

THE DAILY NEBRASKAN

VOL. XXIV—NO. 50.

THE UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, TUESDAY, DECEMBER 2, 1924

PRICE 5 CENTS

BALL TICKETS TO GO ON SALE

Students Will Be Allowed to Buy From 2 to 3 O'clock This Afternoon.

OFFICERS HAVE TAKEN OVER HUNDRED ALREADY

Students desiring tickets for the annual Military Ball Friday evening at the City Auditorium may purchase them today from 2 to 3 o'clock at Nebraska Hall 204, according to Emmett V. Maun, in charge of ticket sales for the event. Cadet officers have purchased one hundred of the number allotted them and have today in which to get the remainder. If they do not buy them they will be put on sale to the general student body.

Final plans for decoration, refreshments, and music were drawn up at a final meeting of committee chairmen held last night. The auditorium will present a military atmosphere with crossed swords and rifle stacks included in the decoration scheme. Music will be furnished by a special twelve-piece orchestra under direction of the Kandy Kids.

The grand march, led by Cadet Colonel Charles Caldwell and Miss Dorothy Brown, honorary colonel, will be a feature of the evening. This will be the first appearance of Miss Brown in the uniform of honorary colonel of the regiment. She was elected at the class elections in October.

The Ball is the official opening event of the formal season. Among the list of patrons and patronesses for the event are Governor and Mrs. Charles W. Bryan, Major General and Mrs. George B. Duncan, and Chancellor and Mrs. Samuel Avery.

Heads of committees are cadet officers. They are: decorations, J. Raymond Totterhoff; music, David G. Richardson; refreshments, Harold E. Warren; invitations, Roland L. Eastabrooks; plans, James D. Marshall; checking, Nathaniel Foote.

DAVIDSON GUEST OF SIGMA TAU

Former Nebraska Alumnus and Founder of Engineering Society to Be Here.

Professor J. B. Davidson, Nebraska alumnus, now head of the department of agricultural engineering at Ames, will be Sigma Tau's honor guest at a banquet at Hotel Lincoln at 6:30 o'clock Saturday evening.

Previous to his graduation from the University of Nebraska in 1904, Mr. Davidson was one of the founders of Sigma Tau. He is now acting as temporary chairman of the Grand Council of Sigma Tau, to membership in which he was recently elected, as was Mr. C. A. Sjogren of the department of mechanical engineering at the University of Nebraska.

Professor Davidson was the originator and first chairman of the department of agricultural engineering of the University. After a few years here, he went to Ames to head the agricultural engineering department.

After several years spent at Ames, he became chairman of the agricultural engineering department at the University of California at Berkeley. Since his return to Ames from the California institution, Professor Davidson has been at the head of the mechanical engineering department, as well as that of agricultural engineering.

DR. WEAVER WRITES PAPER

Helps in Discussion for Preparation of University Studies.

A discussion of the "Size and Structure of the Leaves of Cereals in Relation to Climate" has been written by W. E. Bauner, professor of botany at the University of Oklahoma, and Dr. W. L. Weaver of the University of Nebraska.

A masters thesis by G. N. Goldsmith of the Carnegie Institute at Washington, concerning "Some Field Instruments and Their Applications," is combined with this paper to make up numbers three and four of the University Studies.

Chemistry Instructor To Speak Tomorrow

"Absorption of Certain Vapors by Activated Charcoal" will be the subject of Dr. C. M. Knudson of the chemistry department at 3 o'clock tomorrow afternoon in the chemistry lecture room, before the regular meeting of the section. Dr. Knudson comes from the University of Iowa where he completed his doctorate, studying on this subject for his thesis. The lecture is open to everyone.

Dr. Kollar of Vienna Tells of Work in Children's Arts and Crafts Class

Dr. H. C. Kollar of Vienna, Austria, addressed a meeting in the Art Gallery Saturday evening on "The Cizek School at Vienna." Dr. Kollar told of the children's class taught by Professor Cizek in the School for Arts and Crafts at Vienna.

"Professor Cizek has instituted a new idea in the teaching of children in the arts and crafts," he said. "He uses the simple method of not teaching at all, in the strict sense. The instructor is a guiding influence who stands by always ready to help and aid the small child, but who does not overshadow the pupil and try to force him full of his own ideas."

