

## MONSTER MASS MEETING WILL BE HELD MONDAY MORNING

### HOMECOMING DAY PROGRAM FILLED WITH BIG EVENTS

Annual Freshman - Sophomore Olympics Will Act as the Starter For Day

HUSKER LUNCHEON AT 12:00

Missouri - Cornhusker Football Game in Afternoon Will Feature Program

Homecoming day is Saturday, October 21.

Homecoming day, one of the most outstanding traditions of the university, will welcome a host of former students back for the day that is crowded with activities, from early morning till the closing hour that night.

The annual Freshman-Sophomore Olympics will start the day off with a bang. The contest-program of boxing, wrestling, relays, various races, with other events and the grand and glorious flag-rush as the finish, will make up a full morning of activities. All the freshmen and sophomore men will be supposed to take active part in the Olympics. Upperclassmen and women, with the alumni, will decorate the sidelines and bleachers.

As the second big event of the day will come the Girls' Cornhusker luncheon, promptly at 12 o'clock, in the Lincoln hotel ballroom. Every girl who has attended a Cornhusker luncheon knows what that means. Only five hundred girls can be accommodated at the luncheon, and the W. S. G. A., in charge of the luncheon, urges girls to get their tickets early. Tickets are 75 cents. Members of the W. S. G. A. board began selling Friday, and the members of the council will have tickets to sell after their meeting Tuesday.

The Girls' Cornhusker luncheon is an annual homecoming affair. It is the high point in Cornhusker spirit among the girls of the university, and many alumnae come back just for the luncheon. There are pep talks, with an abundance of songs and cheers during the luncheon, and after that preliminary preparation, the girls go to the homecoming game in a body.

The Nebraska-Missouri game Saturday afternoon will be of course the feature of the day. While the Nebraska and Missouri warriors are battling it out on the gridiron, distance runners from the two universities will be settling their problems in the cross-country track. The race will probably end between halves, on the track in the athletic field.

An All-University party, bigger and better than any previous mixers, will fill the evening. Special arrangements are being made to entertain the Missouri football men and the rooters who come to the game. Missouri songs and cheers will be interspersed during the other events of the evening. Lila Wyman and Andy Fosgreen are chairman of the party. They and their committee are planning a period of games Saturday evening from 8:15 to 9 o'clock, and it has been hinted that entirely new games will make their appearance at that time.

The hour from 9 to 10 o'clock will be devoted to an especially good program. There is to be a tumbling act by the best talent from the city Y. M. C. A. A black-face stunt is planned, and also a clever little shadow-graph. Ballet dancing and a quartette skit are among some of the other numbers planned on the program. The personnel of the skits will be made public later in the week.

Dancing will begin at 10 o'clock in the armory, and games will be continued in the Temple for the guests who do not dance. Refreshments will be served in both the armory and the temple.

The Lincoln Alumni association has made no special plans for homecoming this year.

A number of organizations are planning homecoming parties for Saturday evening. Acacia and Farm House will each give a house dance, in their new homes. Delta Upsilon will hold a homecoming banquet at the Lincoln hotel, and the annual pig dinner of Phi Gamma Delta will be at the Lincoln also. Sigma Chi will have a dance at Ellen Smith hall, and Delta Tau Delta will go to Knights of Columbus hall for a dance.

### NEBRASKA'S MEMORIAL STADIUM

Above is a reproduction of the plan for the new Nebraska Memorial Stadium, to be erected on the present Athletic Field, but extending a block further to the north and as far to the east as Chemistry building. The Stadium completed with cost \$430,000. Within the wall surrounding the field will be an indoor running track, eighteen feet wide and three laps to the mile. Last winter, an emergency board track was erected for Nebraska men to train upon. With the new stadium completed, Nebraska track coaches will have equipment surpassed by few schools in the country. Be-

neath the grandstands there will be twelve indoor tennis courts and thirty handball courts. In the past, Nebraska tennis players have had to wait until the balmy days of spring before trimming up for the net contests. With the new stadium completed, they will be able to play tennis throughout the entire year. Dressing rooms and shower baths will also be provided beneath the stands. The present gymnasium dressing rooms are far too small for complete equipment and all Nebraska teams are handicapped as a result.

In the stadium proper will be two football fields, one baseball diamond, a

half-mile track, a place for outdoor pageants, Nebraska gridiron candidates now cannot extend themselves to their best advantage in practice, but one scrimmage can be conducted comfortably at a time, forward passes constantly send ends into the fence and into other groups of players. The present track is far too small for large track events. With a large stadium and a half-mile running track, Nebraska can provide the finest location in the Valley for the holding of track meets. The present Athletic Field is much too small for baseball games. The new Stadium will provide an excellent playing ground.

