Captain Weir May Be Unanimous Choice as All-American Tackle

Eckersall, Rockne, Jones, Warner and Walsh Select Cornhusker Leader.

Ed Weir, captain of the 1924 Cornhuskers and said to be the outstanding player in the Missouri Valley conference, according to present indications will be a unanimous choice for the position as All-American tackle.

Weir has been placed on All-American and All-Western teams by many critics and bids fair to gain the same honors from other writers. Walter Eckersall, Chicago sports writer and recognized as one of the greatest western critics, places the Cornhusker on his All-American team.

"Weir first gave evidence of his wonderful ability in the Illinois game," says Eckersall. "He broke

through repeatedly to smear plays and tackled Grange often. He played the same kind of game throughout the year and was the main factor of a successful season at Nebraska."

The choice of three nationally known coaches, Glen Warner of Stanford, Knute Rockne, Notre Dame, and Tad Jones, Yale, is unanimous in selecting Weir as All-American tackle and a selection by the All-Sports magazine, compiled from reports of coaches all over the country, gives him the same honor.

David J. Walsh of New York City, nationally known sports writer and critic, also placed Weir on his first All-American team, which was published yesterday.

The youngest captain who ever led a Nebraska team, Weir will be back again next year to lead the Cornhuskers and to play his driving game on the line.

Inventor of Clavilux to Present Instrument at Two Performances

THE CLAVILUX.

Thomas Wilfred, inventor of the Clavilux, is shown at the keyboard of his instrument.

The Clavilux, the first instrument to make possible the use of light as a fine art, will be introduced to Lincoln people for the first time when its inventor, Thomas Wilfred, appears in recital with his creation at the City Auditorium at 2:30 o'clock this afternoon and at 8:15 o'clock this evening.

The coming of Mr. Wilfred with his instrument has attracted the attention of many University and Lincoln people. Those who saw the Clavilux recital in Omaha last year praised the performance highly.

Classes in the School of Fine Arts of the University have been excused this evening in order that students may attend the Clavilux recital.

The artist playing upon the Clavilux released pure white light, molds it into form, makes the form move and change in rhythm, introduces texture, depth and finally color of absolute purity and in any desired intensity. The result is projected on a white screen as a silent visual composition with no more relation to music than a painting or poem has; beauty enjoyed through the eye alone.

The following comment from the Bloomington, Illinois, Daily Bulletin

is typical of the press notices which Mr. Wilfred has received:

"Thomas Wilfred, in his Clavilux recital of Monday night at Normal University Auditorium, took his hushed watchers closer to the heart of creation than they ever were swept before. The evening was such a composite of new impressions that no one person could receive them all.

"One of the first marvels of the night was when by his keyboard he covered the screen with white light and then stepping before it, his shadow was broken into the original colors. It is absolutely impossible to describe his marvelous effects."

PAN-HEL PROTESTS AGAINST NEW RULE

(Continued From Page One.)

tions en masse for the "Cornhusker." When we give our Pan-Hellenic prizes for high scholarship we throw them open to all women in school, not merely to our own members; whereas the several hundred dollars' worth of "plaques," given by the men's fraternities go to the men's fraternities only (to those having fewest failures and delinquencies.) Judging from our record in all lines, should we not rather be rewarded than be subjected to a humiliating new ruling!

In general we question the fairness and the good taste of publishing the scholarship averages of the women's fraternities. They should be sent to the national organizations and should be given publicity before

the Pan-Hellenic Association; but they are not the affair of the general public, especially since no publicity is given to the averages of women who are not fraternity members.

ELIZABETH RAYMOND, Pres.
ELINOR PICKARD, Sec.,
MARGUERITE C. M'PHEE,
Chairman of Pan-Hellenic Assn.

OKLAHOMA A. & M. COLLEGE—Adam Walsh, captain of the Notre Dame football team, is suffering from an infected ankle here. Walsh attributed the infection to a scratch received in the Northwestern game.

UNIVERSITY OF FLORIDA—The buildings and campus have been filmed as an advertisement of the University. The films will be distributed to the country clubs as well as to the theaters of the state.

Valley Cage Practice Is Well Started According to Reports

Indications Show that Kansas, Sooner and Aggie Teams Will Be Excellent.