Professor Cizek's class is a school for children from the ages of two or three to seventeen or eighteen. Children under seven years of age are separated from the older ones, making separate divisions in his teaching. Dr. Kollar, who is affiliated with the Vienna school, is touring the country in the interest of raising additional funds for the school. He has brought examples of the children's work and exhibits them with his lectures. The originals are on exhibit in Omaha, reproductions being brought here for his lecture. Many works in paints, black and white, wood carving, and wood cuts were brought from the Vienna school.

Rev. Paul Johnston To Speak at Vespers

Rev. Paul C. Johnston, pastor of the Westminster Presbyterian church, will give an address on the subject of the "Audacity of Faith" at Vespers this evening at 5 o'clock in Ellen Smith Hall. Viola Forsell will play a violin solo and the vesper choir will sing a special anthem. Elsa Kerkow will preside at the services.

RECITAL PLANNED BY MUSIC SCHOOL

Fifteen Women Students to Give Vocal and Instrumental Selections.

A student recital will be presented by the University School of Music at 8:15 this evening in the Temple Theater. Fifteen women students will give vocal or instrumental numbers of a classical nature.

Following is the program: Schubert-Liszt—Thou Art My Repose—Lenore Layton. Terschak—Reproche, Op. 19—Nina Butler.

Liszt—Valse Oublie—Wilma Anderson. Popper—Hungarian Dance—Mary Creekpaum. Chopin—Nocturne, G major—Lillian Miller. Verdi—O Patria mia, from "Aida"—Hannah Keegan.

Beethoven—Sonata, Op. 13 Grave—Alegro de molto e con brio—Lily Burgess. Chopin—Fantasie Impromptu—Jeannette Olson. Giordani—Caro Mio Ben; Cadman—I Hear A Thrush at Eve—Florence Hilton. Friml—Concert Waltz—Bernice Tillma.

Glinka-Balakirew—The Lark—Irene Anderson. Wieniawski—Romance from Second Concerto—Elizabeth Luce. Denmore—Nocturne; Salter—When Lovers Dance upon the Green—Marian Yoder. Violin Obligato—Mary Ellen Edgerton. Dohnanyi—Rhapsody, F sharp minor—Margaret Malowney.

Colorado Football Squad May Be Sent Across Pacific to Play Hawaii Team

Sixteen members of the University of Colorado football team will be sent to Hawaii by the Boosters Club, local campus organization.

Every possible plan is being used to raise the \$2,500 needed to send the team to Hawaii where they will meet Honolulu. Letters have been sent out by the Boosters Club to all alumni asking for their support. A canvas of the business houses will be made and all the money taken in from the sale of candy and pop at the games will go toward this fund. Plans are also under way for renting a local theater and giving a stereopticon lecture on Hawaii, for which a small sum will be charged. The team is being sent by the Boosters Club as far as the Pacific

"Work done by small children is remarkable," said Dr. Kollar. "The age from one to seven is the stage of the purest art in human beings, for it is then that the child draws from sheer desire for expression, with no outside influences acting upon his art sense."

Some work was especially attractive. No models are used in Professor Cizek's class and it is all done on a large scale. Children are furnished with large brushes and large amounts of materials, with no restraint as to the size of their work. One student, a girl of fourteen years, has done some very good work in wood cuts, according to Dr. Kollar. One cut, a memorial to soldiers of the Great War, was declared to be one of the best examples of that kind of work ever done.

Other children of fourteen or fifteen years have done work of all kind, large scale paintings and modeling. All of the work seems to express an idea of freedom and lack of restraint on their drawing.

One interesting development since the establishment of the children's class is the request of the South Kensington Museum for pieces of the children's work. That is a great step, said Dr. Kollar, in that it shows that art workers are beginning to realize the value of having examples of children's work.

DR. DYER WILL GIVE ADDRESS

"Sound Economics and Americanism" to be Subject of Speech Thursday.

PLAN CONVOCATION IN THE TEMPLE THEATER

"Sound Economics and Americanism" is the subject upon which Dr. G. W. Dyer, professor of economics at Vanderbilt University, will speak at a general convocation held at 11 o'clock Thursday in the Temple Theater.

Dr. Dyer who is known as a crusader for sound economics and widely known for his oratorical powers in conveying to public audiences the correct fundamentals of economics and Americanism is at the present time on a nation-wide speaking tour under the auspices of the National Industrial Council.

A brief statement of Dr. Dyer's life and experience as related by the National Industrial Council will indicate the valuable human background which this man brings to his present work.

