. The Hawkeye captain, Sweeney, is a clever grappler of the highest calibre and he never fails to put up a strong fight. Iowa has a strong, well-balanced team, which has visions of going through the season undefeated. The meet with the Iowans will be held Saturday night at the armory. Student tickets will admit to the meet. All university students are urged to attend.

UNIVERSITY BAND WILL PLAY AT CONVOCATION

Band Will Give Concert in Temple Theater This Morning at 11 O'clock.

The university band will give its first concert program of the season at the Thursday morning convocation at the Temple theater. The following program will be presented:

- Characteristic March—The Joker—Lake.
 - Fest Overture in C—Lachner.
 - Cornet Solo—Sounds on the Hudson—Burford B. Gage.
 - Atlanta Suite in four parts—Safra-nak.
 - (a) Nocturne and Morning Hymn of Praise.
 - (b) A Court Function.
 - (c) I Love Thee (The Prince and Anna).
 - (d) The Destruction of Atlantis.
- Selections of Scotch folk songs and dances—Lampe.
- The band, under the leadership of Wm. T. Quick, is composed of some fifty-five pieces and is one of the best in the country. Several former members are playing in well known orchestras and bands in Lincoln and elsewhere, while about one of the members played with the Legion band at Kansas City last fall when that band won second prize. The soloist, Burford B. Gage, is an accomplished musician who has studied music for eleven years under some of the best teachers in the state and has been with the university band for three years. During the last year he has occupied the position of leading solo cornet.

The general public, as well as students, is invited to this program and the Temple should be packed with (Continued On Page Four.)

SEVERAL MEN TAKEN INTO ALPHA KAPPA PSI

The following men were initiated into Alpha Kappa Psi the national honorary commercial fraternity: Edgar M. Hiebenthay, '23, Edward McMonies, '23, and Arnot Folsom, '23. The initiatory banquet was held in Lincolnshire rooms. Following the banquet Dean Le Rossignol and Mr. French of Rudge & Guenzels store gave short talks. Dean Le Rossignol is an old member of Alpha Kappa Psi and is doing much to make the Nebraska chapter one of the strongest chapters in the country.

GREEK TOURNAMENT UP TO THIRD ROUND

Exciting Games Mark Close of Second Round With Winners Meeting Today.

Three games were played Wednesday in the inter-fraternity basketball tournament. The D. U.'s eliminated the Phi Deltas by taking the best end of a 30 to 5 count; Delta Tau Delta won from Sigma Nu, 24 to 7 and Alpha Sigma Phi beat Alpha Tau Omega 16 to 9.

There has been some change in the schedule and several of the games have been changed. The Delta Sigs will meet the Delta this afternoon and the Betas and Phi game will also mix today. After the winners of these two games have been decided the entire second round will have been played. The first two games of the third round will probably be played this evening, deciding one team that is to play in the semi-finals.

The finals will be played Monday afternoon, this giving the teams a chance to rest up over the week end.

Most of the games have been fairly close and every fraternity has fought hard to keep in the race. Dopesters are picking the Deltas and Sig Alphas to battle in the finals but today's contests may upset these foresighted visions.

PROF. MASON TALKS TO FROSH ENGINEERS

First Year Engineers Hear Address on Structural and Bridge Engineering.

Professor Mason of the civil engineering department addressed the freshmen engineers last Monday evening at the Orientation lecture. He spoke on the two subjects that he teaches: structural and bridge engineering.

"People frequently confuse structural engineering with architectural engineering," stated Professor Mason. Architectural engineers have full charge of the design of a building as to height, size of rooms, spacing of the grounds and appearance. The structural engineer has charge of designing the building as to strength for safety and material to be used. Architects and structural engineers always work together, generally in the same office or room, as they have to confer frequently.

Structural engineering is the science of designing and erecting structures for housing and storing purposes. In designing a building the engineer works from the roof down, whereas in building, he naturally has to work from the ground up.

