REGISTRATION

The ones responsible for the new method of registration should be congratulated. A great deal of time and effort as well as money will be saved because of the new system inaugurated this year.

It will be a great deal easier registering now, than standing in the long lines, in the September sun, next fall. The usual two or three days necessary for the work in the fall will be saved to every student, for they need not come back to Lincoln until the Monday that the university starts its regular school work.

JIMMY BEST

Jimmy Best's summer vacation is to be a reality now that the school is backing the plan originated by the "N" Club. The student body is rallying to the support of Nebraska's Grand Old Man. The men or women of the Husker school are making possible Jimmy's California trip.

The boxes that have been placed at various places on the campus have been doing good service.

Every real Cornhusker should give to help swell this fund today.

THE SUMMER NEBRASKAN

The results of the first day's campaign for subscriptions to the Summer Nebraskan were satisfying to the management of the paper. The paper will endeavor to bring to the summer school and the winter school closer together. It will endeavor to keep winter students posted on all events that vitally affect students. It will try to create a spirit among the summer students that will ultimately be a force for good for our university. It will endeavor to act as a publicity agent for the school in making the newspapers of the state realize the value and importance of the school not only in the summer time but during the whole year as well. It will endeavor to show other universities in the country who have summer schools just what we are doing, so that our prestige among summer schools may be at the same high position that the winter school now holds. The support of the student body making this possible is commendable. The management of the summer paper takes this opportunity to thank those who have responded to the request for help.

Contemporary Opinion

ENCOURAGING THE NEWS BUREAU

The action of the student council Wednesday night in approving the work of the Michigan News Bureau, now being maintained by Sigma Delta Chi, shows that the council realizes the value of good publicity for the University and the need for the dissemination of the right kind of news from Ann Arbor.

The news bureau was organized last fall in the hope that by showing the University what such an organization could do the Regents would become convinced of the need for establishing a similar organization as a distinct part of the University. If such a department ever should be set up, the present bureau will automatically cease to function.

Meanwhile, the service is proving its value daily. More publicity and cleaner publicity are being secured under the present system than Michigan has had in the past and editors have been quick to appreciate the work of the news bureau. "We are getting better stuff from Ann Arbor than we have ever had before," was the recent comment of a Grand Rapids editor, a Michigan graduate. The plan for setting up a University news department is most con-

structive and full of great possibilities. The Regents do well to heed seriously the many arguments in its favor.

The Exhaust

When you come To school With a Peek-a-boo Sweater on Don't it make You sore To have it rain And get you Wet through And through? Then when you Get home You fall Upstairs and Ruin a perfectly good Pair of new Stockings. Then did You ever meet A dinner guest Just coming Down stairs. Don't it make you sore?

There was an old man named Best Who really needed a rest The student chipped in With a merry grin And sent the old dear west. At last he has worn a cap.

A NEW PROFESSION FOR COLLEGE MEN

An attractive profession with great possibilities for college men is that of the Chamber of Commerce Secretary. This is the opinion of the officers of the Chamber of Commerce of the United States and of the National Association of Commercial Organization Secretaries.

They report that local Chambers of Commerce and trade and industrial organizations throughout the country are crying for real executives—for all round men of ability. The demand is for men of sound training in the fundamentals of economics, economic history, banking, finance, transportation, distribution, etc., backed by executive ability and the research training. Men who have been active in college activities are most likely to be regarded with favor.

The call is coming to college men who have red blood in their veins. And by the way—there are real financial returns to be had in this work. Large cities, and even smaller ones, are paying salaries which compare favorably with the earnings of professional men and business executives in other lines.

School for Secretaries: To meet the present day need for properly trained men, the Chamber of Commerce of the United States, the National Association of Commercial Organization Secretaries (which in its membership includes all the live men in the profession) are co-operating with the Northwestern University School of Commerce in the conduct of a national school for commercial secretaries at Evanston in August and September of this year. The course will be of

two weeks duration, August 21st to September 2nd, and will be held on the Evanston campus of the Northwestern University. The instruction will be given by leading Chamber of Commerce secretaries, from various cities. The board of managers for this special summer session announce that men graduating from colleges this spring, who have not definitely decided upon their life's vocation, could do nothing better than to investigate this real opening for them.

Miss Hayden requests that we publish the following list of books for book reports. (Any of the following may be found in Lucille Wepkins desk.)

- The Whiz Bang. The Superheated Canine. The Cold Feline. Any of Horative Alger Jr's Works. Snappy Stories. Fascinating Fiction. Mag the Trappers Bride. Turpentine, the Elevator Girl or The Curse of a Lost Soul. Slick Slim the Sioux City Squealer, or Not Guilty Your Honor.

Other Worlds Than Our Own.

University of Wisconsin—The Venetian Night spectacle and the water carnival was one of the most interesting events held at Wisconsin recently. Crew races between the Varsity eight and the University of Manitoba, Winnipeg, Canada, were held in the morning with the annual interscholastic track and field meet in the afternoon. In the evening, a program of stunts was given under powerful spotlights on a barge. There were also fancy diving and other water stunts. In the Venetian night spectacle two prizes were awarded for the best sorority or fraternity float, two more for the best-decorated pier, and two for the best orchestra.

Oregon Agricultural College—Seventeen of the college annual, "The Beaver," were distributed May 11. This year's number of the college year book contains 608 pages, with eight three-color plates which divide the book in twenty sections. A feature of the publication is the "Oregon Section," devoted to scenic views of the state.

Northwestern University—Two hundred settlement kids were given the treat of their lives under the auspices of the Y. M. C. A. and Y. W. C. A. here. The money for the big picnic was furnished by pledges from the sororities and fraternities. Members of the classes in playground management were in charge of the games and entertainment. After the games ham sandwiches, Jam sandwiches, cookies, apples and ice cream cones were served.

In Years Gone By.

Eighteen Years Ago Today: The Sophomores were presented with a bill for \$109 for destroying the freshman caps, so to raise the money a raffle was held for the only freshman cap which escaped being burned. The chances sold at 25c.

Eleven Years Ago Today: Senior sneak day was held at Milford.

The loving cup which had been awarded to regiments in competitive drill and which had been lost for a month, was found.

Ten Years Ago Today: Word was received from Camp Avery, the cadet camp at Crete, that the days had been hard and much work had been done, but that they had been very enjoyable.

Six years Ago Today: A summer Daily Nebraskan, the first to be published in the history of the University, was announced by the student publication board.

Five Years Ago Today: A mass meeting was held of all university women to lay plans for
