

THE DAILY NEBRASKAN

VOL. XXI. NO. 138.

LINCOLN, NEBRASKA, FRIDAY, APRIL 28, 1922.

PRICE FIVE CENTS

INITIAL GRID GAME WILL BE PLAYED TODAY

Football Battle on the Nebraska Field to Close Spring Training Season

RIVALRY BETWEEN TWO OPPOSING SQUADS KEEN

Hartley and Preston Lead Teams in First Spring Football Game at Husker School

One of the biggest events of the year will come off this afternoon when two elevens composed of the gridsters of the spring training squad meet on the gridiron in a regular football game this afternoon at 3:00 sharp. The two teams, known as Team No. One and team No. Two have gone through a round of strenuous practice this week in preparation for the contest, and both teams are confident of victory. Everyone is invited to come out and see this world's championship battle this afternoon.

Rivalry between the men of the two teams has been very keen, and the athletes have been indulging in friendly bantering back and forth throughout the week. The captains of the two teams are Chick Hartley, captain-elect of the 1922 Husker Eleven, Team No. One, and Pete Preston, varsity quarterback, Team No. Two, each declare that their respective elevens are world-beaters, and that the other team hasn't the chance of the proverbial snowball in Hades.

The spirit of rivalry has even affected the coaches, Bill Day and Farley Young, and so both of them have been coaching one of the two teams. Bill Day is coach of Team No. One and Farley Young is coach of Team No. Two. Head Coach Dawson is ringmaster, and is charge of the big contest.

Team No. One under the leadership of Chick Hartley seems to have somewhat the better backfield of the two teams. This eleven was considerably strengthened yesterday when Lewellen and Thomsen were recruited. These additions gives Team No. One five strong backfield men in Hartley, Russell, R. Dewitz, Thomsen, and Lewellen. According to the dope given out by the members of this team, this backfield is a moneyback guarantee not to make less than two touchdowns.

When the line is considered, Team No. Two has much the better of the argument. Wenke, Peterson, House, Borby, and Huska form the nucleus of the line of Team No. Two. This bunch of huskies have been working well together this week, and are planning to muss up the plays of Team No. One with discouraging regularity. Preston's eleven will also have a strong backfield with Preston, H. Dewitz, Schoepel, Hoy, and Harcreaves to choose from.

The game will be called at three o'clock this afternoon. Everybody in the University is invited to see this battle royal. No admission will be charged. Everyone out.

CONTEST TO FURTHER PLANS FOR AUDITORIUM

The need of the University for an adequate auditorium on the campus and a set of plans that will best provide for this need, are the objects of a contest open to students, ex-students, and alumni of Ohio State University. The first part of the competition will embody arguments for the construction of a new auditorium and ideas advanced as to the construction of the building itself.

The second part of the competition will be open to students in the department of architecture, for the best set of plans specifying the details of the proposed structure.—Ohio State Lantern.

ENGINEER WEEK MOTION PICTURES ARE SHOWN

In connection with Engineer's Week program, motion picture films were shown by the Conservation and survey Division of the University in Room 101, Nebraska Hall, and the Motion Picture Studio. These films were concerned with immigration in Western Nebraska, trip down the Niabarara and Wildcat Rigge of Western Nebraska, work in University activities. One reel showing the control of the Missouri river by the means of Bignell Pile by Woods Bros., was alternated in the two places.

DEAN MARSTON GIVES ADDRESS TO ENGINEERS

Annual Convocation of Engineering College Held in Temple Thursday

WEEK OF ACTIVITIES IS IN FULL SWING

Discussion of Engineering Education Given by Iowa State College Man

Dean Anson Marston of Iowa State College delivered the annual address before the Engineers' Convocation at the Temple theater at 11 o'clock this morning, giving a general discussion of engineering education. Dean Marston is a man of national reputation both as a practicing engineer and as an educator. He is an officer of several national, sectional, and state profession societies and boards, and is a past president of the American society for Promotion of Engineering Education.