He went to Nashville, Tennessee, about twenty-five years ago, after finishing his preparatory education in Virginia, which is his native state, to enter Vanderbilt University. After graduation he went to the University of Chicago where he remained for a couple of years, taking a post-graduate course, then returning to Vanderbilt as a professor of political economy at that institution.

Subsequently a chair in social science at Vanderbilt was endowed, to which Dr. Dyer transferred his professional duties and which he has occupied ever since. He is a bold and fearless speaker. Not only has he been active in educational matters, but he has been equally as fearless and active in religious and industrial beliefs.

He is a believer in the open shop and thinks that a more practical education than they are getting now should be given to the boys and girls of today.

While in Nebraska, Dr. Dyer will speak in Lincoln, Omaha, Hastings, and Superior. Wednesday evening he will be the principal speaker at the banquet of the Nebraska Manufacturers' Association held in Omaha.

INTERFRAT CAGE TOURNEY STARTS

Phi Gamma Delta and Silver Lynx Teams Win in First Games Monday.

PRICE OF ADMISSION REDUCED TO TEN CENTS

YESTERDAY'S RESULTS.

Phi Gamma Delta, 19—Alpha Delta, 5.

Silver Lynx, 22—Zeta Beta Tau, 13.

GAMES TODAY.

Sigma Nu vs. Pi Kappa Alpha at 4:00.

Alpha Tau Omega vs. Farm House at 4:20.

Phi Gamma Delta and Silver Lynx basketball quintets were easy winners in the opening games of the annual interfraternity cage tourney which started yesterday afternoon in the Armory. The Phi Gam hoopmen defeated the Alpha Delta team by a 19-to-5 score while the Silver Lynx handed the Zeta Beta Tau team a 22-to-13 reverse. The feature of the afternoon's play was the attempted comeback of the Zeta Beta boys who were whitewashed 16 to 0 at the end of the first half in their game with the Linkmen.

This afternoon the second brace of games is scheduled with the Pi Kappa Alphas meeting the Sigma Nu's in the opener at 4 o'clock and the Farm House five playing the A. T. O. team at 4:30. Following the small turnout at the initial contests the N Club committee in charge of the fraternity compet urges that all basketball enthusiasts attend the remainder of the tournament games. Admission to the games has been cut to ten cents.

Schaner and Grace Star.

The winners of yesterday's contests will meet in the second round of the tourney. The "Fiji" Alpha Delt twist started out like a close game when the two teams played seven minutes before Schaner of the winners scored the first field goal of the 1924 meet. Schaner was the outstanding performer of the first contest scoring ten of his team's tallies and covering the indoor court like a veteran. The score at the end of the first half stood 6 to 2 in favor of the Phi Gams, who, by virtue of their win, claim the title of "south Lincoln."

Grace, rangy center for the Silver Lynx floormen, piled up an individual count of sixteen points during the Lynx-Zeta Beta Tau game, something for high-pointers to angle at for a while. Ravitz of the losers led his mates in their attempted comeback in the second half, after being held scoreless during the first period, when he threw four field goals and one free throw.

Dr. Pound Lectures At Missouri School

Dr. Louise Pound of the department of English is spending this week-end in St. Louis and Columbia, Mo. On Friday she took part in a discussion of "The Value of English Linguistics to the Teacher," before a meeting of the college section of the National Council of English Teachers. On Saturday morning she spoke on "The Living Language," at Stephens College, Columbia, Mo.

Working on New Phone Book for University

The University is publishing a new telephone directory which will be ready for distribution January 1. All changes and additions should be reported, in writing, to the Job-System Office not later than December 10.

PLAYERS GIVE "LOYALTIES"

Galsworthy's Play To Be Presented This Week in Temple Theater.

MANY EXPECT IT TO BE ONE OF BIG SUCCESSES

Galsworthy's play, "Loyalties," will be presented Thursday, Friday and Saturday by the University Players in the Temple Theater as the third production to be staged this year.

"Rollo's Wild Oat" and "Whispering Wires," the first two productions this year, were declared by many to be unusual successes and much is expected of "Loyalties." The play is under the direction of Herbert Yenne, instructor in education and dramatic art.

The play has been said by some critics to be one of the best of John Galsworthy's plays, and that it stands well near the top of the better plays of recent years. "It is an inspirational creation that moves with the swiftness of an arrow and the certainty of time," says Mr. Hornblow of the Theater magazine.

