Sport Briefs.

Seven K's were awarded Kansas basketball players at Lawrence last week. Tusten Ackerman, center and forward was elected captain of the 1925 team. Ackerman finished third among Valley forwards with 141 points for the season. Captain Black is the only letter man who will be graduated this year. The chances of a fourth consecutive championship for the Jayhawk school look good. There are six letter men who will report for the team next year, and the substitutes this year were considered exceptionally good. The freshman squad also had some good material.

The seventeenth annual Kansas

Shopping With Charlotte

If it's something new to wear
Or a place to go, or thing to eat
We bring these items to your home
And lay our service at your feet.

Make Your Easter Plans Now.
Easter is not very far away, so you should begin selecting your Easter remembrance. George Bros. have gifts symbolical of this season that will please your friends of either sex or of any age. They have a most attractive array of cards that you are sure to like. For Easter parties they have unusually clever favors. Besides many new ideas in rabbits, chicks, and Easter eggs, they have a very novel Easter bird.

A Hat For Vacation.
When you go home for spring vacation you want to look your best. You cannot be really smart unless you have a chic new hat to go with your other clothes. Ben Simon & Sons have some darling little sport hats priced from \$3.85 to \$7.50. They are of felt, straw or silk combinations. The magpie colors, black and white, are extremely clever. Besides these they are making a special showing of dress hats at \$10.

Beads From Paris.
While you are thinking of new clothes you want to think of new ornaments also. Harris-Sartor's have some wonderful new beads and earrings that come to them from Paquin. There are strings of amber and of amethyst, lapis lazuli and Russian malachite, and of the fascinating cut crystal. A person would indeed be hard to please if she could not find the strand for any gown here.

Spring Coats for Spring Days.
The bright days we have had this past week make us realize that we have very little cold weather left. We can think of leaving winter coats at home and donning the light ones of spring. Gold & Co. are showing some exceptional values in spring coats. Their buyer is in New York and has just sent a shipment of coats which are selling at \$19.50 and 29.50.

Instead of Afternoon Tea.
About four o'clock, or after an afternoon movie one always likes to eat. I can give you no better suggestion than to drop in at Rector's for a sundae or a malted milk. They have sundaes of all kinds from the plain chocolate to the most complicated one could desire and their malted milks are always delicious.

high school track and field meet will be held at University of Kansas, Lawrence, from April 18 to 21. Teams making certain time qualifications will be allowed to compete in the Kansas relay events later in the spring open to all high schools of the United States. The high schools are grouped in two classes, those of 200 or more students are in class A, and those with less are in class B.

Coach Zupke's chief worry in spring football at Illinois this spring is plugging up the gap left in the line by the graduation of McMillen who played a tackle position. Zupke is stressing line work in spring practice in hopes of developing some good linemen from the freshmen and other new material. As yet his efforts have been unrewarded, and he has characterized the linesmen who are reporting for practice as slow. Illinois first game next fall will be against Nebraska at Lincoln, October 6th.

Miss Abbott Writes Book on Immigration

"Immigration," a volume of select documents and case records dealing with the journey of the immigrant, the admission, exclusion, and expulsion of aliens, and domestic immigration problems, by Edith Abbott, A. B., '01, has been published by the University of Chicago press. Miss Abbott is the newly appointed Dean of the Graduate School of Social Service Administration at the University of Chicago.

As one of the Board of Directors of the Immigrants' Protective League of Chicago, Miss Abbott gained a long first-hand knowledge of the work of a social agency dealing with immigrants. Her selections of documents has been made largely from official sources, and it represents, for the most part, reports that are out of print. This careful analysis of the immigration problem is expected to contribute a sound basis for further social work.
