Night Editor for this issue: EDWARD M. BUCK

JIMMY BEST'S VACATION

Jimmy Best is going to have a vacation! For thirty-four years Nebraska's Grand Old Man has been helping Nebraska turn out winning teams.

For thirty-four years Jimmy has been on the job day after day despite weather, falling health and advancing age.

Jimmy has taken a pride in his work that makes it a pleasure to be near him, to listen to his cheerful repartee, to hear the thrilling tales of days gone by and to hear him greet the old timers by their first names when they return to their Alma Mater.

Now Nebraska has a chance to return to Jimmy a little of the love and devotion and motherly care he has given to Husker athletes in the days gone by.

Boxes are to be placed at various places on the campus or contributions which will be used to give Jimmy a wonderful summer in California.

During the past year Nebraska has seen many worthy drives put over the top by loyal Husker support, but without exception this movement is the finest one Nebraska has seen this year.

DOUBLE EDUCATION

Every student at Nebraska has a definite ideal toward which he is working or else he would not be attending the university.

Nebraska's "second education" is a varied knowledge of other lines than that in which the students are studying, and gives to the specialist a diversity of knowledge and a broadened vision of other worlds than their own.

At the present time Nebraska is to have a speaker for the University who has a message for every man and woman who wishes a broad cultural education.

The talk has been carefully prepared and will be presented so that the average layman will be able to understand and enjoy it.

The average layman will be able to understand and enjoy it. A treat is in store for those who attend.

Contemporary Opinion

AIRPLANE VERSUS WARSHIP

The first battle in history between air and water fleets was fought at Canton, China, on April 2.

attacked nine warship of the Peking government lying in Pearly River. The three planes easily and quickly forced all of the warships to surrender, although they scored only one direct hit.

Just what bearing this battle will have on future balances of power is problematical. It certainly alters the viewpoint from which the Five Power Treaty accord must be viewed.

While it is true that the Chinese gunboats were not of the most modern type, nevertheless the Chinese air forces were perhaps inferior to the newest development along that line.

At any rate, the decisive victory of the air fleet furnishes food for much thought. Aeronautics may change the course of world events.