The plot deals with the great problem of racial and social equality. According to Arthur Erickson, business manager of the University Players, "The play is worked out so well that before the first scene is over you think yourself enjoying an absorbing mystery play and look for the 'Bat' or some other mystery play symbol to appear any moment." The cast contains thirteen men and four women.

TO HELP INSTALL KANSAS CHAPTER

Nebraska Members of Iota Sigma Pi Chosen to Start New Group at Lawrence.

Nebraska chapter of Iota Sigma Pi, honorary chemical sorority, was chosen to send delegates to install the new chapter at the University of Kansas. Lucile Bliss, '25, Omaha, president of the local chapter, and Ann Davey, '25, Tecumseh, treasurer, went to the installation which took place last Saturday.

Iota Sigma Pi is the only national organization of the kind in the world. Kansas chapter, Kallium, is the seventeenth chapter of the organization. Of the eight girls belonging to Kansas chapter, three are members of Sigma Xi, organization of the encouragement of original investigation in science.

Alumnus Markets Insulator Tester

Claudius E. Bennett, E. E. '09, is acting chief engineer of the Riegos y Fuerza del Ebro, S. A., operating in Barcelona, Spain. During the past few years he has been making special studies of the insulating value of high-potential transmission-line insulators. The Electrical World of April 12, 1924, describes the alicometer—an insulator testing device invented and now being marketed by Mr. Bennett.

Eastern Professor Says He Has Found Perfect Language at Last

A new universal language known as Ido, which he terms "the most perfect language in existence," is being advocated by the Rev. F. L. Odenbach, seismograph observer of John Carroll University at Cleveland.

Speaking recently of Ido, Father Odenbach said: "The telephone and radio have brought the peoples of the earth within speaking distance, but the scenes enacted are suggestive of what must have happened at the Tower of Babel. The remedy, however, is in Ido, a language which may be learned at home in a few months. The salient features of this new and perfect vehicle of thought are: The alphabet is the English one, with a single sound for each letter; the spelling is absolutely phonetic; every word has but one invariably meaning. 'The accent is governed by a single rule: the infinitive form has the

BANQUET COMES DECEMBER 12

Annual Men's Affair To Be in Scottish Rite Temple.

The annual Cornhusker Banquet, given for all football men, will be held this year December 12 at 6 o'clock at the Scottish Rite Temple. Tickets for the affair, which is to include an elaborate program, will sell at one dollar.

Robert Joyce, a Lincoln business man, has been selected as toastmaster. Mr. Joyce was toastmaster at the banquet two years ago. Arrangements are being made for 1,300 people, an increase of 300 over last year.

RICE TO GIVE FORUM SPEECH

Will Start Discussion on Views of Life Held by Various Peoples.

JORGENSEN TO TELL OF ORIENTAL LANDS

The first of a series of discussions at the World Forum on the views of life held by various peoples will be presented at the luncheon at the Grand hotel Wednesday noon by Prof. J. A. Rice, Jr., acting chairman of the department of ancient languages, who will discuss the Greek view of life. Tickets are twenty-five cents and are on sale at the Y. W. C. A. office in Ellen Smith Hall and in the Y. M. C. A. office in the Temple.

Arthur Jorgensen, general secretary of the University Y. M. C. A., who was connected with the Japanese Y. M. C. A. for twelve years, will tell of the Oriental views next week. Special attention will be given to the Buddhist views by Mr. Jorgensen. The following week Rabbi Starrels of the Jewish reform congregation of this city will present a discussion of Jewish beliefs and the series will be concluded with a discussion of the correct Christian views of life which will probably be given by Dr. John Andrew Holmes of the First-Plymouth Congregational Church of Lincoln.

"This series of discussions should be of special interest to all students who have any pretense of thoughts on the meaning of life," said Mr. Jorgensen. "We are planning the luncheon so that there will be plenty of time for discussion and we hope that students will ask questions and start a real live discussion after the speaker has presented his views."

To have more time for discussion the luncheon will start promptly at 12 o'clock and the speaker will be given a little less time than usual. Because of the necessity of knowing the number of students who will attend, no tickets will be sold after six o'clock this evening. Those who do not buy tickets will be charged thirty-five cents at the door.

