Track, the international sport, was supreme at the State Fair Grounds all day yesterday, when the Nebraska track team defeated the Haskell Indians in a dual meet, and the state high school track teams, almost forty in number, competed in the twenty-first annual Nebraska high school meet. Beginning at 11 o'clock in the morning, when the field events of the Haskell-Nebraska meet were held, an almost uninterrupted string of track and field events were run off until six o'clock in the evening.

The two features of the great cinder path and field program held at the Fair Grounds Saturday were the smashing of the Nebraska and the Missouri Valley javelin record by "Chick" Hartley, and the breaking of the high school 880-yard run record by Hubert Franck of Tobias, who covered the distance in 2:01 9-10. The former high school record in the half of 2:03.2 had stood since 1910.

Hartley threw the javelin 189 feet 6 inches Saturday morning in the Indian meet. This is over 16 feet farther than the former Nebraska record of 173 feet, 4 inches, made by Schoepel last year. The other outstanding performance in the varsity meet field events was the great throw of 138 feet 4 inches in the discus by Auge of Haskell. His mark was over four feet better than the Missouri Valley record.

PRESIDENT OF AMHERST TO LECTURE SATURDAY

Dr. Meiklejohn to Give Annual Address of Phi Beta Kappa and Sigma Xi Sororities.

The annual lecture of the Phi Beta Kappa, and Sigma Xi, societies, of the University of Nebraska, will be held next Saturday evening, May 19, President Alexander Meiklejohn of Amherst University will give the lecture. "Democracy and Excellence" is the subject.

Professor Meiklejohn, is a native of England, and a graduate of Brown University. He has a Doctor of Philosophy degree from Cornell. From 1897 to 1912 he was a professor of philosophy at Brown. In 1912 he was called to Amherst to be professor of Logic and president of the University. He is a member of both Phi Beta Kappa, and Sigma Xi, President Meiklejohn is a recognized leader of American collegiate education and has been in great demand for addresses before learned societies. He is the author of "The Liberal Education". The public is invited to attend the lecture.

Reformers are useful, but as a means of promoting virtue they are not as efficient as old age.

CORNHUSKER NINE EVENS UP SERIES

Captain Frank Carmen, Pitching for Nebraska, Allows the Cyclones but Three Hits.

The Cornhuskers defeated the Iowa State baseballers from Ames Friday at Rock Island ball park and again broke even on the weekly two game series. The final count was 8 to 3. On the previous day the visitors won 5 to 4.

A drizzling rain which lasted for the first four innings prevented any exceptional displays of baseball ability by either team. Only about twenty-five people braved the inclement weather to see the contest.

Captain Frank Carmen, who has had a stiff arm for the past several games, was on the mound for Nebraska. He allowed only three hits to the visitors while the Huskers found the offerings of Durland, Ames, pitcher, eleven times.

The box score:

Dr. Laura B. Pfeiffer of the University of Nebraska is the new president of the State Historical Teachers' association which was in session here Friday evening and Saturday morning. Prof. J. E. Taylor of Doane college at Crete was elected vice-president and Miss Margaret Davis of Lincoln secretary-treasurer. Dr. Pfeiffer suggested Omaha as the meeting place next year, but the place will be decided definitely later.

The session opened with a dinner at Ellen Smith hall with sixteen present. Friday evening Prof. N. A. Bengston lectured on "The Economic Factor in International Affairs," and Dean P. M. Buck, who has recently returned from India where he was exchanged professor, spoke on "The Present Condition of India."

Professor Rose B. Clark, of Wesleyan university, Prof. J. D. Hicks of the North Carolina college for Women at Greensboro and Prof. Jacob Warsaw of Nebraska university were the speakers Saturday morning.

Professor Hicks spoke on the Piedmont area and especially North Carolina as typical of the Southern states. He said that the growth of manuf-

turing industries in this section in recent years has brought about an improvement in conditions of living. The poor white people are now in factories instead of farming in a shiftless way and are better off for the change. Professor Hicks spoke at length about the negro problem. He said that the colored people have changed a great deal since 1890 and most people don't know the modern negro.

Coeducation is not particular in North Carolina, according to Professor Hicks. Only about seventy women attended the University of North Carolina which is primarily for men while the North Carolina College for Women is its equivalent for women. He said that the south has not accepted women on terms of equality with men but still holds them on a pedestal of man's making.

While the south is still controlled by the democratic party. Professor Hicks said that the manufacturing interests are backing the republican party.

Professor Warsaw spoke on Latin-American culture. He said that few people in the United States realize

the progress that Latin-America has made in a cultural way. He named a large number of Latin-Americans who are internationally prominent in the arts, sciences and law. He said that the influence of their normal schools has been very important and that our normal schools have much to gain from a study of theirs.

Professor Clark's topic was Topography, a Factor in History."

About thirty history teachers attended the lectures. Among those from out of town were Miss Edith Field of Omaha, Miss Amanda Sundean of Minneapolis, Miss Eliza Gable of Beatrice and Professor Taylor.

Lives of great men oft remind us that one need not be a sage—that the only thing essential is a headline on first page.

At this rate it won't be 200 years until all the people have political jobs and make a living by taxing one another.