This meeting marked the real start of the activities of Engineers Week at the University and is to be followed by the annual open house this evening at which the public is invited to inspect the work of the college. In addition to the regular laboratory work many special exhibits of interest have been arranged. A holiday Friday and a dance and banquet Friday and Saturday evenings wind up the activities of the week.

In his talk, Dean Marston told of the past history of engineers and engineering from the days of the pyramids and dykes of Egypt, roads of Peru, and the great wall and grand canal of China, to the present-day mathematical science.

In the United States in 1870, there were nineteen school with 880 students, the Dean said during his talk, while today there are over 50,000 students in about 150 schools.

The graduate engineer is one of the picked men of the country. The (Continued on Page Four)

SIGMA TAU GIVES PICTURE AND MEDAL

H. P. Nielson Awarded Prize For Activities and Scholarship

Sigma Tau, honorary engineering fraternity presented the medal and picture that they give annually at the special engineer's convocation yesterday. H. P. Nielson received the medal awarded to the sophomore who in the minds of the faculty, is the best all-around engineer in activities and scholarship. The picture presented this year is of J. A. L. Waddell of Kansas City upon whom this University conferred the degree, Doctor of Engineering last year.

Mr. Waddell was the engineer who built most of the bridges across the Missouri river. He is a member of national societies and one of the most prominent of America's engineers. (Continued on Page Four)

Engineer Week Celebration Dates Back to Exhibition Show In 1894

The present Engineer's Week is the outgrowth of an engineering exhibit of engineering apparatus and equipment at the quarter-centennial celebration of the University in 1894. It was but a demonstration that was given to the public on the first occasion but it was such a success as to be the nucleus from which the full-week of engineering activities has evolved.

Since the first exhibit, the public has been entertained annually by the engineering students and shown the technical material developers of the men who guide the forces of nature. Each succeeding year has seen an addition to the interest displayed for the exhibit.

The Engineering Society, organized in 1900, incorporated in its constitution that one of its purposes was to provide, from time to time, pleasing and instructive entertainment for the public. With this as a definite object, the annual affair became more a reality.

Among the other activities of this engineering society, were the smokers, dances, and special convocations, when noted engineers from different parts of the country were secured to address the men. These were to form a part in the combined program for a week of activities. The inauguration of these into a week of events under the familiar name of "Engineers' Week" was made in the spring of 1912. This first "Engineers' Week" had in its program a rally or convocation, a smoker and banquet, and the display night when all the laboratories were open to the public. Great pains were taken in preparing the laboratories for public inspection, as the entertainment thus afforded had always been appealing to the people.

The spirit of the week of events was carried on from 1912 to the war period, when it was temporarily discontinued. Again in 1918-19, a general chairman, Roy Gustafson, was elected to carry on the work of directing and supervising the week. The success of having a general chair

man to actually take charge of the responsibility of putting across the week of activities was clearly seen by the results secured. Last year, A. V. Lindgren was appointed to carry out the extensive program. Several new features were added and incorporated in the week which had events for each day of that week. Remarkable success was gained as shown by the setting of records for each display and event and the intense interest and spirit of co-operation from everyone in the college, students and faculty alike.

The task of putting across a larger and more elaborate program of activities for the week was this year put under the direction of Randolph Gingrich, who was succeeded by Lloyd P. Shildneck. Again several new features were added of special merit and note, most important being that of publicity.

The present "Engineers' Week" program now contains a convocation, with an engineer of national prominence giving an address, and a presentation of a framed portrait of some successful engineer by the honorary engineering fraternity, Sigma Tau; the open night at the engineering laboratories, which is open to the public, a full holiday in the College for an athletic field day; a dance; and concluded by a banquet.

The interest shown by every engineer in the College and the support of the faculty members, has assured a larger and better week than ever before. The results and suggestions at the close of the week will be carefully noted that the succeeding entertainments may profit and expand from them.

Engineers' Week results in an actual demonstration of the capabilities of engineering both in theory and in practice; the students in study and in play, and coping with the forces of nature and in putting these forces to work. Engineering is thus shown to be progressive and worthy of a ranking place in the list of professions.

