

VARSITY MEETS YEARLING TEAM

Gets Taste of Illinois Plays; Husker Squad Shows up in Better Shape.

MIELENZ GOES OUT WITH HURT ANKLE

The terrible freshmen again invaded the Varsity football camp Tuesday evening to give the Cornhuskers a sample of Illinois plays as observed by Assistant Coach Frank at the Illinois freshman-Varsity game.

The freshman combination, which proved so disastrous to the Varsity last Saturday, failed to function so well Tuesday evening; the Varsity had to redeem its prestige.

A jinx seems to be pursuing the Varsity squad which takes its toll in queer ways. Mielenz, halfback, who was playing halfback in place of Locke, out of the game with a bad ankle, was out himself Tuesday evening with an injury identical with Locke's.

Kamm Looks Good. Kamm was still at quarterback, and it looks very much as though the Colorado boy would be calling signals when the Illinois game starts. Bloodgood and Bronson, quarterbacks, were kicking and passing the ball.

Hecht, a strong defensive man, was at left halfback, in place of Locke and Mielenz. Rhodes was taking fullback on offense with Myers at end. On defense the two men changed places.

The teams lined up as follows:
 Freshmen Varsity
 McIntyre lb Robertson
 Raich lt Weir (C)
 Fischer lg Hubka
 James c Hutchinson
 Stribling rg J. Weir
 Harbergh rt Molzen
 Shaner re Myers
 Brown qb Kamm
 Karr rh Mandery
 Oelrich lh Hecht
 Drummond fb Rhodes

Weir Replaces Ogden.

J. Weir, brother of Captain Ed Weir, was playing right guard in place of Ogden. Ogden was out doing some roadwork in an effort to lose some weight. Robertson was back at end after a day's vacation, when R. Mandery filled his place.

Kase, tackle, was in the lineup in place of "Red" Molzen. Molzen had a little trouble with one eye, but was soon back in the lineup.

The practice was stiff, for there is little time left to whip the team into shape where it can successfully meet the plunges of Grange, Britton and Leonard.

The rest of the week will be busy also, up until Friday, when a layoff will probably be granted.

TRACES UNIVERSITY HISTORY FOR ARTS COLLEGE FRESHMEN

(Continued From Page One.)

U Hall is First Building.

University Hall was the first building to be erected. The material for the foundation was hauled from Plattsmouth. The stone put in the foundation was not adequate and soon began to crumble. The whole building had to be bolstered up. There was some talk of moving the University at that time but Lincoln capital was secured and a large fund raised to repair the structure. This first structure was heated with base-burners and one janitor did all the work.

The next building to be erected was the State Laboratory, now known as the Pharmacy Building. It was erected at a cost of \$25,000. Nebraska Hall followed, and soon began to crumble as much as the first building had. It has been recently repaired.

Armory is Fourth.

Grant Memorial Hall, now the Armory, was then built, and was followed by the north wing of the Library, which was the first permanent structure on the campus. Others on the original campus were the Mechanic Arts Building, Museum, Physics Building, Administration Building, Mechanical Engineering Building, and the Law Building.

At this time the original four blocks of land granted by the legislature became rather crowded and so \$100,000 was raised with which the present athletic field was purchased. The campus was expanded from eleven to fifty-three acres, and expert architects were hired to plan several more uniform buildings. These buildings are now on the campus and it is expected some day to add several monumental ones. "To the generosity of future legislatures we leave the building of these structures," said the Chancellor.

Ag College is Part.

From the very start of the school, the College of Agriculture and the University proper have been one organization. The College of Arts and Sciences was first organized, and was soon followed by Teachers College and others. The Pharmacy and Business Administration Colleges are the newest on the campus. The College of Medicine was placed in Omaha because of an affiliation with an organization there.

Chancellor Avery likened the University to the federal government. Each student is a citizen and his college is a state. The deans are the governors and the Chancellor is the president.

Student affairs were not so numerous in the early days as they are now.

Illinois Flash is Marked Man

Harold "Red" Grange all-American halfback, will be a marked man when the Illini play the Cornhuskers on Stadium field Saturday. Grange's rise has been meteoric.

Last year, when a sophomore, he broke into the limelight in the Nebraska game—the first of the season. His work spelled defeat for the Cornhuskers.

After his remarkable showing in the Nebraska game, Grange was a marked man for the rest of the season. In spite of this he managed to get away for long runs and to distinguish himself by his all-around play in every game.

Grange is a great open-field runner and he hits the line like a cannonball. Illinois coaches have been trying to make a triple-threat man of him, but he has never shown anything startling in the line of kicking and passing. On the receiving end of passes his work has been sensational.

This is Grange's second year of Varsity competition. Having made the all-American last year he is expected to repeat.

