Additional meetings must be held before 8 p. m. or on Friday or Saturday night.

All University parties, formal and informal, shall close not later than 11:30 p. m.

All parties where women are present shall be officially chaperoned. Notice of such parties shall be given to the dean of women and the names of the chaperones submitted to her for approval at least two days in advance, preferably on Monday preceding the party. At all entertainments not given in private homes or organization houses, members of the University faculty are to be included chaperone parties.

Mr. Selleck discussed the following rules:

The number of complimentary tickets issued by any organization is limited to five in addition to those for the chaperones. Any number in excess of this amount must have the approval of the chairman of student organizations. The names of the holders of complimentary tickets must in each case be published in the Daily Nebraskan in advance of the party. Also it is understood that complimentary tickets are issued with the agreement that in the event that the party creates a deficit the holders of complimentary tickets pay for them at the regular price.

No class or other organization of students of the University of Nebraska shall be permitted to give any entertainment of any character which requires expense or charges admission until former debts contracted by said class or organization of students have been paid in full.

The agent of student activities shall have authority to require an organization to file a financial statement showing the estimated expense of revenue of a proposed activity. If, in his judgement, the activity is unsound he may require the placing of a bond guaranteeing payment of any deficit before the organization shall proceed.

ENGINEERING SOCIETY MEETS AT NEBRASKA

Kansas-Nebraska Section Assembles in Lincoln Friday and Saturday.

The Kansas-Nebraska section of the Society for Promotion of Engineering Education will hold its annual meeting at the University of Nebraska beginning with a session this evening at 8 o'clock in room 206 of the Mechanical Engineering building. The subject for discussion at this opening session will be "Research as a Means of Developing Young Teachers."

The second session of the annual meeting will be held tomorrow morning at 8 o'clock in the Agricultural Engineering hall on the Agricultural College campus. The subject for discussion Saturday is to be "Summer Employment for Engineering Instructors." This meeting will adjourn in time to allow those present to take part in the new Memorial Stadium dedication at the city campus.

Large representations are expected to attend these sessions from the Kansas State Agricultural College and from the University of Kansas. The annual engineering conference was set at this time to enable representatives to make a single trip with the football contest as an added attraction.

DENTAL COLLEGE NEWS

Tuesday evening Dr. B. L. Hooper, chairman of the prosthetic department of the Dental College, appeared on the program of the Northwestern District Dental association at Kearney. He spoke on the construction of metallic trays for individual impressions, and gave a complete demonstration of the process.

The instructors in the operative department of the college held their weekly study-club Wednesday at the clinic. The purpose of this club is to enable them to standardize their ideas of instruction and demonstration. A meeting is held every week and the results of them are seen in the co-operation and uniformity of the students work.

The Dental Students' Association also met Tuesday night. This was the first meeting of the year, and plans concerning the policies of the association for the year were discussed. Altho nothing definite was decided upon, arrangements were made for the game Saturday, and the Dental College will attend one-hundred percent strong. This is to be accomplished by holding clinic only from ten to twelve in the morning and from 12:30 to 1:30 during the noon hour.