Highway and railway bridges are the most common types built now; they can either be made of timber, steel or masonry. Timber bridges are generally used for short spans where cheapness is the chief object. They are often put up temporarily until more traffic develops to warrant a better structure when steel or concrete is used. In Europe there are many stone slab bridges.

Steel bridges can be divided into four types: suspension, truss, plate and cantilever. These have become possible by the great development in the steel industry.

The first two years of an engineering student's work at school are devoted to the fundamentals while the last two are spent in doing practical problems, machine drawing, etc. A graduate engineer may secure jobs in the following order, as a structural draftsman, junior structural engineer, assistant engineer, associate engineer and on up to the senior engineer who is a specialist in the work from the ground up.

Fraternities Lay Down On Their Duty By Not Teaching Uni Songs

Fraternities and sororities at the University of Nebraska are laying down on their duty to the school by substituting teaching of their own songs for those of the University. There are few if any of the Cornhusker students who know any Nebraska songs other than the "Chant", and possibly the "Cornhusker". Yet there is a large song book filled with Nebraska songs.

Mass meetings at the university are practically obsolete. This is partly the result of the lack of a suitable meeting place for students. But even when a large group of students is brought together, seldom are any songs other than the "Chant" and the "Cornhusker" sung. The Cornhusker song book is practically never brought into use.

The burden of teaching songs to University of Nebraska students rests with the organized societies. Fraternities, sororities and literary societies should make it a requirement that their members know the most of the Nebraska songs. University spirit to a great extent rests in the fraternities and singing is the greatest known builder of spirit.

Students from other universities, large and small, can sing a string of six or eight songs without even thinking of the words. Ask a student from Nebraska to sing a half dozen Cornhusker songs. He will be able to sing the "Chant" and a few of them will

be able to sing the "Cornhusker". Those two out of a volume chuck full of good, live, peppy Cornhusker songs.

No one can deny that Cornhusker spirit has not been at its best the last few years. The greatest display of spirit seen at Nebraska for several seasons was that shown at the return of the 1921 football team from Pittsburgh game. Students throughout the parade felt the impulse to sing, yet there was nothing for them to sing. They gave the "Chant" and some of the Husker yells and their stock was drained dry. They wanted to sing more songs but they did not know them. The present crop of students has not been taught the Cornhusker songs and they were not to blame. But they are to blame if the coming crop of students do not learn the songs. It is up to the students now to learn the songs and then pass them on to those following them.

Singing of popular songs is a common diversion among fraternity and sorority members. It would not take long for them to learn the many Cornhusker songs if they would practice a few minutes each noon or evening. Fraternity houses are one of the few places where students at Nebraska can easily be taught the Nebraska songs and it is they who will be blamed if a more complete knowledge of the Cornhusker song book is not gotten by the students. They have laid down on the job in the past, let them make up for lost time now.

NEBRASKA SWIMMING TEAM ON SHORT END

Husker Mermen Drop Close Dual Meet to Kansas Aggies by a 30-28 Score.

Manhattan, Kas., Feb. 22.—The Kansas Aggies won the first annual swimming meet from the Nebraska mermen here Wednesday by a score of 30 to 28. The summary:

160-yard relay—Won by Nebraska (Carson, Graebing, Lindley, Phillips. Time 1:37 4-5 seconds).

40-yard dash—(free style).—Colburn, Aggies, first; Graebing, Nebraska, second; Carson, Nebraska third. Time 23.3 seconds.

40-yard dash—Breast stroke; Graebing, Nebraska, first; Colubrn, Aggies, second. Time 35.1.

220-yard dash—(free style)—Mackey Aggies, first; Lindley, Nebraska, second; Magill, Aggies, third. Time 3 minutes.

Fancy diving—Won by Phillips, Nebraska; Mackey, Aggies, second; Colburn, Aggies, third.

100-yard dash—Colburn, Aggies, 1st; Mackey, Aggies, second, Phillips, Nebraska, third. Time 1 min. 10 3-5 seconds.

40-yard back stroke—Phillips, Nebraska, first; Mackey, Aggies, second; Foltz, Aggies, third. Time 30 3-5 seconds.

