DO YOU KNOW YOUR SCHOOL

Nebraska students, do you really know your school?

Of course, you will declare that you know every building on the campus. that you know any number of profearors and football beroes by sight. and that you have intimate knowledge of the University library and the interested in sponsoring a club in bookstore across the way. It will pay you to listen to this music

ALL over the country the whistle is blowing for the kick-off, the start of that great game another college year.

Be on your toes when the whistle blows. A good start will carry you well on toward your goal. Let the football candidate start by working

away till his muscles ache from bucking the line. Let the aspirant for manager put in careful study of his team's needs, always eager to help

-arranging a trip or carrying a pail of water. Let the publications man be alert for news and tireless in learning the details of editorial work. Whatever activity you come out for, crowd a

lot of energy into these early Fall days. And if a good start helps win campus honors, it helps win class room honors, too. The sure way to be up in your work is to aim now for regularity at lectures, up-to-date note-books and particular attention to the early chapters of text-books, thus getting a grip on the basics.

This is best in the long run, and-selfishly-it is easiest in the long run. That is, if life after college is made easier by the things a bigger income can buy.