HANDICAP WRESTLING MEET IS SUCCESSFUL

Matches in 135-Pound Division to be Played Today in Uni. Armory

The handicap wrestling meet, which has been going on in the armory for the past three days under the direction of Coach Harry Troendley, was finished last night with the exception of matches in the 135-pound division, which will be held today.

The meet has been hotly contested throughout and stands out as one of the most successful meets of the season. The winners in all classes will be awarded medals, donated by Red Long of the College Book Store.

In the 115-pound division, R. E. Blore lost to L. L. Whaley in the first match. The second bout which was between Whaley and Probst, was won by Probst by decision and he will be given the medal in this class.

The two contestants in the 125-pound class, John Kellogg and G. V. Pickwell staged a long and hard fought match. After two extra periods had been held Pickwell forfeited the match.

The first mate in the 145-pound class, between B. Nelson and George S. King, was won by Nelson, who pinned King with a headlock. In the second bout, D. D. Skinner won from E. V. Mann. The finals between Nelson and Skinner were won by Skinner after a well-contested match.

O. I. Northrup and C. E. Thomas contested for the medal in the 158-pound division. Northrup, who was given the handicap, won the title by defeating Thomas in an interesting bout.

Stanton A. Troutman, captain-elect of the Husker wrestling team, met Matteson for the championship of the light heavy weight or 175-pound class. (Continued on Page 4)

CO-ED TELEGRAPHIC TRACK MEET MAY 12

Nebraska Girls to Compete in Intersectional Contest with Other Schools

The Intersectional Telegraphic Track Meet for women will be two weeks from today, Friday, May 12. Nebraska women must make a good showing. Nebraska's reputation with the University of Wisconsin, the University of California, University of Arizona, Mississippi State College for Women, Florida State College for Women and the University of Indiana, is at stake.

Ruby Damme, W. A. A. sport leader for track, urges all Nebraska girls to come out at practice hours. Five practices are required before the girl is eligible to enter the meet. There are girls who have been breaking records during the practice time. But there are not enough out. Every loyal Nebraska girl should feel the call to uphold her university in a national meet in which our school has been selected to represent the middle west.

The events for which Nebraska has entered are: 30-yard dash, 50-yard dash, 550-yard relay (ten runners), Basketball throw (for distance), Baseball throw, Javelin, Pole Vault, Running broad jump, shot put (8-lb).

The meet is to be held Friday, May 12, on the respective fields of the entrants. Immediately following the meet, the director is to telegraph to California the record of each first-place, the time, distance, etc., and the name of the girl. This is to be followed by a letter giving the complete record of the track meet, giving the names and records of those who placed second and third (Continued on Page 4)

UNI. PROFESSORS AID IN CITY PLANNING WORK

Dr. Condra, Professor Pool and Evinger will journey to Kearney Friday to assist in planning the city. Dr. Condra will go as director of the Conservation and Survey Division of the University which has to do with this sort of thing. Professor Pool who is acting as State Forester will take up tree planting. Professor Evinger will assist in re-mapping the city. They will work with in city authorities in planning the parks, streets and etc.

KOSMET KLUB PATRONESSES ARE SELECTED

Announcement of Patronesses For "The Knight of the Nymphs" Made

MATINEE TICKETS ARE GROWING MORE POPULAR

Cast and Chorus of Play Start Final Windup of Practices For Show

Patronesses of the 1922 Kosmet Klub play, "The Knight of the Nymphs," to be presented at the Orpheum next Monday afternoon and evening were announced last night by the play committee as follows:

Mrs. Samuel Avery
Mrs. L. A. Sherman
Mrs. John P. Bratt
Mrs. John B. Wright
Mrs. William Cook Wilson
Mrs. Benjamin M. Nyce
Mrs. Carl C. Engberg
Miss Amanda Heppner
Mrs. E. J. Burkett
Miss Marguerite McPhee
Mrs. Carl C. Engberg
Mrs. Charles C. Crittenden
Mrs. J. M. Mayhew

Demand for tickets for the Kosmet play was heavier among the townspeople Thursday, according to the business manager's report last evening. The matinee is becoming more popular every day with the Lincoln people and students generally, if judged by ticket sales for the afternoon performance. The Orpheum box office is the only place selling tickets for the play this week.

