LINCOLN, NEBRASKA, THURSDAY, APRIL 19, 1923

PROGRAM FOR PHARMACISTS IS OUTLINED

Picnic and Banquet Are Feature Events of Annual Week for Pharmacy Students.

ARVID EYTH TOASTMASTER

Convocation Wednesday Morning Opens Event of Year for Members of College.

PROGRAM FOR PHARMACY WEEK.

Thursday, April 19.
Pharmacy Night. Pharmacy Building open to public from 7 to 9.
Friday, April 20.
Picnic—Meet at Pharmacy Building 9 a. m.
Saturday, April 21.
Annual banquet at Grand Hotel. 6 p. m.

A picnic and the annual Pharmacy College are the high points on the program for Pharmacy Week following the celebration of Pharmacy Night tonight.

A convocation of all students in the college was held Wednesday at 11 o'clock as a starter to the events of the week. Dr. F. W. Upson, of the Department of Chemistry, and Prof. J. B. Burt, of the Pharmacy College, were the main speakers. Mr. C. R. Sherman, of Omaha, who was to be present. College spirit was in evidence throughout the whole meeting and chairmen of the committees for the events of the Pharmacy Week, were enthusiastic over the start made.

Professor Burt stresses the importance of Pharmacy Night as a means of bringing the work of the college and profession before the public in a true light. Dr. Upson spoke on the topic, "The Relation of Pharmacy, Chemistry, and Medicine." The evolution of the drug was used to bring out striking points in the address.

Friday will be a gala day for the men and women of the college who are expected to meet at Pharmacy Hall at 9 o'clock in the morning for the picnic. The place for the picnic is being kept a secret by those in charge of the affair. Attractions which will be the envy of the students of the other colleges of the University are promised. All students and members of the faculty as well as a few specially invited guests will be present on the Friday excursion.

The oldest tradition of the Pharmacists is the annual banquet, which will be held this year on Saturday evening at the Grand Hotel. Its program will be the last event on the program of the week. One hundred per cent attendance is the aim of the committee of students directing the arrangements.

Arvid Eyth will be toastmaster for the evening and will call upon the following speakers: Chancellor Sammie Avery, Dean R. A. Lyman, R. A. Clitick, manager of Pharmacy Week, and L. L. Smutz.

Miss Helen Redford and Miss Esther Lyman will give vocal solos and Victor F. Prokop will give a selection on the violin.

Former Instructor Writes for American Pharmacy Magazine

A recent issue of the Journal of the American Pharmaceutical Association contains an article on research work of Dr. Albert Schneider, who was an instructor at the College of Pharmacy last year. The work which Dr. Schneider reports upon was done while at the University of Nebraska.

His article is on the action of cannabis when taken in toxic doses. Cannabis is commonly considered as a poisonous drug but it has long been used by the natives of India in large doses as a narcotic. Dr. Schneider is now located at the North Pacific College of Pharmacy at Portland Oregon. He is recognized internationally as an authority in Pharmacognosy and Criminal Microscopy.

Many Courses are Added to Pharmacy College Curriculum

A new course in Chemistry and Microscopy of Body secretions has been added this year to the curriculum of the College of Pharmacy. This course is a laboratory study of the stomach contents, and glandular products of the human body. Every year new courses are being added in this college. The biggest addition was a course in drug manufacturing last year. Machinery was purchased in order to give general training in the principles of commercial manufacturing of medicinal preparations.

The additions made to the curriculum of the Pharmacy college course is indicative of the growth of the college which has been a steady one during the past eight years. The new courses have proved popular with the students and the demand for a still further enlargement is being made by the undergraduates.

NURSES FROM OMAHA GUESTS OF UNIVERSITY

Visit Agricultural College and Are Entertained at Luncheon by Mortarboards.

Ten junior nurses from the University Hospital at Omaha were guests of the University on the city campus yesterday. A tour of the campus and a visit to the Agricultural College were a part of the program outlined for the day. The delegation returned to Omaha last evening.

