**NEBRASKA WILL SEND REPRESENTATIVES TO W. I. W. F. G. A. MEET**

**Crowd of Ten Thousand Is Expected at Annual Event at Columbus, Ohio.**

Annual championship matches for the Western Intercollegiate Wrestling, Fencing and Gymnastic association will be held at Columbus, Ohio, March 16 and 17. Nebraska will send a small gymnastic team, a fencing representative, and, if they can qualify, some wrestlers.

The four best wrestlers in each class are picked by a committee of the W. I. W. F. G. A. If Trautman and Renner can finish the season without being thrown, they will undoubtedly be selected. The men who lose only one match during the season have a bare chance of being picked.

The Ohio University promoters are enthusiastic over the tournament. A crowd of ten thousand is predicted for the championship matches.

The Nebraska wrestlers left this morning for Minneapolis, on the 5:30 Burlington.

**"Up in the Clouds" at Orpheum March 2 and 3**

An important theatrical event of the season is the engagement of "Up in the Clouds", which comes to the Orpheum for two days, March 2 and 3, with a matinee Saturday. It is a new musical comedy produced under the personal direction of Jos. M. Gaites, and written by Will B. Johnstone, who is responsible for "Take It from Me", which has delighted theatergoers for the past two seasons.

"Up in the Clouds" contains the most whimsical humor and scintillating dialogue that has yet emanated from the pen of this brilliant youth author, and comes to this city bearing the stamp of approval of a six months' run at the Garrick theater, Chicago, and at the Lyric and 44th Street theaters, New York, where it ran for one solid year. No higher recommendation could be given this excellent attraction.

As is the custom with a musical comedy bearing the Gaites trademark, "Up in the Clouds" will contain many novel features, one of the most amazing being the "cloud" scene in the first act, out of which appear the different characters of the play. So natural are the clouds reproduced by the army of electricians that the audience sit spellbound until released by the enchanting music, which is from the pen of Tom Johnstone.

**Engineers Hear Labor Secretary**

Frank Coffey spoke to the Engineering Construction class Wednesday morning on Labor Unions. Mr. Coffey was former commissioner of labor for the State of Nebraska, and he has been secretary of the State Federation of Labor for about fifteen years. His talk gave the class a great many ideas and quite a lively discussion followed. He will speak again on Thursday afternoon at 2:30 in the M. A. 106.

Women students at Oxford will have to devise a new way of entering their rooms when "playing truant" after hours. Three-foot spiked railings have been placed on the boundary walls of several colleges where the young women live.

The recent custom of the feminines undergraduate, according to reports, has been to slip out after dark and return later via the garden wall and the broad back of her escort.—Indiana Daily Student.

Mr. F. Peterson (A. B. '07), has just issued the third edition of his Flora of Nebraska. This very attractive book of 220 pages contains a list of the ferns, conifers, and flowering plants of the state together with the keys for their identification. This is the third and most complete edition of this important contribution which has been useful to students in the classification of the native plants of Nebraska. The form of the book follows the Besseyan System of classification.

The night that John and I became engaged, he reminded me of a baseball player on a wet field.  
How's that?  
He slipped on the diamond.
