

THE DAILY NEBRASKAN

VOL. XXI. NO. 135.

LINCOLN, NEBRASKA, TUESDAY, APRIL 25, 1922.

PRICE FIVE CENTS

KOSMET TICKETS FOR 1922 PLAY TAKEN RAPIDLY

Many Organizations Take Advantage of Chance to Reserve Seats Today

RESERVATIONS AT BOX OFFICE SOON

Monday Evening, May 1, Declared Open for "The Knight of the Nymphs"

All organizations that have sold 30 tickets or more to the Kosmet play should reserve their tickets with Mike Myers at the Student Activities office today between 11 and 2 o'clock. The reserved tickets may then be received at the Orpheum box office upon presentation of war tax.

With a large number of the fraternities and sororities reserving blocks of seats for the 1922 Kosmet Klub play, "The Knight of the Nymphs," to be given at the Orpheum next Monday night and evening, the demand for tickets for the production grows heavier every day. Indications point toward two houses crowded with University students when the Klub presents its eighth annual production on May Day.

A list of the organizations buying more than thirty tickets, entitling them to advance seat reservations, made Monday noon before action had been taken at fraternity meetings last night showed the following:

Alpha Tau Omega, Chi Omega, Phi Gamma, Delta Upsilon, Phi Gamma, Delta, Phi Kappa Psi, Pi Kappa Phi, Sigma Nu.

Plans for elaborate scenic effects are under way directed by Stephen King, Fred Richards and Russell Reple, who are managing properties for the play. "Ike" Smith, acting president of Kosmet, is working with the business manager with the ticket

Art Club Dance Is On Saturday Night For All Students

Oh boy! The most "loveliest" thing is going to happen. Everyone is so enthused about why it's the talk of the campus. What? You haven't heard? Well, you are a back number, that's all. The first annual spring party of the University Art Club is going to be given Saturday night, April 29, in the Art gallery in the Library building. Now you know the secret.

It would be a perfect sin to miss this "splooforous" affair. Just as it happens it is going to be in the form of a subscription dance so all folks will have a chance to participate in the "good time." The words "good time" are really too tame to express the type of an evening that will be spent by all who will be present.

In the first place the dance itself is going to be "ultra-superb" because the Louisiana Ragadors are going to furnish the music, and if you are a "jazz hound" you surely know the wonderful qualities of that "classy bunch." Then the floor of the gallery is simply divine for dancing, "oodles of room "Never" thing." In the second place a special feature of the evening will be an offering from the University Players, that to break up the monotony of the "all evening dance." The players are going to a great deal of trouble to give something par excellent and when they go to trouble—well, you know what it means. Then refreshments are going to be served. You know, that is almost unheard of for a subscription dance. If you only knew what they will be, but that would be telling and it's a secret. If you have ever heard to the Art Club before you know that their motto is "eat," that alone is a hint as to the type of refreshments that will be served.

Summer Study of Industrial And Social Problems is Open To All Interested Students

Mr. and Miss Cornhusker student: If you are interested in making the summer count; if you want to put some valuable information into your head and some convictions in your heart while you are putting dollars into your pocketbook or just merely enjoying life this summer—a meeting is called for your special benefit in Social Science 107 at 7 o'clock this evening.

Professor Williams of the Department of Sociology will point out some of the major industrial and social problems in the big towns and small communities of Nebraska. How these conditions may be best investigated will be indicated and Professor Williams will then lead a general discussion on the best method of organizing students to get results. The meeting tonight is the second of a series of three coaching con-

ferences. Last Tuesday Dr. Huntington, Methodist Student Pastor, spoke on the "Psychology of Labor." He stressed the major industrial problems of the day.

Industrial Investigation.
For students who desire to make an intense and thorough investigation of industrial problems in large centers of industry with especial emphasis on the relations between employer and employe, organized groups will be conducted this summer in Omaha and Denver under the direction of the Collegiate Industrial Research Movement.

Hundreds of Nebraska students who are interested in getting their eyes open to social conditions and becoming aware of social needs find it impossible or undesirable to enroll in the organized groups. It is for them that the training conferences are arranged.

It makes no difference where students are going to work this summer: farm, town, city, bank or section gang, they will profit by attending these conferences.

No Solitary Investigation.
To help students to this end, questionnaires will be given them. These will guide their investigations and observation.

Under this plan, the Nebraska student who wishes to keep his eyes open this summer will not be an isolated worker and investigator. He or she will be one of a large number of Husker men and women working toward a common end. A secretary at the University will keep in touch with every member during the summer by means of bulletins. When college opens next fall these students will get together and compare reports and many interesting and valuable facts will be compiled.