Mortarboard entertained the nurses at a picnic Wednesday afternoon. Members of Vestals of the Lamp, honorary Arts and Sciences College organization of girls, acted as hostesses to the visitors in their inspection trip around the campus. Administrative offices, the Museum, the stadium site, buildings on the campus of the College of Agriculture, and points of interest near the campus were visited during the morning.

A luncheon honoring the Omaha girls was given by the Vestals Wednesday noon. Following are the visitors: Helen J. Muir, Luella E. Keller, Carol Rogers, Ruth L. Bartholomew, Esther Mae Scott, Mary L. Jones, Mary M. Rice, Lilla M. Rick, Esther Daggett, and Maxine Maxwell.

A report of the activities of the Nurses Hospital, operated in connection with the College of Medicine was given by the delegation. The Hospital forms the largest and most important unit of the group of buildings constituting the college. It forms the center around which all the activities of the various departments are grouped.

The hospital is thoroughly modern. It contains 130 beds and is equipped to handle a great variety of cases. Over 2200 patients were received in 1921 from the several counties of Nebraska. They are admitted on the application of a legally qualified practitioner of medicine. The control of the college rests wholly with the College of Medicine.

O. J. Fee Makes Initial Talk for Teachers' Course

"Clean the City Limits" was the subject of the lecture given by Mr. O. J. Fee Wednesday morning. This was the first number on the lecture course under the auspices of the Teachers' College.

Mr. Fee referred especially to economic life and the necessity of cleanliness in every sense of the word in industry. He advocated clean government, clean politics, and a clean social manner.

Mr. Fee emphasized the value of knowing people, and the importance of the personnel of the staff of employees in any business concern, illustrating his points from his personal experience. He counts service and consideration for others as most valuable assets.

If she seems to gargle it instead of singing it, it is called a classical number.

PHARMACY HAS MADE STRONG GROWTH HERE

First Organized as a College in Spring of 1915—Early Classes in Nebraska Hall.

GROW PLANTS FOR DRUGS

Dean R. A. Lyman Placed in Charge of School of Pharmacy and Helped Develop College.

First organized as a college in the spring of 1915, the College of Pharmacy is one of the newer colleges on the campus. Before 1915 there had been a school of Pharmacy. This school was brought into existence in 1908, when a group of men interested in Pharmacy succeeded in getting the Board of Regents to establish it.

The first year eleven students registered in the School of Pharmacy. By hard work of those in charge the school gradually developed. In 1915 this development had been such as to insure the success of the venture. In that year the Legislature, by a special act, established the College of Pharmacy of the University of Nebraska.

The early Pharmacists went to classes in the basement of Nebraska Hall. This location was soon outgrown and the college was hampered because of lack of space. In 1917 the new Chemistry Building was completed and the old Chemistry Hall vacated. This building was then turned over to the College of Pharmacy.

Today the College of Pharmacy occupies all of the old Chemistry Building, and there are over 100 students registered in the college. On the University campus the College maintains a medicinal plant garden which is used for teaching and experimental purposes. About 25 species of plants are being cultivated in the garden and 25 species of tropical drug plants are being grown in the University greenhouse.

The College of Pharmacy is a member of the American Conference of Pharmaceutical Faculties. Membership in the conference is limited to the best American schools as determined by their standards for entrance and examination. The credits of the College of Pharmacy are recognized by all first class schools of Pharmacy and by all state examining boards. The pharmacy law of Nebraska permits graduates of the four year course in Pharmacy to register in the state without store experience.

Dr. P. A. Lyman is one of the men who has been influential in the organization of the College of Pharmacy.

College of Pharmacy Drug Plant Garden Furnishes Many Crude Drugs

The College of Pharmacy secures its supply of crude drugs from its own garden. The idea was conceived by Dr. Lyman a few years ago and Miss Elsie Day, a former instructor, from a small beginning in 1915 developed it until 110 drug-producing plants were grown. In 1918 Miss Day resigned her position and this coupled with the many interferences of war-time conditions caused the garden to deteriorate.

At the present time the garden is in charge of Mr. Lewton, who is endeavoring to build it up to its former conditions. This year the garden will contain about 100 plants. In addition to these there will be about 14 greenhouse plants.