The cast and chorus for the play are starting the final windup of practices preliminary to the first production on May Day. J. Manley Phelps, of the University School of Music is being assisted by members of the Kosmet Klub who have taken part in other Kosmet plays, in his direction of "The Knight of the Nymphs." The musical numbers of the show will be announced by the Sunday edition of the Nebraskan.

BASEBALL GAMES ARE POSTPONED

Two Game Series With Kansas Aggies Prevented by Heavy Rains

Because of the heavy rainfall at Manhattan, the two-game series of baseball, scheduled between the Huskers and the Kansas Aggies for today and tomorrow afternoons has been postponed. A telegram was received by the Athletic department here yesterday at 5 p. m. from Manhattan stating the Aggie diamond was flooded and that it would be some time before it would be in condition for playing.

The Huskers intended to leave at 7 a. m. today and to meet the Kansas Aggies at 4 p. m. They have been preparing for two hard battles against the Kansans. Coach Frank put the Husker squad through some hard (Continued on Page Four)

BIG COLLEGE MEET COMES ON SATURDAY

Omaha Medics Coming to Participate in Contest on Nebraska Field

OFFICIALS FOR MEET HAVE BEEN SELECTED

Bill Day to Take Charge in Absence of Coach Schulte

The "Greater Inter-College Meet" will be held Saturday afternoon on Nebraska field, the program of the events starting at 2:30. This meet will be conducted in response to the request of the Omaha Medic tractors, who were not able to come down the first inter-college meet, which the Arts and Science cinder men won. Results of the Drake Relays will be sent direct to the athletic field by wireless while the college meet is in progress, and will be announced there.

Coach Schulte who has gone to the Relays, has appointed Bill Day to take full charge of the meet. Day will be assisted by the same corps of officials that conducted the first inter-college and the inter-fraternity meets.

This meet has aroused much interest and rivalry among the track men from the various colleges, who are planning on winning the honors this time. The Ags and Bizads, who were close behind the Arts athletes, winners of the last meet, expect to even up with the academy men in Saturday's meet.

The Omaha Medics, coached by Harry Kretzler, former Husker star track man, are coming down confident of carrying home first place in the "Greater Inter-College Meet." The Medics have been practicing hard at Omaha for the past six weeks, and are in fine condition for the meet. According to Deering and Stemons, Varsity Medics, who were down Wednesday, the Omahans have a strong team, and will furnish stiff competition for the local athletes tomorrow.

Coach Schulte is desirous of having all men who have been out for track to participate in Saturday's meet. Schulte declares that these last four weeks are the most important to the trackster, and that it is essential that the men keep on working until the close of school.

Program of events:
100-yard dash, 2:30.
100-yard dash, 2:45.
440-yard dash, 2:00.
60-yard high hurdles, 3:15.
220-yard dash, 3:30.
110-yard low hurdles, 3:45.
880-yard dash, 4:00.
Two mile run, 4:15.
880-yard relay, 4:30.
Shot put, 2:30.
Discus throw, after shot.
Javelin, after discus.
High jump, 2:30.
Pole vault, after high jump.
Broad jump, after pole vault.

Officials for the meet are as follows:
Referee and starter—Guy Reed, Earl Johnson.
Clerk of course—Harry Howarth, H. P. Troendly.
Judges of finish—Byron McMahon, J. Lloyd Masters, Bill Steel, Fred Dawson.Timers—Geo. Dayton, Dr. Clapp, F. Wright, Harry Kretzler, Otto Zumwinkle.Judges of weights—O. B. Anderson, Lieut. Oliver, John Pickett.Judges of jumps—Fuhrer, Fullaway, Capt. Hagan.

University of Illinois—J. Craig Huff
University of Missouri basketball coach, who has been tendered on offer by Illini, has wired that the yarn published by several newspapers that he had accepted the Illini offer was unauthorized.
