THE DUTY OF THE CADETS.

The quality of the work done today and tomorrow by the cadets that comprise the R. O. T. C. unit of the University of Nebraska will be by far the greatest factor in the decision of the inspecting officers who are picking the twenty-five best units in the United States.

The officers that have been stationed here and who have been training the cadets all year have done everything in their power to whip the local unit into the best possible trim for the yearly inspection. They must now step aside and leave the fate of the unit in the hands of the cadets themselves.

Will you, cadets, be equal to the task? You are asked to give only two days of your time that the University of Nebraska be ranked alongside of the largest and oldest schools in the United States.

Nebraska has ranked high in military circles since General Pershing was commandant. The military department here is forty-eight years old and its improvement and development has been steady and continuous.

It is up to the regiment to so perform before the inspection officers that they report it as being one of the finest units in the country. Every cadet has a personal responsibility, the same as is borne by every member of a Nebraska team. That is to keep Nebraska among the leaders.
 Cadets, do your part.

THE LAST TOUCH.

After two months of hard work and constant practice, students of the University of Nebraska will appear in the "Wishing Ring," musical production sponsored by the Kosmet Klub.

The production this year is more elaborate than ever. The number of principles has been increased and the best talent in every line has been pressed into service. It is truly an all-star production.

Nebraska might well be proud of Cyril Coombs. He wrote the play. He composed the music and words. He helped pick the cast. He directed the show. To him, and members in the Kosmet Klub, is due the glory and praise.

The last dress rehearsal was held last night. All is in readiness and the large advance ticket sale is an indicator of the interest with which the campus awaits the show.

FIRST HOME GAME.

Our baseball team will engage in its first home appearance this afternoon when the Cornhusker nine meets the Kansas Aggie team. The Nebraska aggregation had a successful southern trip, winning its share of the games, and displaying a lot of good material. We have a good club this year and it is a balanced team.

The Kansas Aggies got away to a flying start and won two games from K. U. They have a strong nine and it should be a good game.

The game is at Rock Island park. Everyone should turn out to give the team the kind of support that was behind the football team last fall.
 Go to the game.

FOR MORE ADVANCED THINKING (The Daily Illini.)

Thought, especially when it is slightly out of the beaten rut that has been traversed by countless minds or when it is ahead of that of the realms that travel as one, is strangely negligible at the University. Our daily lives, our routine and our most intimate selves are all too wrapped up in the little details that go to make up our existence; we think of dates, of what kind of bob or shingle to get, of whether or not the Cubs won, and beyond that the majority rarely go

RAG CARPET

Beggar: Ah, man, I wasn't always blind.
 Lady: No, yesterday you were deaf and dumb.—Pele Mele.

Campus improvement suggestion: That the conservatory give only one lesson at a time hereafter.

Professor: I thought I saw a hand, but I guess it was just somebody gasping for air.

"Is this a portrait of your fiancée?"
 "Yes."
 "She must be very wealthy."

No, the plasterer's union is not holding a convention here this week. 'Tis merely the tennis tournament.

A concrete pincushion will be awarded to the composer of the most original excuse during the baseball season. References to grandmothers are barred.

"This match won't work any more."
 "Why."
 "It went on a strike."

except of course where the daily grind of studies takes them.

Illinois, they tell us, is the one institution in the middle west that has no radical group, or even no noticeable liberal group among the student body. At other institutions, we are told, these little groups congregate; they discuss Freud and other subjects, perhaps there is an occasional pacifist in the group, but at any rate they are thinking and are not in the accustomed rut.

Right here, perhaps, our readers are gasping. They are saying that such a group has no place in a University such as ours but we think that it might well have, although it has not in the past. The world is changing, our old prejudices and beliefs, our fears and tremors are slowly being ironed out in the face of facts and new ideas. They are talking of doing away with war, of a new brotherhood of mankind, of a New Youth Movement, and is not all idle talk.

Illinois, we think, might well foster such independent and forward thinking. It need not be radical in the sense of the yellowed press; it need not even be idealistic although ideals should be constantly present. It need only have as its motto, "New Truth, New Fields of Knowledge to Enter and Discuss."

Independent, advanced thinking is what has builded up our civilization to its present heights. Had not our forefathers dared to think differently and act differently in the face of oppression, our land would not be the glorious democracy that it is. It is this kind of thinking that is going to bring us constantly upward toward a few emancipation, an emancipation from present difficulties.

Illinois, we think, needs a liberal club and a free thinking group of students.

Notices.

No notices will be taken over the telephone.

BRITISH EDITOR WILL ADDRESS CONVOCATION

Sidney F. Wicks Will Speak Monday on "Labor and the Labor Party."

Sidney F. Wicks, one of the editors of the Manchester Guardian Weekly, will speak on "Labor and the Labor Party" at a general student convocation in the Temple theater, Monday at 11 o'clock. Prof. P. H. Grumann of the School of Fine Arts will have charge of the convocation.

Mr. Wicks has been actively engaged in educational, political and religious life in England and is well qualified to speak on this subject of current interest, according to Professor Grumann.

The Faculty Dinner club will hold a dinner Monday night at which the members will meet Mr. Wicks. Professor Pool, president of the dinner club, will be in charge.

Students in the School of Journalism will be given an opportunity through Prof. M. M. Fogg to meet Mr. Wicks.

ANGRY STEER INJURES AG COLLEGE STUDENT

Howard Farr Seriously Hurt While Trying Out Animals for Farmers Fair Contest.

Howard Farr, well known in western riding circles and a student at the Agricultural College, was seriously injured by an enraged steer while trying out some of those to be used for the wild west show at the fair, yesterday. The steer which was responsible will not be ejected from the steer-riding contest tomorrow.

"Demolisher," one of the wildest horses to be ridden Saturday, forced caretakers to shoot and kill him. Upon his arrival in Lincoln the animal went

mad and attacked another horse with such vehemence that it was necessary to take the drastic steps. This was a serious loss as the value of the horse was considerable.

on hand Saturday to attempt to unseat the entrants in the contest which is open to everyone. Wild Texas range steers for riding and bull-dogging purposes have been secured, while fancy roping will also help entertain the crowds.
