

UNIVERSITY PUBLICITY

Miss Marian Cumings, Fine Arts '23, Lincoln, is assisting in public school drawing; and Herbert McAnan, Fine Arts '23, Omaha, is assisting in harmony.

Leon J. Pepperberg, '05, geologist and engineer, was elected president of the Southwestern Geological society which met in Dallas, September 16 and 17. He is announcing offices in the American Exchange Bank building in Dallas. Mr. Pepperberg has had a very active part in the geological surveys and investigations on the Pacific coast, Rocky mountain, mid-continent, Texas, Louisiana, Canadian and Mexican fields. His work involves geological examinations, tax-appraisals, depletion allowances, valuation for financial purposes and management of petroleum properties already developed.

Prof. Robert W. Wolcott, chairman of the Department of Zoology, addressed the Sioux City Academy of Science 7. 1st evening on "Animal Life in the 'ka'."

Prof. J. H. Haney of the Department of Mechanical Engineering gave an illustrated lecture Friday evening, October 6, under the auspices of the Omaha branch of the National Association of Stationary Engineers. His subject was "Economic Production of Steam Power."

The registration at the School of Agriculture at Curtis is the largest in the history of the school. Every western county is represented, reports Supt. C. K. Morse.

Professor Warshaw was recently elected corresponding member of the Hispanic Society of America—a distinction much appreciated by students interested in Spanish.

An exhibit of modern wall paper, interesting in design and color, and some examples of Dwight Kirsch's work in modeling are on exhibition at the University Art Gallery. Additional examples of art will be shown after the close of the Omaha Society of Fine Arts exhibit. An example of Mr. Kirsch's work was selected for one of the illustrations in the catalog of the Art Students' League.

The enrollment in the Graduate college, according to Dr. L. A. Sherman, dean, is a third larger than last year. It has so far reached 557—141 more than the 416 in 1921-1922.

EXCHANGES

One of the three major underclass scraps of the year will take place on South field tomorrow afternoon, when the sophomores and freshmen will meet in a tug-of-war. Student board, which will supervise the contest, has scheduled the struggle for 4 o'clock.

Following the custom of former years, a member of student board will play a stream of water across the center of the rope. Members of the two competing classes are advised to wear old clothing and shoes for the "tug," as the center of the battleground is invariably soggy or athletic, has ordered that churned up into a sea of mud.—Columbia Spectator.

The development of a "cheer" cheering section is the latest feature in Ohio state's 1922 football program. Materialization of plans outlined by Boost Ohio committee, in conjunction with the athletic department, will provide the University with one of the most powerful yelling organizations in the country.

In addition to the regular student rooting contingent, Ohio state cheer leaders will train this special cheering group composed of 1044 of the university's loudest voices.—Ohio State Lantern.

Y.W.C.A. to Raise Funds by Means of Rummage Sale

Have you any old clothes, new clothes, books or furniture that you don't really need or want? I suppose that you will say that college students never have anything but what they actually need, but that, of course, you would be willing to part with any, or all of your books if a good final grade could be guaranteed.

The reason for this seeming questionaire is that the University Y. W. C. A. girls and the Federation girls of the City Y. W. C. A. are going to hold a rummage sale for Social Service on October 13, 20 and 21, from 9 a. m. to 9 p. m. Thus, all persons having clothing or other appurtenances which they wish to donate should call or leave said articles with Miss Appleby in Ellen Smith Hall, or with Miss Fulk at the City Y. W. C. A.

The purpose of this rummage sale is to help the Federation girls get acquainted with University girls, to make some money for Social Service work and to help you to get rid of your beloved but no longer necessary garments and books. If it weren't for this kindly intent on the part of all rummage sale collectors you would soon be overwhelmed with junk and be really forced into believing that you had more clothes than you thought you had.

OBSERVE SYMBOLIC SERVICE AT VESPERS

One took advantage of them, that they had been with Jesus."

"Are people going to know, here on the campus and in your houses that you are a true follower of the Lord Jesus?" she finished.

University of Washington, P. I. N. S. With two weeks' practice and a 41-0 victory over the U. S. S. Idaho behind them, the Washington football squad is now on its way to a successful season. Coach Bagshaw is building his team mostly from the freshman material he had presented to him last year. He had expected to have two games to open the practice season with in order to run two complete teams and thereby lessen the chance of leaving any promising material uncovered. However, the Ninth Army corps failed to send a team and he had to use twenty-two men in the navy game to accomplish his purpose.

Three hundred students of the school of engineering of the university are willing to save Boone county from the disaster of having the worst stretch of road between the Pacific and Atlantic coasts on the National Old Trails road.

When a committee of the commercial club met at the Daniel Boone

tavern this afternoon to consider the problem of rebuilding the Rochester road, representatives of the engineering students were present to offer the services of the 300 students for two days' work on the highway. The only condition made by the students was that the county and city provide enough wagons and other road working apparatus to keep the students busy and insure the construction of a worth-while road.—Columbia Evening Missourian.

The college directory goes to press tomorrow next week and will probably be out by the first of October. It will be distributed from the registrar's office to all students free of charge. The directory contains the name, classification, home address and local address of each student; and the names, addresses and telephone numbers of the members of the faculty. A thousand copies are being prepared for distribution.—Grinnell Scarlet and Black.

Members of the incoming class of 1926 will gain their first knowledge of the varied aspects of Columbia campus life when they meet in the auditorium of Earl hall for the freshmen reception which is scheduled for tomorrow evening. Preparations for this initial gathering of the yearlings are practically complete and the time of affair has been set for 8 o'clock.—Columbia Spectator.

Renewing a pledge of love and loyalty to Indiana, members of the class of 1926 yesterday at freshman convention began their life of service to their alma mater. Stirred by President Bryan's inspiring address the freshmen class assumed its share of the responsibilities of carrying on Indiana's ideals by taking the oath of the university.—Indiana Daily Student.

There are two new buildings under construction in the space back of the main educational group. One of these is designed with the purpose of preventing the occurrence of a catastrophe at the Institute like that which took place in the Harvard physical laboratory last spring. It will be in the nature of a compressed air laboratory.—The Mechanical Tech.

Dr. Herman Schlundt, head of the chemistry department of the university left this morning for western Colorado. He will visit the radium mines of Paradox valley. These mines are the largest radium mines in America.—Columbia Eve. Missour.

TWENTY-FIVE DOLLARS EACH IS THE PLEDGE ASKED OF EIGHTEEN THOUSAND

the Regents and will be given over to the Stadium provided the \$450,000 is raised.

The earth will be excavated level which will make it more nearly a bowl effect. Then on the outside an oval wall of concrete with bleachers on the east and west walls will be erected. On the north and south walls will be placed where emergency bleachers can be erected when the time comes for their use. The seating capacity will be 40,000.

The wall on the outside from the level of the ground to the top will be more than seventy feet high. It will be of beautiful architecture throughout.

Plans for making permanent records of the pledges to be made for the Memorial Stadium are now being considered by the committee. One plan suggested is that the name of the pledger be engraved in a brick and that all of the bricks with the thousands of names be placed in a conspicuous place on the wall of the Stadium. Another plan is to have each pledger toss a stone on a great mound somewhere on the campus as he makes his pledge and then have this mound left as a Nebraska tradition, as an historical memory to the Stadium Builders. Still another plan calls for a group of bronze tablets upon which the names of the pledgers would be engraved.

"N" buttons with the words "Stadium Builders" will be given as each pledge is made. Students who are not wearing these "Loyalty Pledge
