

UNIVERSITY DEFINES ACCREDITED SCHOOLS

Qualification For High Schools
of First Rank are
Announced

The University of Nebraska maintains a list of accredited schools, the graduates of which are admitted to the university, and to nearly all the colleges and universities of the United States, without entrance examinations in subjects that are properly certified as completed in these schools. Unless a graduate of an accredited school, a candidate for admission must be prepared to take examinations in those subjects in which entrance credits are desired; provided that candidates of four-year non-accredited high schools may be excused from taking the academic examination by passing with a standing of at least 60, the intelligence test given to university freshmen.

"Accredited" schools are such as, under the inspection by the university inspector of accredited schools, are found to meet the "Standards for the Accredited Schools" to a degree proportionate to their respective classes.

The "Standards of Accredited Schools for 1922-23" are as follows:

1. Not less than thirty units require for graduation.
2. The minimum academic and professional preparation for high school teachers equivalent to four years beyond a four-year high school course. In determining this equivalence, two years of successful experience in work closely akin to teaching will be considered equivalent to one year of higher education.
3. Not to exceed six daily recitations from each teacher, a double period of laboratory or study room supervision counting as one recitation; providing that not more than thirty-five periods a week be required of any teacher.
4. Library and laboratory facilities adequate to the needs of the subjects taught.
5. The location and construction of buildings, the lighting, the heating and ventilation of rooms, the nature of the laboratories, corridors, closets, water supply, etc., such as to insure hygienic conditions for both pupils and teachers.
6. Efficiency of instruction, acquired habits of thought and study, general intellectual and moral tone of the school evidenced by the inspection.

CLASS A

Schools that are accredited to the North Central Association of Colleges are accredited Schools and such other schools that meet the above standards.

GROUP B

Schools fully accredited but not meeting fully the above standards. At least three teachers giving full time to instruction in the high school. Fifty per cent of the teachers to meet the provision of Standard 2.

GROUP C

The graduates may receive 28 points on credentials, giving them conditional admission into the college.

FRATERNITIES START WORK ON BASEBALL

Much baseball interest is exhibited among the various fraternities of the university. Many fraternity games have been played this season. There is considerable talk on the campus of an inter-fraternity baseball tournament.

The Omega Beta Psi clashed with the Delta Chi in a fast five-inning battle that resulted with a score of 4 to 5 in favor of the Delta Chi. The Silver Lynx and the Phi Alpha Delta split a hard played two-game series, the Silver Lynx winning the first contest and P. A. D.'s the latter. The Phi Kappa Psi recently defeated the Kappa Sigma 15 to 6, but were defeated by the Wesleyan baseball squad, 6 to 5. The Silver Lynx and Omega Beta Psi are slated to mix this afternoon on the campus in a five inning contest.

Most of the fraternity games are being played on the campus east of the Social Science building.