Cherrington Writes of Plan
Under the heading "Make the Summer count," Ben Cherrington, general secretary for the college "Y" in the western region, wrote in the April issue of the *Intercollegian*:

"Each summer thousands of college men and an increasing number of college women take up industrial jobs in forests, mines, shops, in cities and on the farms as a means of defraying

HANDICAP MAT TOURNEY TODAY

All University Wrestlers to Compete in Armory This Afternoon

A handicap wrestling meet, in which all wrestlers in the University may compete, will begin this afternoon at four o'clock. This meet which will close the season, is expected to prove the best wrestling event of the year. Seventy-five, including the entire varsity team, such campus figures as Monte Munn, Joy Berquist, Henrickson, and other, have already entered the meet.

Wrestlers who have not entered the meet may go to Dr. Clapp's office before one o'clock today and register. All who have entered the meet must report to Dr. Clapp's office between twelve and one o'clock and weigh in. As handicaps will be made up between one and four.

Winners in respective classes in the meet will be awarded medals donated by "Red" Long, manager of the College Book Store.

The handicap meet will be so conducted that each man will have an equal chance of winning laurels. The handicaps will be adjusted to the individual match and the better man will be given a specified time in which to throw his opponent. The idea is to have the man win who makes the best showing in comparison with his previous performances.

The object of the handicap meet is to unearth all good material for next year's wrestling team and to keep up the interest in the wrestling game. Dr. Clapp is making a strenuous effort to develop a team which will rival the famous Ames wrestling teams. The Cyclones rate wrestling as a major sport and have developed such strong mat teams that they have not lost a meet in five years.

INDIAN COLLECTION LOANED TO SOCIETY

A very interesting collection of Indian material has been loaned to the Historical Society by Mr. Robert Small of Homer, Nebr. The work has been done by the Crow Indians.

Among the collection are moccasins, hair ornaments, dolls, hat bands, purses, gloves, tobacco pouches and suspenders, all beautifully ornamented with bead work. A medicine bag which is over one hundred years old contains a bear claw and pieces of buffalo skin and was supposed to keep the evil spirits away. The Indians held this bag as very sacred. A very valuable otter skin, over a century old, is also in the collection. Some very old gourds made in Mexico were used in Indian dances and also in the ceremonies in the Mescal church. The crowded condition in the Historical Society will not permit this collection being on exhibit at present.

TRACK SPORT IS FEATURED DURING WEEK

Third Intra-Mural Track Meet of Season Comes on Saturday

DRAKE RELAYS TO BE RUN THIS WEEK

New Men are Added to List of Numeral Honor Roll by Coach Schulte

The coming Saturday will find the third intra-mural track contest of the season on the field. The inter-college meet of two Saturdays ago was satisfactory except for one feature and that was the inability of the Omaha Medics to take part. Conditions under which they work are so difficult that they can do little in the early season. So Coach Schulte is asking track men of each college here to give the Medics a run for their money by turning out Saturday for the Greater Intercollegiate meet. The events will be the same and the order the same as the former meets. The officials who will handle the meet will be the same.

This meet will be run at the same time that the Drake relays are being run and an effort will be made to secure wireless reports of the Relays direct to Nebraska field.

Tryouts for track Saturday were unusually satisfactory, according to Schulte.

Coach Schulte is very anxious to meet all the college track captains in his office Tuesday in order to talk over the meet. Each college is free to increase its entry list over the campus intercollege of two weeks ago and in fact is urged to do so.

The following were numerals Saturday, April 22, in the inter-fraternity meet:

R. A. Gibbs, W. D. Lear, G. A. Baldwin, E. R. Beckord, Harold Gish, D. Myers.

Thirteen new names appear on the roll as a result of the work Saturday. They are: Outhouse, McCarthy, Myers, Harold Gish, Bloodgood, H. Dewitz, Thomsen, Peterson, Puman, Ginn, Moser, Baldwin. There are now a total of seventy-one names on Nebraska's Numeral Honor Roll.

HELEN WIGHT

Helen Wight, '22, of Lincoln who plays a leading role in the 1922 production of the Kosmet Klub next Monday afternoon and evening at the Orpheum. She is a member of Chi Omega and active in University dramatic circles.

