#### ECKERSALL SAYS DEFEAT BY ILLINI GOOD FOR NEBRASKA

(Continued from Page 1)

for the boys in there today showed that they had the makings of a great line. The Illini team got the breaks, otherwise the score would have been different. I look for a great development in the Nebraska team before the Notre Dame game."

Husker fans at Nebraska have always taken the attitude that one defeat ruins the season. It is time that Cornhusker supporters get away from that mistaken impression, and look at the football season as a whole.

Every great team suffers defeats, and few are the teams that go thru the season undefeated. That a defeat should come so early in the season is fortunate for Nebraska, for it enables the Husker coaches to determine the weaknesses of the team, and to eliminate them before the big games of the season are played.

The 24-to-7 score is not a true indication of the way the game went, for the breaks were against the Cornhuskers. During the first quarter the honors were even, with neither team scoring, although a fumble was probably all that kept Nebraska from scoring in the first few minutes of play when they had the ball on the Illinois 25 yard line.

In the second quarter, Illinois, aided by another break, outplayed the Husker team and scored a touchdown and a field goal. The break resulting in their touchdown this quarter happened when Dewitz, on receiving a punt, started to touch the ball to the ground, thinking he was behind the goal line, then perceived too late that he was on the 3 yard line, and was downed.

Lewellen kicked from behind goal, Grange ran the punt 25 yards back to the Nebraska 5 yard line, and went over on the next play for a touchdown.

At the beginning of the third quarter, with the score 10 to 0 against them, Nebraska took the pigskin and marched down the field to a touchdown, Lewellen making a long end run which took the ball to the Illinois 10 yard line, and Dave Noble carrying the ball across the goal line on a long end run after three attempts to pierce the Blue and Gold line had failed.

At this time in the game it looked as though Nebraska might win, for their playing was showing a great improvement.

But in the last quarter again Illinois delivered a seemingly impossible catch of a 30 yard forward pass by Grange, and spectacular 65 yard return of a punt by Grange.

The forward passing of the Husker team during the game was pitiful. Out of about eight attempted passes by the Scarlet none were completed, and two were intercepted by Illinois. On the other hand, Illinois completed two passes for long gains out of about six attempts.

The following are the four main factors which contributed to the defeat of the Huskers: (1) the green Husker line, which was fairly strong on the defensive, but weak on the offensive; (2) the breaks of the game favoring Illinois throughout the contest; (3) the versatile attack of the Illini; (4) Illinois having a

great team, which will make a strong bid for "Big Ten" honors this year.

Jere Michel, the other freshman candidate, is connected with the Pi Kappa Phi fraternity. He is doing dramatic work.

### Each Taxpayer Spends Forty Two Cents For Summer School

(University News Service) Nebraska taxpayers paid but 42 cents to maintain each of the 3,400 students who attended the 1923 summer school, according to the statement of Chancellor Avery, made on the basis of figures recently compiled. The non-duplicated enrollment in the summer session increased from 2,866 in 1922, to 2,569 in 1923—an 8.5 per cent increase. The budget was increased to \$31,523.62 in 1923, 15 per cent more than the year before, while student fees show a 41 per cent increase, totaling \$30,461.56. It is expected that with a continued enlargement of enrollment on the new schedule of student assessment, next year will find the summer session maintained with no cost to the taxpayers, and with a surplus over expenditures sufficient to defray part of the general expenses of the University.

P. A. Downs, who took the degree of doctor of philosophy (dairying) from Cornell University, has begun his duties as an assistant professor of dairying in the College of Agriculture.
