HUSKER TEAM PREPARES FOR TIGER ELEVEN

Gridsters Are Working Hard to Get Into Shape for the Homecoming Fray.

MISSOURI TEAM IS STRONG

Coach Frank, Who Scouted Bengal Contest, Says Game Will Be a Close Battle.

Results Last Week.
Kansas Aggies, 22; Washington, 14.
Missouri, 6; Ames Aggies, 3.
Drake, 6; Kansas, 0.
Oklahoma, 19; Okla. Central, 0.
Grinnell, 25; St. Louis U., 0.

In preparation for the Missouri Tiger Homecoming contest, Saturday, October 21, Head Coach Fred Dawson will send the Cornhusker grid crew through a series of stiff workouts this week, stressing a number of new plays and formations. In a practice made snappy by the cold north wind, the Huskers drilled for almost three hours last night on catching passes, hitting the dummy, and other fundamentals.

The charging machines were brought into play last night and the Husker lineemen were kept busy pushing the heavy machines around the field. Two complete teams ran through signals and practiced formations and shifts. Lewellen was working in the first team backfield, and will probably be used Saturday.

A number of the Scarlet and Cream gridsters are packing bruises of a more or less serious nature. "Tommy" Thomsen cracked a bone in his shoulder last week, but is reporting for practice in spite of his injury, which is very painful. Noel Rorby is still unable to be out due to blood poisoning in his foot. Gordon House, center, has a twisted knee.

Coach Owen Frank, who scouted the Missouri-Ames game last Saturday, reported today that the Tigers have a big bunch of huskies who will give the Huskers a real battle. Lincoln, big Tiger halfback, is a powerful line plunger and will not fail to give the Husker forward wall a great deal of trouble, Frank says. On the line, the Tigers average well toward the 200 mark. Captain Herbert Bunker, playing tackle, is a tower of strength on the Bengal line.

From a perusal of the dope, it would appear that Missouri will put up a real battle against the Huskers. Notre Dame defeated St. Louis U., 26 to 0, Grinnell beat St. Louis 25 to 0, and Missouri beat Grinnell 23 to 0. Again, the fact is that the Tigers were terribly over-confident when they met the Ames team, thus accounting for the slight margin, 6 to 3, by which they defeated the Cyclones.

As a result of the bitter north wind, the big red blankets made their appearance on the Athletic Field yesterday. John Wickersham, student manager of the first Minnesota team that ever played Nebraska, back in 1900, watched the practice yesterday expressed the hope that a Nebraska-Minnesota game would again become an annual affair.

Rightwads who are planning on seeing the game free from the big coal pile west of Chemistry Hall are due to be disappointed, as a big signboard has been erected along the east fence of the Athletic Field, thus shutting off the view of the field. Grandstands to seat 2,000 people will be built on the east side of the field in order to accommodate the Homecoming day crowd.

Coach Swanson, who scouted the Notre-Dame-Purdue game last Saturday, comes back with the news that the Irish team is stronger than ever this year. The backfield, Swanson says, is the smoothest backfield that he has ever seen, and is much stronger than the famous Catholic backfield of last year. Swanson declares that the Notre Dame team will not lose a game until it meets Nebraska, and that it will take the supreme efforts of the Huskers to defeat it.

Initial Meeting of Square and Compass Club Tuesday Night

The Square and Compass club will hold its initial meeting Thursday, October 17, at 7:30 in Faculty Hall.

Tryouts for the freshman 440-yard relay team for the Olympics will be held Tuesday afternoon on the track. Every freshman interested should turn out. The finals for the three weights in boxing and wrestling will be held Tuesday evening at 7 o'clock in the Armory.

CROSS COUNTRY TEAM NAMED FOR SATURDAY

Final Tryouts Held Last Night—Next Meet Will Be at Ames.

Cross-country team which will compete against Missouri next Saturday is announced, as made up of the following men: Claire Bowman, N. W. Coats, Higgins, J. G. Haskell, Hyde and "Mud" Gardner—alternates are Cook and Hartman.

There were but two men who competed in the second tryouts held last night at 5 o'clock. These men were Gardner and Bob Weir. Gardner won the five mile event from Weir in the time of 29:2. This time was better than the high time made by Higgins in the Saturday tryouts which was 29:40. The air was very cold, putting a handicap on the runners, and it is believed that they will make an even better showing at the Missouri meet.