UNIVERSITY OF OKLAHOMA—Norman, December 15.—Sooner basketball candidates were culled to a select thirteen by Coach H. V. McDermott at practice last week. The list includes five letter men and one All-Valley forward, McBride.

The Oklahoma squad will have only one week of rest during the Christmas holidays, the entire force resuming workouts at the University, December 27. The team counted on to start the season will probably be composed of McBride and Ruppert, forwards; Wheeler, center; and Dunlap and Goodwin, guards. Wheeler, center, was given a place on last year's third All-Valley team and all the expected starters are letter men.

UNIVERSITY OF MISSOURI—Columbia, December 15.—A hard season at the cage sport is predicted here for Missouri Tigers and Coach George Bond has no bright prospects greeting him.

A number of regulars of last year's team, which placed seventh in the Valley race, have graduated and another who was adjudged as perhaps the cleverest veteran on the squad is out until next semester on account of his grades. Nearly all the sophomore material available will be absent until after Christmas on the Christmas day football trip to Los Angeles.

KANSAS STATE AGRICULTURAL COLLEGE, Manhattan, December 15.—With four letter men returning, Coach Corsaut, working with a squad of sixteen men, expects a strong team for the 1925 season at the basket sport.

The only place where the Aggies are at a disadvantage is in the size of their men. The players are probably as fast as any in the Valley but are handicapped by size. It is expected that Coach Corsaut will bring through a team near the top, as last year practically green aggregation finished fourth in the Valley standings with a .500 record.

UNIVERSITY OF KANSAS, Lawrence, December 15.—Work on the fundamentals of the game was the program for the Jayhawk cagers here the past two weeks under the guiding hand of Coach F. C. Allen, Gordon and Belguard, forwards;

KOPLIN TO COACH GOPHER GRAPPLERS

Many Report at Minnesota for Daily Workouts; Meet Nebraska in February.

UNIVERSITY OF MINNESOTA, Minneapolis—Donald Kopplin, amateur heavyweight wrestling champion of Canada, will aid Coach McKusnick in preparing the Minnesota wrestling team for its 1925 schedule and is reporting daily at workouts.

The Gopher grapplers, who will meet Nebraska at Lincoln in February, are progressing steadily in work and many football men have reported. Kopplin is a freshman in the engineering college, and is ineligible to compete until next year. Beside his amateur title he was a runner-up for a position on the Canadian Olympic team.

RIFLE SEASON WILL START FEBRUARY 1

Contracts Not All yet Arranged; Forty-five Practice Daily on Range.

The intercollegiate rifle shooting season starts February 1, it was announced yesterday by Captain Eggers. Because all contracts sent out have not been returned, it is impossible to give a definite schedule at this time, but good matches are being scheduled.

Forty-five rifle men have been practicing daily on the University range, and are being rounded into form. Only thirty of these men are eligible to enter competition, however, the other fifteen being either "down" scholastically or are freshmen.

The Lone Survivor

YOU have bought several fountain pens—now suppose you buy one that is a proven success.

Buy a Sheaffer Lifetime Pen and put it in your collection. Of all the pens you have ever used it will be the lone survivor.

There is no upkeep to a Lifetime Pen. The first, last and only cost is when you buy it. Then your fountain pen purchasing is over because the Lifetime nib is unconditionally guaranteed forever.

The 46 Special at \$5.00 and the Student's Special at \$3.75 are fashioned with the same care and attention to detail that has made the Sheaffer the pen of perfection.

Worth looking into

IT'S the most interesting study in the world. What is? Why you, yourself.

Put yourself under the microscope. Examine yourself most searchingly to find out just what kind of work you have a natural aptitude for.

Don't leave your career to chance. Don't be satisfied with any nonchalant observation of what may seem to be your best field.

Upperclassmen who have applied this careful self-study will tell you it helped them pick out the "major" which fell in most closely with their natural fitness. The result—greater interest and greater profit through their whole college course.

Graduates will tell you that the man who turns the microscope on himself is happiest in his choice of a life-work.

It comes down to this—some patient analysis now may be the means of putting you on the right track for the rest of your life.
