

Dental College Notes.

Dr. F. W. Webster, chairman of the prosthetic department of the College of Dentistry, presented a paper at Table Rock, Tuesday morning, before the Southeastern District Medical Society of Nebraska. The subject of his talk was "Mouth Examination." In his paper he described what a complete examination of the mouth by the doctor of medicine should constitute and the relation between the dental and medical profession on the subject of focal infection. This was the second of a series of lectures which Dr. Webster will deliver before the dental and medical associations of the state during the winter. Dr. Webster was accompanied on his trip by Dr. E. R. Truel and Dean Grubb.

Yesterday the Dental College was honored by a visit from Dr. L. L. Statler, professor of orthodontia at the College of Dentistry, Creighton University, Omaha. Dr. Statler gave a short demonstration at the clinic and during the remainder of the time studied the methods of instruction and demonstration used here.