What is believed to be the first course of its kind to be offered in any school was established here in 1917. It consists of the study, raising and preserving of crude drugs.

While there are many commercial drug gardens at the present time there are few gardens indeed in which practically every plant producing a well known drug is represented. As many as thirteen varieties of a single plant, digitals, has been grown, and when it has been recalled that 110 species of plants have been grown, the magnitude of the undertaking is apparent. Practically every corner of the country has been

Students Frequent Health Department in Large Numbers

One of the busiest places on the campus is the Student Health Department in Pharmacy Hall. It keeps a doctor and a nurse busy every day looking after the health of the University students. Three doctors, Dr. C. Philbrick, Dr. F. G. Harms, and at various times during the day, Miss Dykema, the nurse, is kept busy. Dr. A. H. Webb are in the offices all of the time. So far this year 1326 girls have received treatment at the dispensary. This is only about one-third as large as the number of boys who have been treated. Three thousand seventy-four men have been treated so far during this school year. The total number of men and women treated and examined is 6052. This means that, on an average, 30 to 40 people are treated every day.

TICKETS GO ON SALE MONDAY FOR COMEDY

"Taming of the Shrew" Will Be Presented by University Players April 27 and 28 at Temple.

Tickets for "The Taming of the Shrew" which will be presented by the University Players April 26, 27, and 28, will be placed on sale April 23 at the Ross P. Curtice Music Company. There are a number of good seats to be had in addition to the regular season tickets. This is the last play which will be given this year by the Players.

It has been the custom of the Players to present at least one Shakespearean play each year. These plays have been successful in every way, and have proved to be among the most attractive numbers on the program of the year. "A Winter's Tale" was given last season.

In "The Taming of the Shrew" Players feel that they have chosen a comedy which has stood the test of time, popularity, and criticism. It has been said the comedies come and comedies go, but "The Taming of the Shrew" goes on forever.

The rehearsals in preparation for the production promise a presentation of the "taming process" at its best.

Philadelphia—The light cruiser Trenton was launched from the Cramp ship yard Monday.

Every season has its delights. The auto tourists can't smell flowers along the way now, but he can smell hot dogs.

THIRD ANNUAL PHARMACY NIGHT WILL BE OBSERVED THIS EVENING

Students Have Been Busy All Week Preparing Exhibits and Samples of All Kinds of Tooth Pastes and Hair Oils Which Will Be Distributed Tonight—Many Special Features.

EXPERIMENT OF DRUGS ON FROGS WILL BE SHOWN

Illustrated Lectures on Cultivation and Preparation of Drugs Will Be One Feature and Demonstrations of Blood-Pressure and Perspiration Tests on Program.

The third annual "Pharmacy Night" will be celebrated tonight when the Pharmacy Building will be open for inspection to the public from 7 to 11 o'clock. The Committee in charge requests the public to enter by the south door in order to avoid congestion. Several special exhibits more for entertainment than for instruction will be one of the features of the evening. Bottles of Cornhusker Rose Lotion will be given away as favors.

The freshmen pharmacists will give exhibitions in preparing different drugs in familiar forms, such as pills, capsules, solutions, and powders. Analyses of different drugs will be made. A tablet-making machine turning out 125 tablets per minute will be in operation. There will also be a mechanical Drug Mill grinding one ton of drugs in eight hours. The Physiological and the Pharmacology laboratories will be open for inspection.

Experiments showing the action of drugs on frogs are included on the program. Demonstrations of blood pressure tests and of perspiration tests will be made. The methods of microanalyzing drugs will be illustrated. In one part of the building an illustrated lecture on the cultivation and preparation of drugs will be given. There will be displays of crude drugs.

Pharmacy Night as a part of Pharmacy Week is a recent innovation. It was started three years ago. Although conducted as an experiment, it succeeded, about 2,000 people viewing the displays. Last year over a thousand people inspected displays that included all phases of Pharmacy.

This year the committee in charge promises a more thorough exhibit than has been staged before. The displays have been arranged so as to be very self explanatory. Programs have been prepared to guide the public through the building.