Football experts expect Grange to become one of the most talked-of men in American college football. Few men in the past few years have had as swift a rise to fame and little else than a serious injury can keep him from taking his place among the great players of football history.

Last year he was kept out of several games of lesser importance because of the fact that the coaches wished to take no chances on losing his services for big games. He will undoubtedly appear in the Stadium field to aid the Illini in the Nebraska game—one of the greatest inter-sectional contests scheduled.

Huskers Have Lost Only One of Four Games with Illini Gridmen

In the four games played between the Scarlet and Cream and Illinois, the Cornhuskers have been victorious three times. Last year was the first time Nebraska bowed before the Orange and Blue. Nebraska will have a chance for revenge Saturday when the Illinois cohorts, headed by Captain Rokusek of Omaha, and the famous "Red" Grange, invade the Husker camp.

The defeat of last fall, however, is noting to be ashamed of, for Illinois

DRILL FRESHMEN ON GRID FUNDAMENTALS

First-string Squad Tries Illini Plays in Scrimmage with the Varsity.

The freshmen were again put through a short workout in passing, charging and other fundamentals, with the exception of the first-string men who were taught several Illinois plays brought back by Coach Owen Frank who scouted the Illinois freshmen-Varsity game last Saturday. After a short signal practice the freshmen were sent to the Stadium to scrimmage with the rejuvenated Cornhuskers.

About sixty freshmen have been issued equipment so far this season. The list includes George Milne, Greeley, Colo.; L. Malm, Norfolk; Dorsey McIntyre, Lincoln; John Brown, Lincoln; William Meyers, Missouri Valley, Ia.; Paul Mousel, Cambridge; Arnold Oelrich, Columbus; Harold Peaker, Kearney; Harold Nichols, Western; Glen Presnell, Dewitt; J. K. Pruitt, Scottsbluff; R. A. Randels, Anthony, Kas.; Curtis Rogers, Rapid City, S. D.; Clarence Raich, Grand Island; Fred Robertson, Broken Bow; W. J. Redfield, Omaha; A. Righter, Broken Arrow, Okla.; George Shaner, North Platte; Bob Stephens, Hastings; Gayle Stillwell, Fairbury; M. W. Schewe, Murdoch; Harold Stribling, Omaha Central; Wilbur Steele, Elmwood; Lonnie Stiner, Hastings; Lloyd Schram, Norfolk; Alva Edwards, Ft. Morgan, Colo.; Dave Foster, Rocky Ford, Colo. E. G. Ford, Burchard; Elwood Glosbrenner, Crawford; Wesley Glasgow, Shenandoah, Ia.; George M. Hooper, Fremont; Joe Harbaugh, McCook; Thomas James, Greeley; Ed Jolly, Spearfish, S. D.; J. L. Jourgensen, Casper, Wyo.; Edwin Karr, Gothenburg; U. D. Lindeman, Omaha Central; James McGrail, Cathedral; Ward Minor, Kearney; Lawrence Armour, Hubbard; T. Pickett, Scottsbluff; Avery Batson, St. Mary's, Kas.; B. A. Byrns, Cathedral high; Glenn Bennett, Ceresco, Stuart Chase, Plattsmouth; Gail Curtin, Lincoln; H. P. Conklin, Hastings; E. A. Dursch, Lincoln; G. R. Davis, Filley; H. Drummond, Pacific Grove, Ia.; Donald Stahl, Horton, Kas.; B. O. Teter, Bartley; Carl Vonis, Greeley, Colo.; Don Wilson, Harvard; Melvin Westoupal, West Point; Pearly Wyatt, Scottsbluff; M. Zuber, Adams.

Nebraska then received the kickoff and worked the ball down the field in a series of short rushes but the time was too short to put the ball across.

That Nebraska was not alone in falling before the Zupke eleven will be seen by a glance at the Orange and Blue record for the season. The scores are as follows:

- Illinois 24; Nebraska 7.
- Illinois 21; Butler, 7.
- Illinois, 9; Iowa, 6.
- Illinois, 29; Northwestern, 0.
- Illinois, 7; Chicago, 0.
- Illinois, 10; Wisconsin, 0.
- Illinois, 28; Miss. Aggies, 0.
- Illinois, 9; Ohio State, 0.

Literary societies were formed and are still flourishing, but their purpose is somewhat changed. Fraternities were not a success at first, but they have grown, until there are now large numbers of them.

The first student publications were small weeklies, and in 1890, the number was so large that it was impossible to watch their progress. They were great rivals but finally consolidated into what is now The Daily Nebraskan. The annual started out a small pamphlet years ago and is now a large volume each year.

EPIDEMIC OF COLDS HINDERS ILLINI MEN

With But Two Practices to Go, Zupke is Forced to Lighten Workouts.