### "N" CLUB PUBLISHES FOOTBALL PROGRAM

Copy to be Changed in Each Issue—Iron Sphinx in Charge of the Sales

With the start of this football season, the "N" club took over the duties of publishing the official program for the games. The program has been enlarged and copy for each issue will be changed for each game.

The proceeds from the sale of the programs will be used by the "N" club to make honor awards to the members of the athletic teams. Last year the members of the track squad, winners of the Missouri Valley championship, were awarded gold track shoes and the members of the championship football team of 1921 were given gold footballs.

Members of the Iron Sphinx, sophomore men's society, will have charge of the sale of the programs. At the South Dakota game the Sphinx cleared up the entire supply before the game was even started. Two thousand programs are being ordered for the homecoming day game. They sell at 25 cents per copy.

The size of the programs has been increased to a minimum of thirty-two pages per issue. They will contain pictures of all varsity men and the coaching staffs, together with some members of the opposing teams and the lineups of those teams. The programs will contain pictures of Jack Best, football and track squads of last year, captains of the various teams and action pictures of football games. Copy will be changed in each issue.

Besides making honor awards to the members of the athletic teams, the "N" club plans to make all the awards of cups and skins in inter-fraternity, inter-class and inter-college contests.

### STUDENT DIRECTORIES COME OUT NEXT WEEK

This Year's Book Full of Information Concerning Faculty and Students

Student directories will be out a week from tomorrow. The typewritten copy goes to the printer sometime Monday. The directory this year will contain the name of every student his college, year in school, Lincoln address, phone number, his home town address, and fraternity affiliations. It will give the name and title of every member of the faculty besides his home and office address.

In the back of the book will be a list of the members of every fraternity and sorority and a list of the students from each town. It will also contain all the university phone numbers. The price, which is the same as last semester, is fifty cents.

### Dean Engberg Gives Out Warning About Magazine Solicitors

(University Publicity Office.) A warning to the public not to give any credence to magazine subscription solicitors who say that they are working for scholarships at the University of Nebraska has been issued by Dean C. C. Engberg. This is a method of reaching kind-hearted people which has been "worked" for many years and often very successfully, by unscrupulous young men and women. In every case the subscribers have failed to receive the magazine, and publishers have informed them that they have not been authorized by them to solicit subscriptions. Careful investigation of all reported cases has shown that University of Nebraska students have not been involved in any case. It is believed that they are impostors seeking to arouse the sympathy of the public by alleging that they are working for scholarships.

### FINANCE COMMITTEE REPORTS ON Y.W.C.A. Campaign Gets Good Start

Number of Houses Pledge 100 Per Cent

At noon Saturday, the Y. W. C. A. finance committee had received \$618.25, less than half the girls had been interviewed at that time. The committee feels that the response is unusually fine this year. As some confusion has been caused by the rush in which the campaign has been put on, there will doubtless be girls whom the committees are not able to reach. These girls are requested to call at the office at Ellen Smith hall to make their pledges.

The following houses have contributed 100 per cent:  
Delta Delta Delta  
Delta Psi  
Delta Gamma  
Alpha Phi  
Acotch  
Phi Mu  
Delta Zeta  
Chi Omega  
1229 R  
1945 T

### Girl's Cornhusker Luncheon Ticket to Go on Sale Monday

Tickets go on sale Monday morning for the Annual Girls' Cornhusker Luncheon to be held at 12 o'clock on Homecoming day at the Lincoln hotel. Owing to limited seating capacity only 500 tickets have been validated, and it will be necessary for all girls desiring to go to secure their tickets at once.

Board members are selling on the campus, and proctors will sell to girls within their houses after the Proctor's meeting Tuesday evening.

### FINAL FROSH TRYOUTS BOOKED FOR TUESDAY

Few Places Still Open on Olympic Squad—Sophomores Promise Competition

Further freshman tryouts for positions on the Olympics squad will be held Tuesday afternoon in the Armory. Several wrestling and boxing places are yet to be filled, and among them is that of the heavyweight boxer. If the track can be secured for that day, track and relay tryouts will also come Tuesday afternoon.

A statement that several likely winners among the freshman boxers have shown up, was attributed to Harry Reed, the instructor in boxing, by a member of the freshman committee on Olympic tryouts. The turnout on Thursday was large and uncovered some new men, but that of Friday brought out only a few wrestlers.

The freshmen say that the sophomore have gone to sleep and most of them are confident of success.

Most of the boxing and wrestling positions on the sophomore squads have been tentatively filled, but any man who has any ability should make arrangements for a tryout by calling Ward Kelley at B1445. The sophomore track tryouts were held Saturday morning on the Athletic Field and some promising men appeared.

Again, the Iron Sphinx, and the sophomore officers urge that every sophomore be at the battle Saturday.