NEBRASKA MAN AT STUDENT MEETING

Asa Hepperly at Annual Midwest Conference at Lexington

Asa K. Hepperly, representing the University of Nebraska student body at the second annual mid-west student conference of colleges and universities held this year at Lexington, Ky., has sent to the Daily Nebraskan the following report of the first discussions of the meetings there:

"Thirty-eight student delegates, representing twenty-seven schools in eighteen states of the middle-west, were registered at the Second Annual Student Conference, held at the University of Kentucky, April 20, 21, 22.

All of the delegates to this conference were men who have taken an active part in student government of their particular schools, and were personally interested in the student problems of the universities. Angus G. Goetz, captain of the University of Michigan, editor-in-chief of the Northwestern University Daily, is another. Robert B. Stewart, University of Wisconsin's Student Senate president, is leading the discussion on athletics.

How the students are able to manage every activity of campus life from their humorous publications to the managing of trips by teams and musical clubs, came in for discussion two days and a half. Methods of picking the leaders of student organization received no less consideration than the control of finances through faculty hands.

Northwestern told how much they were combating the adverse publicity of the press. Wisconsin explained the management of the Student Daily. Michigan outlined the success of their Union and the campus publications of that school.

Every university from North Dakota to Texas asked questions or answered those of other students in attendance on some big campus problem.

Due to the unfortunate death of the wife of the President of the University of Kentucky, the joint session of the Student Conference, Deans and Advisers of Men of Mid-Western Institutions, Directors of Extension Work, and Deans of Arts and Sciences Colleges of the Mid-West, was eliminated from the program.

Mr. Paul A. Potter, of Iowa, was elected Conference Chairman. The first afternoon was taken up with discussion of publications, H. Anderson of Northwestern University leading. The discussion was divided into sections—taking first the daily or weekly publications, second monthly publications, and third, the year book. The business management, editorial staff, student and faculty control were discussed thoroughly.

Individual enterprise and corporate plan of management and control (Continued on Page 4)

GRID GAME IS THIS WEEK FOR NEBRASKA MEN

Spring Season to Close With Football Contest Friday Afternoon

FIRST SPRING GRID GAME AT NEBRASKA

Opposing Teams to Be Selected By Coaches; More Men Needed

A real football game to be held Friday afternoon will feature the closing of the spring training this week. The eleven will be selected by the coaches this week. The coaches, Head Coach Dawson, Bill Day and Farley Young, have sent out an urgent appeal for all gridsters to report for the workouts in order to be ready for the pigskin battle.

A real football game at Nebraska in spring is an innovation. However, at Kansas University and numerous other schools practice games form a regular part of the spring workouts. A large amount of interest is being manifested in the contest Friday, and all football fans are expected to be on hand.

The lineup for the two teams will probably be selected from the following: Capt-elect Chick Hartley, Pete Preston, Berquist, Wenke, Sherer, Klompke, Schoepel, Peterson, Henry, Addison, Herbert Dewitz, Rufus Dewitz, McAllister, Cameron, Spies, Rorby, Halberleben, Packer, Whalen and Russell.

Response for spring training this year has been somewhat disappointing. Although between fifty and sixty outfits were checked out to candidates, hardly more than twenty-five men have appeared regularly for the practice. Candidates reporting, however, have gained a thorough knowledge of the fundamentals of the game which will stand them in good stead when fall practice opens Sept. 15.

The outlook for the Cornhusker football team next year is very good. Besides a large squad of promising new men there are a goodly number of veterans. The team will not lack capable leadership, as Hartley has proven himself to be an excellent leader in the spring workouts. With Head Coach Fred Dawson in charge of the coaching and a capable squad of coaches assisting him, the team is assured of first-class tutoring.

Big Prize Will Be Awarded on Field Day For Engineers

Be it known to all Engineers, that the College Book Store, better known to you as "Red" Long, has offered a \$50 set of drawing instruments to be awarded to the best all-around engineer on field day as the grand prize.

The rules of the contest are not quite ready for publication, but from inside scope, we know that the man winning it will have to be an all-around engineer. We know that the award is going to be made to the man scoring the highest number of points in five events, which will be run off during the day. The events are: level race, baseball, boxing, wrestling and track, and to be eligible for the prize, a man must compete in all of the events and make a satisfactory showing in all of them. A scoring system is being worked out whereby the events will be scored according to their importance and competent judges will be on hand to judge the events and award the points. A future article will give the exact data and method of scoring the events.

The instruments will be on display in one of Long's windows today and it behooves every engineer to consider the matter and then go and sign the list in the A. A. E. office.

Kosmet Klub Presents

"THE KNIGHT OF THE NYMPHS"

Orpheum Theatre
Reservations starting Wed. April 26th at Box Office