General Manager—R. A. Chittick. Advisory—Prof. J. B. Burt, Prof. Lewton, F. S. Buckley, Dr. Lyman, J. G. Noh.

Convocation—R. L. Welmer, Anne Herney, M. C. Mayo.

Picnic—Esther Lyman, Robert Kirkman, A. C. Buck, Joe Shainholtz. Banquet—J. G. Noh, Phyllis Roberts.

Decorations—Leona Crawford, John Frick, George Carpenter, Marie Walker, Helen Dryden, E. B. Hackett, Chas. McManus, Lois McManus, Claris Bellinger, Max Mikkleson.

Publicity—F. L. Stribling, Dean McMillan, Dale Reynolds, Leonard Hauserman, R. Lewis. Pharmacy Night—Chas. Wible, Gilbert Noh, Palmer, Paul Thompson, H. S. Burdick, J. H. Murray.

Music—C. C. Ryan, Grove Bixby, Wm. Prout, Victor Prokop, Tom Gardner.

S. A. Sanderson Tells Commercial Club of Merchants' Problems

"Present Day Merchandising Problems," will be the subject of Mr. S. A. Sanderson, vice president and general manager of Rudge & Guenzel in an address to the University Commercial Club, Thursday at 11 in the Social Science building 303. Because of his past experience with the purchasing end of Rudge & Guenzel, Mr. Sanderson is in a position to understand merchandising problems. He will tell of these problems and of their proper solution.

Appoint Managers in Basketball and Cinder Path Sports

H. Stephen King of Omaha was officially appointed as Student Manager in track at a meeting of the Athletic Committee yesterday. He is a Junior in the Business Administration College and a member of Phi Gamma Delta.

Arthur Latta was named Junior Assistant Manager for basketball. He will succeed Carl Kruger, present manager, next fall. Latta is a sophomore in the Arts and Science College and is a member of Phi Gamma Delta. His home is at Tecumseh.

Harold Gish Draws Prize Kosmet Klub Advertising Poster

Harold Gish, 25, Lincoln, is winner of the prize offered by the Kosmet Klub for the best poster advertising its 1923 musical production, "The Yellow Lantern." The poster contest was conducted in the School of Fine Arts. All the posters entered in the contest were given to the Klub and are now on exhibit. Some of the posters are on the bulletin board in front of U-Hall and the others in downtown windows.

FINE ARTS COLLEGE TO HAVE CONVOCATION

Alpha Rho Tau Will Announce New Elections Tomorrow—Musical Program Is Planned.

Annual Alpha Rho Tau elections will be announced at the Fine Arts convocation tomorrow at a recital given by advanced students in music. Corresponding to Phi Beta Kappa in the College of Arts and Science, Alpha Rho Tau elects a group of Seniors to membership at an annual convocation. Only those that are to receive the degree of Bachelor of Fine Arts or those that are majoring in the College of Fine Arts and receiving a Bachelor of Arts degree are eligible for membership to Alpha Rho Tau. This is a local fraternity having been founded at the University of Nebraska three years ago.

Students from the College of Fine Arts will give voice and instrumental recitals. Following is the announcement of the musical program:

- I. De Vieni Non Tardar—from De De Nozze de Figar.....Mozart
Amy L. Martin
Accompanist, Nita Samek
Student with Walter Wheatley
- II. The Hymn to the Sun.....Rimsky-Korsakov
Arranged by Kreisler
- The Elf in Dance.....Smetana
Elizabeth Luce
Student with Carl Steckelberg
- III. Lieberstraum.....Liszt
Bernice Thilma
Student with Mrs. Jones
- IV. Elizabeth's Prayer, Tanhauser.....Wagner
When a Lad Comes Young and Slender, Der Freischutz.....Weber
Martha Harder
Accompanist, Mrs. Leta Smalley
Student with Clemens Movius
- V. Clave de Lune.....Debussy
Polonaise Americaine.....Carpenter
Helen Tanner
Student with Herbert Schmidt

Europe will find it much easier to balance her budget if she will keep her head level.

An old-timer is one who can remember when it was an insult to call a man effeminate.

(Continued on Page Four).
