Mid-semester Reports To Come in Saturday

Reports on students' work to the mid-semester period will be made by Saturday, November 15, to the office of the executive dean. The policy of the Scholarship Committee which will consider the cases of delinquency is to be lenient with freshmen who have failed in half or more of their work if there seems to be a chance of their getting through at the end of the semester; but other students delinquent to that degree are dropped from the University.

He recently won two preliminary competitions in the east—for another heroic World-War monument in New York City and for a portrait statue for Tifton, Georgia. AGGIE HARRIERS ARE CHAMPIONS

Husker Cross-country Men, Handicapped by Injuries, Fail to Place.

AMES IS SECOND IN ANNUAL VALLEY MEET

(Special to The Daily Nebraskan.) DRAKE UNIVERSITY, Des Moines, Iowa, Nov. 8.—Handicapped by injuries, Nebraska's cross-country team was unable to place in the annual Missouri Valley run here today when Kansas State Agricultural College won from Ames, champions last year, by a substantial margin.

The Husker squad was badly off form. Captain Paul Zimmerman and James Lewis, winner at the Kansas meet, were able to place only among the first thirty. Zimmerman has been on the sick list since the Oklahoma race and Lewis has been ill with chronic appendicitis. Jack Ross and Lester Lawson were also handicapped by illness.

Lawson was the first Nebraskan man to finish, gaining fourteenth place. Ross was the only other man to finish in the first twenty. Frank Hays, troubled by an infection on his heel, ran a game race but could place no better than thirtieth. Ellis McCartney, the remaining man on the Cornhusker team, was badly off form.

Drake University pulled the surprise of the run by placing third, while Kansas, who was defeated by Nebraska two weeks ago, took fourth. Rutherford, Oklahoma captain, finished first in the record time of twenty-six minutes, fifty-two and eight-tenths seconds. Kimpfort, Kansas Aggies, was second; Salee, Kansas Aggies, third; and Pratt, Kansas, fourth.

IMFORMAL PARTY IS GIVEN NEW WOMEN

An informal afternoon party was given at Ellen Smith Hall for the upperclasswomen who are here at the University of Nebraska for the first time. Forty guests were present.

Baskets of fall flowers were placed about the rooms, following a color motif of brown and yellow which was also carried out in the ices and cakes served late in the afternoon. Harriet Klotz, Lincoln, '25, gave several readings and Helen Danielson, Lincoln, '28, played for the dancing and games.

The membership committee of the Y. W. C. A. was in charge of the party, and members of the cabinet and staff were hostesses.

SUMMER SCHOOL DIRECTORS MEET

Dean Sealock of Teachers College Attends Convention at Indiana U.

Dean W. E. Sealock of the Teachers College attended a meeting of the directors of summer sessions of various universities at the University of Indiana, Bloomington, October 31 and November 1. Among the questions of importance discussed were the following: the amount of credit which graduate students should receive in a six-weeks summer session, which varies from four hours up; the cost to the student, which ranges from almost nothing at the University of Texas to \$8 a credit hour at Columbia; and the matter of residence in the summer session as a prerequisite to the master's degree, which it was decided should not be less than 24 weeks.

The directors were of the opinion that the point of saturation for attendance at the summer sessions had been reached and that from now on only a very nominal increase would be shown. Nebraska and Iowa seem to present conditions which would lead to go a little beyond a mere nominal increase for the next year or two.

Reports indicated that in general there is a decline in the interest in modern languages with a slight increase in Latin; that there is no increase in the number taking sciences—in the case of chemistry, there is a decrease in practically all of the institutions; that the number taking social sciences and education has increased rapidly in the past three years.

The University Library will have an exhibit of fine book bindings at the Lincoln High School this week as part of the display for Children's Book Week, which is being held nationally.

They will occupy their usual seats.

The oath which the freshmen will take is: "I pledge allegiance to my flag and to the country for which it stands. One nation, indivisible, with liberty and justice for all."

VALLEY CLUBS WILL COMPETE

Hold Intercollegiate Contests at Kansas City for Varsity Singers.

SIX ORGANIZATIONS WILL TRY FOR CUP

The Missouri Valley Intercollegiate Glee Club contest will be held in Kansas City February 14, according to final plans formulated at a meeting of the contest association held recently in Kansas City. Glee Clubs from the University of Missouri, University of Oklahoma, Washington University, Kansas State Agricultural College, Iowa State Agricultural College, and the University of Nebraska will compete. A silver loving cup will be awarded the winner, to be come its permanent possession if won three consecutive years.

The competition will consist of three songs to be sung by each club: a prize song selected by the association; a song of the club's selection; and the college song of each university represented. Judging will be on the basis of pitch, tempo, and general appearance of the contestants. The judges, prominent in musical circles of the Middle-West, are Carl Busch of Kansas City, Daniel Prothero of Chicago, and Dean Fischer of Illinois.