How Much Effect Does The Average Movie Have On The University Co-eds

Do moving pictures have any influence on University co-eds? This is a question that has been asked time and time again but has never been successfully answered. There is a movie in town at present that really shows that University girls are susceptible to the lure of the screen.

Every one knows that Mae Murray is one of the most extreme stars on the silent stage. Her costumes are most ultra-modern. In the play Peacock Alley Miss Murray is in her element because she plays the character of Cleo, a French dancer, and wears all the latest Paris gowns, which are without a doubt, very "charmante", and attractive.

The management of the theater where Peacock Alley is being shown says that this picture has attracted more University women than any other picture this season. Naturally, one girl tells the others where she can get ideas for her new spring gown, and thus the patronage of the theater is increased. All you who saw this

CADET OFFICERS TO RECEIVE PROMOTION

Ten Men of R. O. T. C. Unit Are Advanced to First and Second Lieutenants

Due to vacancies left after the end of the first semester several promotions and appointments have been made among the cadet officers of the R. O. T. C. Upon the recommendation of the professor of military science and tactics and the approval of the chancellor of the university, the following have been made:

- To be cadet first lieutenants: Cadet 2nd Lieut. E. H. Hickman. Cadet 2nd Lieut. Louis K. Hughes. Cadet 2nd Lieut. Robert Deherly. Cadet 2nd Lieut. M. A. Buchanan. Cadet Edward L. McMonies.
- To be cadet second lieutenants: Cadet E. C. Richardson. Cadet M. M. Payne. Cadet Millard R. Getty. Cadet Francis B. Millson. Cadet James F. Miller.

The following assignments have been made:

- Cadet 1st Lieut. E. H. Hickman to 1st Battalion as adjutant and attached to Co. B for company drill.
- Cadet 1st Lieut. L. K. Hughes to 3rd Battalion as adjutant and attached to Co. I for company drill.
- Cadet 1st Lieut. Robert Deherly to 2nd Battalion as adjutant and attached to Co. E for company drill.
- Cadet 1st Lieut. M. A. Buchanan to Co. F.

(Continued On Page Four.)

CONVERSATION DEPT. WORKING ON BIG MAP

The conversation and survey division of the university is now preparing a detailed map to show the position of the Missouri river along the eastern border of Nebraska. The river has shifted its position more than one mile during the last year. This change has affected the area of the state. It has also meant the destruction of some very valuable agricultural land. This map which is being prepared shows accurately the position of the river fifty years ago and the changes occurring since that time.

STEELE S. HOLGOMBE WRITES FROM EGYPT

Bill Day Receives Interesting Letter From Nebraska Man in African Region.

Secretary Bill Day received the following letter from Steele Holcombe, the representative of the Y. M. C. A. in Egypt. This bit of news is particularly interesting to us at the present time because of the recent political disturbances in Egypt.

January 18, 1922.
The Secretary,
Y. M. C. A.
University of Nebraska,
Lincoln, Nebraska.

Dear Sir,
I presume you have seen in the papers that Egypt is once more the scene of rioting and upheaval. This started two days before Christmas as the immediate result of the arrest of Saad Pasha Zaghoul, the Nationalist leader and idol. The country is now under martial law, and the authorities seem to be determined to restore order. Underneath all the disturbances is the failure of negotiations between the British and Egyptian Governments to come to agreement as to the relationships which shall exist between the two countries. (Continued On Page Four.)

INTERNATIONAL CLUB WILL HOLD MEETING

Members of International Relations Club Organize for Second Semester Work.

A meeting of the international relations club, an organization of history students in the university, is scheduled for Thursday night in the Social Sciences building. The meeting will be held in room 205.

The purpose of the meeting is to get the club together for the first time this semester and to arrange for future meetings of the organization. A discussion will also be held on the recent Disarmament conference in Washington.

The meeting will be for members of the club only. This will be the beginning of a series of meetings of the club which will be held once a month until the end of the term. The monthly meetings will have topics for discussion which are of historical aspect and of recent origin.