(Special to The Nebraskan.)

Urbana, Ill., Sept. 30.—With but two practices left before the journey to Lincoln for the opener with Nebraska, the Illini have developed an epidemic of colds and Coach Robert Zupke has been compelled to lighten up the practice sessions.

Almost the same team which faced the Cornhuskers last year will trot on the field next Saturday. With the exception of Bernie Shively, at guard, and either Umnus or Roberts, at center, the championship team of a year ago is intact.

Shively to Be Guard.

Shively, 210-pound guard from last year's freshman team will likely fill Captain Jim McMinn's shoes while Umnus or Roberts, both subs last year, will step into the position left vacant by the graduation of Viv Greene.

Captain Rokusek will be at his old job at left end and Kassel, whose specialty is snaring passes, will probably be at the other. Chuck Brown and Dick Hall, both vets, seem to have the call on the tackle positions and Roy Miller, will again fill a guard position.

Red Grange, Nebraska poison last year, looks as good as ever in practice and the rest of last year's backfield are again in uniform—Harry Hall, quarterback; Britton, fullback; and McLwain, line-plunging halfback.

May Shelve Backs.

It is possible, however, that part of the title-winning back-field will watch the game from the sideline. Zup has been using Ray Gallivan, freshman last year, at quarterback on the first team, with Benny Leonard and Burt Dancy also from last year's yearling squad getting their chance in the Varsity runs.

Leonard is a 10-foot man in the hundred and hits the line accordingly; Dancy is a speed-boy who looks well in a broken field.

Coach Zupke has been rushing the Varsity all season in an attempt to get it ready for the early opening date. With but three days conditioning work he drove the men through a stiff scrimmage and they have been at it ever since until the epidemic of sniffles caused a let-down.

UNIVERSITY Y. W. C. A. LISTS WOMEN ACTIVITIES

(Continued From Page One.)

Americanization workers will be called for within a short time by the social service committee under whose direction that work, as well as campfire and philanthropic work is carried on.

The finance drive will be staged simultaneously with that of the Y. M. C. A., November 5, 6 and 7. Funds for the Grace Coppock memorial will be raised after the first of the year.

Bible study classes will be announced soon for the first semester by the Bible study committee. Courses continue for six weeks.

The church relations committee composed of representatives from each denomination has co-operated with the student pastors in obtaining the church preference of each new student registered. Church affiliation Sunday will be the next event of importance.

portance with which the committee will be directly concerned.

Other committees including posters, social, office and publicity are continuing routine work with some variations and additions to the work of each. The social committee sponsored a party for freshmen the first evening of registration week and will cooperate with the Y. M. C. A. in giving the annual Y. M. C. A.-Y. W. C. A. mixer on October 4. The poster committee is studying "Art in Church Architecture" besides providing the association with appropriate posters for each event.

Five hundred N books have been distributed among woman students from the office in Ellen Smith Hall. Miss Appleby has talked personally with each woman who called.

H. R. Lewton, instructor in pharmacy, who underwent an operation at the Lincoln Sanitarium some time ago is reported to be getting along very well. He expects to be back to resume his work about October 15. Dean R. A. Lyman, Prof. J. B. Burt, and Mr. A. A. Soulek are teaching Professor Lewton's classes.

Professor Swezey Offers Lecture And Laboratory Astronomy Courses

Did you know that the Big Dipper is not a separate constellation, but forms the tail and back of the "Great Bear" (Ursa Major)?

It is to learn such things as this that Prof. G. D. Swezey has offered two courses in astronomy, one a three-hour course, the other a one-hour. The former is made up of two hours of lectures, and a two-hour laboratory on Wednesday nights, the latter is a lecture course touching only the salient points. It is the aim of these courses, not to be mathematical but to give the student who does not expect to be an astronomer a general idea of what the universe is like. No textbook is used but mimeographed instructions prepared by Professor Swezey are given out.

The first semester's work covers ten salient points in astronomy, such as the constellations, the moon, the earth as a planet and its motions, and the use of the telescope. The second semester will be devoted to the study of planets, stars, meteors and

comets. The lectures are illustrated by lantern slides.

The laboratory period is for the study of the sky, weather permitting. If cloudy, a lecture, illustrated by slides, is given. Besides the big telescope there are instruments to measure the positions of the heavenly bodies to find the time by the stars.

Republican Club Will Hold Rally Wednesday

The Student Republican Club of the University of Nebraska will hold a rally in the Social Science Auditorium Wednesday night at 7 o'clock for the purpose of arranging the general plans of the organization, the executive committee of the organization announced yesterday.

The requirements for registering and voting by University students will be brought up at the meeting, Frank Johnson, chairman of the executive committee said yesterday. All Republican students in the University are invited.