Give "Soldiers Chorus."

The meet will take place in Convention Hall. In addition to the regular competition between the clubs a concerted number, "Soldier's Chorus" will be given. Over two hundred voices will unite in this, directed by Dean Swarthout of the School of Music, University of Kansas. The silver loving cup presented to the winner is being given by the combined alumni associations of the universities entered in the contest.

The Missouri Valley contest is the outgrowth of a movement all over the country, which had its beginning in the East. Three large Eastern Universities met at New York in the first contest of this kind, and it was so successful that the plan has been followed out in other sections of the country. Organization is now almost complete and present plans provide for each district contest winner's participation in the competition at New York.

Organize Permanently.

The permanent organization in the Missouri Valley was only recently organized in Kansas City. Representatives from Valley schools met and formed the Missouri Valley Glee Club Contest Association. The following are officers: Prof. Larremore of the University of Kansas, president; Dean Ira Pratt of Kansas State Agricultural College, secretary; Dean James Quarles of the University of Missouri, treasurer. These officers, with the executive board, will form the controlling committee of the association.

The executive board is composed of faculty representatives of each of the universities in the association. Dean Parvin C. Witte of Nebraska Wesleyan University is the representative of Nebraska on the board. Dean Witte is director of the Varsity Glee Club of the University of Nebraska. He is well known in musical circles and for several years sang in grand opera.

The songs to be sung by the Nebraska Glee Club in the competition are as follows: the prize song for this year, "Come Again, Sweet Love," by Dowland; the number selected by the club, "Tenebrae Facite Sicut," a counterpart selection; and the college song, "There is No Place Like Nebraska."

WOMEN TO TAKE PART IN DRIVE

Ruling of Pan-Hellenic Association Will Not Apply to Cornhusker.

CAMPAIGN INCLUDES NON-SORORITY GIRLS

The recent ruling of the Women's Pan-Hellenic Association against competitive sales drives among University women will not apply to the Cornhusker sales campaign, according to announcement made following a meeting of the Pan-Hellenic Association Friday afternoon.

This action was taken because it was felt that the recent ruling did not give the Cornhusker staff time enough to plan a campaign of a different type. The Cornhusker subscription campaign is set for the week of November 17-21.

It was pointed out by some of the Pan-Hellenic members that the editors and business staff of the Cornhusker have been making plans for five months and incurring financial obligations for the Cornhusker on the theory that they would have the same sales facilities they have had in the past. The association did not wish to impose a last-minute ruling which would endanger the financial success of the Cornhusker.

No Modification.

This decision does not in any way modify the original resolution discouraging campus drives, nor does it affect any other campus activity but the Cornhusker. It merely indicates that the previous resolution was passed too late to be considered binding on the Cornhusker drive.

The editor and business manager of the Cornhusker gave the Pan-Hellenic assurances that the sales campaign this year would be extended to include all University women, non-sorority as well as sorority. There will be a few prizes offered, both for the highest number of individual sales and the highest number of group sales. The women of the dormitories and literary societies will be urged to participate.

"I am sure that the women of the University will throw themselves wholeheartedly into the Cornhusker campaign," said one of the Pan-Hellenic members, "because they want to do their part to assure the success of the yearbook. We feel that the case of the Cornhusker in this instance presents an emergency, and although we dislike the principle of having so many drives, the women of Nebraska always rise to an emergency and do the fair thing."

"Yellow Pup" Bar and Gambling Games Provide Entertainment for Evening.

Hundreds of students last night thronged the color-bedecked Armory at the annual Military Carnival given by Scabbard and Blade, honorary military society. Faro, roulette and dice games, together with dancing, furnished the chief diversions of the evening.

Katherine Everett, member of Pi Beta Phi, was the feature dancer. Dressed in a flaming red costume, she executed a Spanish dance during the intermission.

ALUMNUS IS JOINT INVENTOR

Long Helps Develop Device for Transmission of Pictures.

M. B. Long, '17, research engineer in charge of carrier systems research in the laboratories of the American Telephone and Telegraph Company and the Western Electric Company of New York City, is joint inventor of a picture transmission device and was in charge of the first commercial demonstration from Cleveland to New York and from New York to Chicago.

The carrier system of transmission is a device whereby telephone and telegraph lines or even power lines can be used to carry communications by having the transmitting currents superimposed upon the regular currents of the system and filtered out at the receiving end of the line. It is being developed to give multiple transmission of messages as well as to use high voltage power transmission lines as lines of communication. The work that Mr. Long is doing further develops the scheme to the transmission of pictures.
