

HUSKERS IN TRIM FOR AMES QUINT

Cage Team to Meet Valley Cellular Holders in Wednesday Fray.

JAYHAWK FIVE FEELS ASSURED OF PENNANT

MISSOURI VALLEY STANDING.			
	w.	l.	pt.
Kansas	12	1	.923
Oklahoma	12	3	.800
Nebraska	8	5	.615
Washington	8	6	.571
Drake	5	7	.417
Kansas Ag.	4	8	.333
Grinnell	4	9	.308
Missouri	4	10	.289
Ames	2	10	.167

Scrimmage with the freshman team last night at the coliseum completed the major part of Husker preparations for the game tomorrow with Iowa state at Ames. A light limbering up basket practice in the Armory this afternoon will finish the workouts. The team leaves for Ames Tuesday at midnight.

Ames is the cellar holder in Missouri Valley standing. The Iowans have played twelve games this year, ten of which ended disastrously. Last year Nebraska beat Ames by a good margin, and the indications point to a similar Nebraska victory tomorrow night.

The Husker victory over Washington last Friday put Nebraska in third position in Valley standing, but the Washington victory over Kansas Aggies the following night at Manhattan placed the Pikers only one game behind Nebraska and within striking distance of third place.

Washington plays the Aggies gain tomorrow on a St. Louis floor, and if the Pikers should win and Nebraska lose at the same time, Washington would again be third place holder in the valley, one game ahead of Nebraska.

Kansas University has a tight grip on first place in the Valley race, and only a row of defeats in the remaining games of the season, with a victory at the same time by Oklahoma in its last game tomorrow with Grinnell at Norman could pry the Jayhawks from the pennant position they have occupied for the last three years. This is unlikely as Kansas plays second division teams in the last three games, and can afford to lose one of the games and still remain in first place.

The latest individual standing of players in the Missouri Valley conference shows Goodson of Nebraska in tenth place with 83 points to his credit. Cozier follows five places lower with 72 points for the season, and Billy Usher comes farther down the list with 59 points. McBride of Oklahoma and Benz of Grinnell are two high men competing for first Valley honors. McBride is leading the Grinnell man ten points, but Oklahoma plays only one more game and Grinnell plays three more, which will probably put Benz in the lead when the final figures are compiled.

CHANGE HIGH SCHOOL CREDIT REQUIREMENTS

Large Number of Three Year Junior Class Schools Makes Reduction Necessary.

The entrance requirements into the University from the high schools of the state have been supplemented to meet the need of the students graduating from the senior high schools. As the former requirements stood, there was no provision for the graduates.

The plan was first presented to the Association of School Executives which passed favorably upon it at its meeting at Grand Island two weeks ago. The Association recommended that the new requirements be installed immediately so that the graduates of the affected schools might be admitted under them this fall.

The new admission requirements were then passed upon by the committee on entrance requirements, and by the senate. Special meetings of the faculty of each college voted to install the new regulations immediately and they will be in effect for the registration for the first summer session.

Because of the large number of three year schools in the state it was found necessary to frame an alternative plan to accommodate the graduates of these schools. New junior high schools are being built in all the larger towns of the state and under the present admission requirements the credits received in the school would not be accepted by the University. The new plan eliminates the need of credits from this school.

TEACHERS NEEDED FOR PHILIPPINES

Teachers for the Philippine Islands are much in demand according to the bureau of education and the secretary of public instruction in the Philippines. Teachers of high school English are in most demand, although there is a need for a few primary specialists or model primary teachers. Entrance salaries are usually about \$1500 or \$1600.

Vice Governor General Eugene R. Gilmore, who is ex-officio secretary of public instruction, left the islands early in February for a three months visit to the United States in the interest of education in the Philippines. His chief object, he said, was to secure teachers for the ensuing school year which begins early in June and ends late in March. More than seven million dollars was appropriated by the last legislature for the support of the public schools this year.

All applicants for the high school positions must have had the education, training and experience specified in one of the following groups:

- Four years of attendance at a college or university and one year