Discussion of the recent historical events keeps up the interest of the student members of the club and keeps the present world aspect continually before them. The club was originated in the history department by Professor Roy E. Cochran several years ago and has thrived ever since. Professor Cochran is sponsor of the organization at present.

During the spring months the organization hopes to bring speakers to the university who are versed in the present political, economic and commercial affairs of the world and who will be able to assist the history students in understanding present conditions.

SOPHOMORES TO MEET THIS MORNING AT 10

The sophomore class will be called together for the first time this semester this morning at 10 o'clock in the Social Science auditorium when the minor class officers are to be selected. Harold Holtz, chairman of the Alumni week will talk to the second year students on the plans for the coming alumni week this spring. Everyone is urged to attend this meeting by President Frye as it is important that all the students should know about the coming alumni week.

HUSKERS DEFEAT SOONER QUINTET

Cornhusker Basketball Team Run Close Contest From Oklahoma-men by 39-36 Count.

MISSOURI TO BE NEXT OPPONENT FOR HUSKERS

Scarlet and Cream Quintet Encounter Tigers and Washington Pikers This Week.

Outplaying Oklahoma in every department of the game Nebraska's basketball tossers defeated the Sooner flippers 39 to 34 in a fast contest on the coliseum floor last night. The accurate goal shooting of the Scarlet and five, combined with their fast passing game, was responsible for the victory over the Oklahoma quintet. Captain Austin Smith, flipping seven baskets, starred for the Huskers.

Soon after the opening whistle sounded, Capt. Smith registered a neat goal from the side, and the Huskers were never headed. Smith soon landed another goal, which was followed by a Sooner basket. Both teams then began to drop the leather through the hoop with surprising regularity. At the end of the first half, Nebraska was leading by ten points, 30 to 20.

At the beginning of the second half, Oklahoma spurred, and threatened for a time to overcome the Husker lead. The Huskers rallied quickly, and pulled away from the Sooner five. When the final whistle blew, the Huskers were holding the long end of a 30 to 34 score.

Captain "Tony" Smith and "Slim" Warren shared the point-getting honors for the Huskers, Smith making fifteen points and Warren ten. Riddesberger and Russell, the Husker guards, also played a nice game. Captain Waite at center was the big noise for the Sooners. The rangy Oklahoman flipped four field goals in addition to eight points via the free throw route. Cocks, Sooner guard, also performed in a very creditable manner. Both teams substituted freely.

Summary:

Oklahoma—34	g	ft	pf	tf	t
Gilmer, f	0	0	1	0	0
Morse, f	3	0	0	0	6
White, c	4	8	3	1	16
Stahl, g	1	0	0	0	2
Cocks, g	4	0	0	1	8
Tyler, f	1	0	2	0	2
Wilford, f	0	0	0	0	0
James, g	0	0	0	0	0
Totals	13	8	6	2	34

ADAM AND EVA GETS PLENTY OF PUBLICITY

Omaha Daily News Reporter Gets Wild Idea Concerning University Production.

The University Players' next production "Adam and Eva" which goes on March 2, 3, 4 at the Temple theater seems to be causing a great deal of excitement. Some reporter from the Omaha Daily News while sauntering carelessly and aimlessly about our campus chanced to see the sign advertising "Adam and Eva," and being extremely keen on the wonderful news scoop he had made, submitted this startling item, together with some other bits about University night to his paper in Omaha:

It seems that the night editor was on his vacation or somewhere because some industrious individual in their offices where writing up the item an overwhelming urge to make a real story out of the innocent "Adam and Eva." The result of this unguided activity was that a story graced the front page of the Omaha News that did credit to their reputation as a spreader of the latest and most startling news. The worthy young person who wrote the story must have been to the Strand that evening for his adjectives were running wild. He or she referred to the lack of costumes which he recalled the historical Adam and Eva wore. The Players according to him are to 'out-Ziegfeld Ziegfeld'—whatever that may mean. The whole choice bit of news covered a great deal too much space since it was nothing but a jumbled up mess of words and press agent adjectives. The Players are not attempting to startle the world as our ill-informed friend would have everyone believe. (Continued On Page Four.)
