NOTICEL

The railroad companies ask that the students buy tickets early so that an estimate may be made as to how much equipment will be needed for the Christmas rush. Tickets will be put on sale Monday morning at the local ticket offices, and will be dated ahead. If the students will co-operate with the railroads in this matter, the students will save themselves the trouble of standing up during the ride home for the holidays.

have the most vague, yet most feel ing longing for home. They calle taht this is the last Christmas vaca tion they: will have the opportunity of anticipating during their University career. The beautiful holida will be very sacred to them and will be with a deep sense of loyalty to their school that they will fill their minds as they speed homeware It is only the students who have ap preclated teir opportunities in this in portant business of going to ucho who will realize the most the swsentiment of the Christmas spirit

Until we are fared with the proport of gotting a Job or perimps position we seldom stop to men wwhat kind of recommendations u could secure. Yat we hardly yes an application for any position being we are asked to give references. It essential that employers know the record which the applicant has made As a first means of learning of this record, references are united.

A number of students will have the University at the end of this semante to find positions. They will be calle upon in next faculty members to sive them recommendations.

Employers usually discount any recommendations carried by the at plicant. This is only natural with human nature na it is. There are very few individuals who will giv their opinions of person in a better the person himself will read. The desire to please is too strong.

So though it is hard not to know what the writer will say about onit is better not to ask for a recom mendation to carry with one.

It is as difficult for the person who is called upon to write a recom mendation as it is for the person whose position may depend upon the recommendation. Most persons try to be fairly in their opinions. They try to give all the praise they honestly can. They prefer that their opinions be treated confidentially.

The annual exodus of students from the University for the Christmas vacation start ssoon. Friday trains will be crowded. The wise ones have already secured, their tickets. Others may well purchase theirs today.

Don't forget today and Friday to wish your instructors a very Morry Christmas and a Happy New Year.