### COUNCIL AUTHORIZES NUMBER OF PLEDGES

Inter-Fraternity Council Gives Out Additional List of Pledges

The inter-fraternity council has authorized a number of new pledges to the fraternities as follows:  
Delta Upsilon  
John E. Costello, Lincoln.  
Phi Gamma Delta  
Harold Hutchinson, Lincoln.  
Phi Kappa Psi  
W. J. Beerle, Omaha.  
Richard Elster, Omaha.  
Morris Roberts, Lincoln.  
Phi Redgwick, Omaha.  
Sigma Phi Epsilon  
Ray Lindeman, Lincoln.  
Xi Psi Phi  
Ralph H. McGoogen, Lincoln.  
M. C. Wieland, Lincoln.  
Hugh Winchester, Lincoln.

W. E. Sealock, Dean of Teachers College, was elected president of Division No. 1 of the Nebraska State Teachers' Association, Saturday afternoon. The election came at the close of a three day discussion of educational problems.

### UNIVERSITY FACULTY AND STUDENTS WILL PARADE FROM CAMPUS TO CITY AUDITORIUM

#### WHY A STADIUM BUILT BY CORNHUSKERS?

First, because it can be built in no other way. There is not the slightest hope of an appropriation by the legislature. The legislature is already millions of dollars behind for buildings actually needed in the work of the University. To get an appropriation for a stadium would either be impossible or would operate to prevent for many years the rising of other building funds sorely needed. The stadium must be built by Nebraskans or not at all.

Second, because in this way loyal Cornhuskers can repay in some slight degree the debt they owe the University. The cost to the state of maintaining instruction for each student runs to several hundred dollars for one year; for four years into thousands. The rank and file of Nebraska students have never been asked to contribute directly to the University. Compare this record to Harvard's recent campaign that raised \$13,000,000 from Harvard men and that is now raising over a million a year. Kansas has just recently raised a million among her students and alumni. Kansas Aggies have raised a similar fund. In fact, every school in the Valley except Nebraska and one other have built or are now building memorials.

Third, here is where every Cornhusker can assist his school as much as the man on the football team in a real crisis. Without a suitable stadium we cannot expect to arrange games with the type of schools we have been playing, but with a new stadium we can get a better class of games than those now on our schedule. Our seating capacity at present is about 7,000 and will soon be the smallest in the Valley unless the Stadium is built.

### Law College Sends Out Second Bulletin To State Barristers

(University Publicity Office.) "Jurisdiction in Suits to Quiet Title (Part I)" is the subject treated by Professor George N. Foster in the second number of the Nebraska Law Bulletin, issued last week—the new publication which the College of Law launched in July. Part II, which will be issued in January, will deal entirely with procedure, giving a full list of Nebraska cases and all other cases. Part I deals with the historical development of suits to quiet title; with such suits in relation to the possession of real estate; with the transition of such action from quieting against one or more persons to quieting against the world; and with the conditions, such as payment of back taxes and unpaid mortgages, which must be performed by parties in an equity court to quiet title. Nebraska has had numerous statutes in the last two years on this subject, most of which, in the minds of the Nebraska bar, have had a tendency to complicate rather than clarify procedure.

### FACULTY MEMBERS ON INSTITUTE PROGRAMS

University Professors Address District Teachers Meetings Here Last Week

(University Publicity Office.) Thirteen members of the University faculty spoke before various sections of the District No. 1 meeting of the Nebraska State Teachers' Association, Lincoln, October 12, 13 and 14. Professor Hartley E. Alexander, professor of philosophy, gave the principal address, "Intellectual Life in the Middle West," before the general session Saturday morning; Dean W. E. Sealock, Teachers' College, spoke on "Habit in Education"; Professor Paul H. Grammann, Fine Arts, "The Training of the Senses"; Professor Laura Pfeiffer, European History, presided over the history section; Rev. Dr. S. Mills Hayes, History, spoke on "History and Modernity"; Professor N. A. Bengtson, Social Science, "The Relation of Geography to International Problems"; Dr. H. G. Deming, Chemistry, "High School Chemistry from the College Instructor's Point of View"; Professor O. R. Martin, Business Administration, "Bookkeeping from the Business Man's Standpoint"; Professor A. R. Congdon, Mathematics, "A Study of the Mathematical Abilities of High School Pupils"; Marion Wilcox, Public School Music, "Correlation of Music and Other Subjects"; Elizabeth Rutherford, Home Economics of High School Pupils; Marion Training to Meet the Needs; Mathias Peters, Home Economics, "Echoes from National Home Economics Association"; and Beas Steele, Home Economics, "The Teaching of the Application of Art."

### WORK ON CORNHUSKER TO START THIS WEEK

Applications For all Positions Will Be Received in Awgwan Office

Work starts immediately on the 1923 Cornhusker. Adolph Wenke, editor-in-chief, and Audley Sullivan, business manager, plan to get more of the work done in the early part of the year than has been the practice of preceding staffs.