The above named men in the team will run against the Missourians, but all other cross-country men are supposed to be out that day too. In case any of the others that are out beat a man on the team, they will get a place on the team which goes to the next meet at Ames. "More men, more men," is the plea of both Coach McMaster and Coach Schulte.

Dean Appointed to Committee on Electric Safety

Dean O. J. Ferguson of the College of Engineering, has been appointed a member of the National Electric Safety Code. This work is being sponsored by the Bureau of Standards of the United States Department of Commerce, under rules laid down by the American Engineering Standards Committee.

Similar organizations in Belgium, Canada, France, Great Britain, Holland, Sweden and Switzerland, are already effectively co-operating with the American Engineering Standards Committee. This committee was organized in 1917 by joint action of the national engineering societies for the purpose of having a representative organization which can officially recognize standards in American engineering practice, and also recommend practices looking toward the establishment of standards. The co-operating bodies now include not only the original participants, but also the governmental departments of war, navy and commerce and other organizations interested in the work.

Isabel Fouts Tells of Working Girl's Troubles

Isabel Fouts, 23, who earned her living as a working girl without references for six weeks in Denver this summer, will talk at vespers Tuesday evening at 5 o'clock at Ellen Smith Hall. Miss Fouts was the representative from Nebraska in the intercollegiate industrial experiment of the Y. W. C. A. at Denver. To gain information concerning the conditions of working girls and to foster friendship between them and college girls is the purpose of the experiment. Miss Fouts was one of a group of ten, and worked as waitress and factory girl. Twice she was without work, and with less than a dollar to live on.

Addelheit Dettman, chairman of the finance committee, will lead. Reports of the finance campaign will be made.

Large Shipment of Books for Library Arrive From Europe

Books for the library have recently arrived from London, Paris, and Florence, Italy. An interesting collection of books on early history and customs of various French provinces was in the shipment from Paris. These books, many of which were quite rare, were published in the sixteenth and seventeenth centuries and were secured at a small price. The package from Italy contained some valuable and interesting early maps and atlases. The English box contained important series of Ayleshire and Guernsey herd books for the Agriculture Library.

The exhibit case now contains a showing of pictures illustrating the development of the art of printing. These illustrations were published in the Linotype Bulletin and are accompanied by short descriptive articles, one of which mentions the famous Gutenberg Bible, the first book printed from movable type. The last copy of this book which was sold brought \$50,000. The library has one page from a copy of this book, and this page is included in the exhibit.

Notre Dame Captain Has Unusual Record in War and Football

Glen Carberry of the Notre Dame football eleven, is an unusual product of the late war. After assisting General Pershing as a lieutenant in the A. E. F. for eleven months, Carberry was blown up with an ammunition dump and spent three weeks in the hospital.

He came out minus an ear drum but otherwise a he-man and entered Notre Dame university where he spent two seasons as a substitute for Rodger Kiley, all-American end of the famous eleven of 1921. That great team was blasted entirely; but before its members disbanded they named Gless Carberry as Knute Rockne's lieutenant in the creation of another Notre Dame army capable of turning back Nebraska, Georgia Tech, Carnegie, Indiana and Purdue.

The lieutenant of Pershing who was blown up with the ammunition dump came down to assist another general—Knute Kenneth Rockne in an undertaking which is a very serious affair to Notre Dame men and which will be watched with interest by the football population of the country.

Captain Carberry comes from a family of football ends. Two brothers formerly played that position on the teams of the University of Iowa and two younger brothers are now playing end on the high school team at Ames Iowa.

Former University Student Married Thursday Evening

The marriage of Miss Lois Lee Melton to Fred Sidles took place Thursday afternoon at 2 o'clock at the home of the bride's parents, Mr. and Mrs. R. L. Melton, 1919 Pepper Ave. Mary Sidles and Winifred Harding were the

flower girls and carried arm bouquets of deep pink roses with bows of tulle to match. The bride's sister, Miss Wilma Melton, was her maid of honor and Harry Sidles was his brother's best man.

Mrs. Sidles attended the University of Nebraska, where she was a member of Alpha Chi Omega. Mr. Sidles is a graduate of Culver and is now associated with his father in business. They will spend their honeymoon at the Sidles' summer home in Colorado.
