

KRATZ SPEAKS ON VOCATIONAL WORK

Chief of Industrial Rehabilitation to Give Series of Three

John A. Kratz of Washington, D. C., chief of the industrial rehabilitation division, federal board of vocational education, will give a series of lectures to summer school students and other interested people June 28, 29 and 30 at 4:00 p. m., in room 107 Social Science building.

Industrial rehabilitation for disabled civilians is a new work. All disabled citizens come within the scope of this law. This is a subject of common interest and should especially appeal to people engaged in school work, that they may be able to co-operate in their own communities with the state and federal authorities.

It is a growing work. The Nebraska state board of vocational education has already almost two hundred cases listed and rapid progress is being made. Mr. Kratz is the best posted man in America on this phase of vocational education. He is an interesting speaker and is worthy of a wide hearing.

JUNE ISSUE OF THE ALUMNI JOURNAL OUT

Picture of Nebraska's New Capitol Adorns Cover of Magazine—
—Has Roundup Scenes

Attractive indeed, is the picture of Nebraska's new capitol, which adorns the June issue of the University Journal publication for Cornhusker alumni. In the number are pictures of the Ivy day exercises, one of Kenneth McCandless, Ivy day orator, in the act of delivering his address and one of Miss Grace Stuff, May queen, her maid of honor and the attendants. A full page group of snaps taken on the last day of the Cornhusker Roundup showing pictures of the parade, the baseball game and other events is of general interest.

In addition to these, the Journal also contains photos of Robert G. Simmons, '15, of Scottsbluff, the retiring president of the association, and E. D. Perry, '90, of Lincoln, who will on July 1, assume the leadership of the alumni association.

A partial list of the alumni who attended the first annual Cornhusker roundup contains the names of many who were present at the roundup. It is hoped that a complete list can soon be prepared. Editorial comment, a report of Cornhusker athletics, campus news, reports of the officers, the annual report of the secretary, who's who, and news of the classes makes up an extremely interesting journal.

CLASS OF '14 FAVORS CORNHUSKER ROUNDUP

At a meeting of the members of the class of 1914 of the university, the following resolution was passed:

Resolved; That the class of 1914 unqualifiedly endorse the Cornhusker Roundup Plan of alumni reunions and especially commend the service rendered by alumni secretary Harold Holtz.

UNIVERSITY TO HELP PLANNING OF CITIES

Municipalities of Nebraska To Be Given Service in Regard to Civic Problems

Due to a growing demand on the part of the municipalities of the state for information and advice of a general nature, the conservation and survey division of the university has organized a city planning division for the dissemination of information in matters relating to municipal improvement.

This service will be made available to municipalities, commercial and civic organizations through the collection of information, investigations, conferences, lectures, exhibits, bulletins, and answers to inquiries. These functions are to be advisory only, and it is not the purpose of the department to invade the field of the professional man in the technical field.

It is only in recent years that city planning has been recognized as a great work, and only very gradually have civic organizations and more public-spirited citizens, generally, awakened to the recognition of the vital importance of the comprehensive city plan as a means of directing and guiding the future development of communities. A very large part of the work of the department will, therefore, consist of meeting with council boards, city planning committees and business and civic organizations interested in city development; and through these promote more logical procedure in such development by the preparation of general comprehensive plans.

Kearney is the first city in the state to seek such extensive service and has already undertaken the preparation of maps to be used in compiling basic data in formulating a general city plan.

Professor M. I. Evinger will have direct charge of the city planning department in addition to his other duties as associate professor of civil engineering in the college of engineering. Professor Evinger has had considerable experience in municipal improvement work and during the war served as captain in charge of water supply, sewers and plumbing at Camp Dodge.

CITIZENSS TRAINING CAMP AT DES MOINES

A citizens military training camp will be held at Fort Des Moines, Iowa, August 1 to 31 and those interested should see Captain Murphy at R. O. T. C. headquarters in Nebraska hall to get application blanks and information regarding the camp. The object of the camp is to bring together young men of high type from all sections of the country on a common basis of equality and under the most favorable conditions of outdoor life; to stimulate and promote citizenship, patriotism, and Americanism; and through expert physical direction, athletic coaching and military training, to benefit the young men individually and bring them to realize their obligations to their country.

LINCOLN MAN GETS THOROUGH DEGREE

Arthur Pratt and Four Other Nebraska Men Awarded Certificates at Boston

Arthur L. Pratt, of Lincoln, Nebr., was awarded the degree of Bachelor of Sacred Theology at the annual commencement of Boston university held in Symphony Hall at Boston, on Monday, June 19. Four other Nebraska students were also awarded the degree of Bachelor of Sacred Theology: A. Byron Albertson, of Morrill; Carrol D. Hildebrand, of Doniphan; George S. Morrell, of Douglas, and Russell E. Waitt, of Omaha. The degree of Doctor of Philosophy was conferred upon Benjamin D. Scott of University Place.

Over 650 degrees were conferred by President L. H. Murlin upon the largest graduating class in the history of the university. This is an increase of 200 over the 450 degrees granted last June. This large number was due to the fact that Boston university now has over 9,800 students enrolled, exclusive of extra-mural courses.

Dr. John F. McConnell of Pittsburg, bishop of the Methodist Episcopal church, delivered the commencement address on the subject "Social Imag-

ination," before the faculties, graduates and 2,000 guests.

Business, the law and medical professions, claim the majority of the class. Among the graduates of the College of Business Administration is Ting K. Liang, the son of the distinguished ex-premier of China.