For this reason, all applications for positions on both editorial and business staffs must be made in the Awgwan office on Monday and Wednesday of this week, between 1 and 3 p. m. About fifty positions in both departments are to be filled. Every person who is interested in this, whether he has had any similar experience or not, should make application at the prescribed time. Those who have been members of the staff of any Cornhusker, or who have worked on high school annuals, or the annuals of other universities or colleges, are especially invited by the editors to make application.

An attempt will be made to find work for anyone who can qualify, and if at all possible, the sort of work that he desires.

The Cornhusker office will probably be in the Awgwan office, in the northwest corner of the Administration building. Work on certain sections of the annual will begin at once. Therefore, the editor asks that everyone apply at the time set. Since the work is to be extended over the whole year, it will not be excessively heavy at any one time, and any student should be able to devote some time to the book.

An urge for a more comprehensive and more representative annual than ever before is to be the impelling power behind the new staff. Eight sections further subdivided by classes as before, will be the scope of the new volume. A number of new ideas that will tend to make the book more interesting, have already occurred to the editor, but he will welcome any new ones.

### REPORT ON FUND FOR STUDENT FRIENDSHIP

Chancellor Avery in Receipt of Report on Expenditures From John R. Mott

(University Publicity Office.) From John R. Mott, chairman of the Council of North American Student Movements, Chancellor Samuel Avery has received a report on the expenditure of the Student Friendship Fund, to which University of Nebraska students and faculty members contributed last year, to aid students and teachers in institutions of central Europe, Russia and the Near East. Substantial aid has been given 90,000 needy students and teachers in 125 educational institutions. A by-product Mr. Mott says, has been the spread

(Continued on Page Four.)

### STADIUM BUILDERS WILL START WORK TOMORROW MORNING

Mass Meeting of all Colleges at City Auditorium Monday Morning at 10

DRIVE CLOSSES SATURDAY

Results Will Be Announced to Students and Alumni at Homecoming Game

Promptly at 9:50 Monday morning, thousands of Cornhusker students will form in college groups for a monstrous parade to the City Auditorium to attend a mass meeting of all students and faculty members of the University of Nebraska in the interests of the new Memorial Stadium. Doors to all the buildings will be locked at 10 o'clock.

Immediately following the rally, students will be asked to present their volunteer pledge cards, which were mailed to them last week, at the booth where they will be given "Stadium Builder" buttons to show that they have made their pledges.

The parade to the auditorium will be made in college units. As soon as the bell rings for the close of 5 o'clock classes the students of all the colleges are to line up in the following places:

- Law—Law building.
- Fine Arts—Library.
- Arts and Sciences—U hall.
- Engineering—M. E. building.
- Business Administration—Social Science.
- Pre-Medics—Administration building.
- Pharmacy—Pharmacy hall.
- Dental—Dental Clinic building.
- Teachers—Teachers' College.

The band, which will lead the parade, will form at the Temple. Immediately behind them will be gathered the members of the faculty.

The line of march will be down F street to Thirteenth, where the group from the Teachers College will join the long line, down Thirteenth to F street, where the Dets will fall in, and then over to M street and into the City Auditorium.

The College of Agriculture students will come directly to the auditorium in a special group. Announcement of the plans will be made at the classes here Monday morning.

Good Speakers. The speakers for the rally have not all been definitely determined upon as yet. Professor M. N. Fogg will have charge of the program. Dean of Men and Head Football Coach Fred T. Dawson will be one of the speakers. The others have not as yet been definitely arranged.

The "N" buttons for the Stadium Builders have been donated by the Farquhar Clothing company. A button will be given for each of the pledges as it is received.

The City Auditorium was secured for the Stadium Builders' rally in order that every student in school might be accommodated at the meeting. Unless there is a 100 per cent attendance at the rally, the start of the Stadium Builders' campaign will not have been successful. Should the report to alumni indicate that the students lack the interest in the biggest thing ever attempted at Nebraska to go in a body to boost for the monstrous structure, their response to the request that they make up the additional \$140,000 necessary for the stadium will not be nearly so enthusiastic as it will be when they hear the students have far surpassed their quota of \$90,000.

Results at Homecoming. Before thousands of Cornhusker students and alumni the results of the student campaign will be announced at the Nebraska-Missouri game on Saturday, homecoming day. The campaign proper will close Friday evening and the tabulated results will be ready for announcement at the biggest game of the season.

Next homecoming, it is hoped that the thousands of alumni returning will sit in a stadium capable of seating 40,000 people, with room for two grid-irons, one baseball diamond with an eighteen-foot wide running track and beneath the stands indoor tennis courts, handball courts, shower baths and locker rooms.