Professors Attend Meeting of Society

The meeting of the Southwestern section of the American Mathematical Society was held at Iowa State College, Ames, Friday and Saturday, November 28 and 29. The University of Nebraska was represented by Prof. M. G. Gaba and Prof. T. A. Pierce.

Few Names Omitted in Daily Nebraskan

The following names were omitted from the list published in The Daily Nebraskan of those formally initiated into the Delian Literary Society last Monday night: Leona Davis, Albert Friedli, Ludicia Fitch and Mabel Hintz.

Eastern Professor Says He Has Found Perfect Language at Last

A new universal language known as Ido, which he terms "the most perfect language in existence," is being advocated by the Rev. F. L. Odenbach, seismograph observer of John Carroll University at Cleveland.

Speaking recently of Ido, Father Odenbach said: "The telephone and radio have brought the peoples of the earth within speaking distance, but the scenes enacted are suggestive of what must have happened at the Tower of Babel. JUDGING TEAM WINS CONTEST

Nebraska Agricultural Students Beat Those of Twenty-Three Colleges.

D. A. BARNES TAKES INDIVIDUAL HONORS

A team consisting of five men from the University of Nebraska was awarded first honors in the collegiate livestock judging contest at the twenty-fifth International Livestock Exposition. The Nebraska team, in competition with twenty-three other state universities and agricultural colleges throughout the United States and Canada, received a total score of 4,386 out of a possible 5,000 points. This score was the composite of the five scores for individual competition in classes of horses, cattle, sheep, and hogs. The Nebraska team received the highest final score ever made in team competition in the intercollegiate division, fifty-five points better than last year's winner. Dorsey A. Barnes of Loretto took high individual honors in all class competition with a total of 909 out of a possible 1,000 points. Honor M. Ochner, Madison, another member of Nebraska's team, was fourth with 895 points. Both of these men are seniors in the College of Agriculture, and both will go into the pure bred livestock industry when their college courses are completed.

This gives the Nebraska team one of the most brilliant records ever produced. This team, as juniors, won first honors in the national western livestock show last year. This year, before competing at the world's largest judging contest, they received second place at both the National Swine Show at Peoria, Illinois, and the American Royal Livestock Show at Kansas City last week. The members of the team are: Nat Tolman, Lincoln; Jay Hepperly, Norfolk; Dorsey Barnes, Loretto; James M. Barnes, Chicago; Honor M. Ochner, Madison; and two alternates, Wallace Buck, De Witt, and Clarence Fortna, Octavia.

Won Once Before. W. W. Derrick, instructor in animal husbandry, has coached the winning team. Mr. Derrick graduates from the Texas Agriculture and Mechanics University in 1919. Nebraska has been in the international contest every year since 1908, but only once before did the Nebraska team win first place. In 1919, when only twelve teams were in the competition, Nebraska won with a spread of more than 350 points between first and second place. Missouri won second place in the team standing for all class scores with 4,231 points, Ohio State was third with 4,220, and Kansas State College was fourth with 4,208. In the sheep classes, W. L. Bluck, Ohio state university, was awarded first honors with 248, only two points short of a perfect score, and the highest score ever turned in to the international judges. Dorsey Barnes of Nebraska was a close second with 247 points.

The judging team will remain at Chicago for several days to review the sights at the world's greatest livestock show. The faculty members who accompanied the team were: Coach W. W. Derrick; W. J. Loeffel, instructor in animal husbandry; and Professor H. J. Gramlich, head of the animal husbandry department.

"Y" CAMP LEADER SPENDS DAY HERE

Miss Hazel Allen of New York, interviews girls in Ellen Smith Hall.

Miss Hazel Allen, of New York, national director of Y. W. C. A. camps, spent yesterday at Ellen Smith Hall interviewing University and business girls interested in summer camp work. Many girls applied for positions on the camp staff at Lake Okoboji, Milford, Iowa, for the coming summer.

Summer camp work includes many things, among which are drying dishes, waiting on tables, paring vegetables, serving-room work, stenographic work, bookkeeping, running a store, acting as Postmistress, etc. Last year at Lake Okoboji there were forty-four girls on the staff.

The camps are operated by the national board of Y. W. C. A. for conference purposes. Next summer, in addition, there will be Girl Reserve conferences, Business and Industrial Girls' conferences, and conferences of any organization that makes reservations with the national board.

Miss Allen left last night for Iowa where she will visit Grinnell University, University of Iowa, Iowa Agricultural College and Drake University.
